through cinema and pop culture **Tamil Nationalism in Sri Lanka** A.R. Rajah,2022-10-31 This book examines Tamil nationalism in Sri Lanka and provides insights on how Tamil nationalism has survived the destruction of the Tamil Tigers after May 2009 and continues to thrive despite the absence of a charismatic leadership to lead it or a centralised organisation to mobilise the Tamils along ethnic nationalistic lines The ethnic nationalist ideology shaped up by the Tamil Tigers continues to remain the driving force of the Tamil polity in Sri Lanka and the Diaspora Using a Foucauldian counter historical theoretical framework the author analyses and offers answers to these questions What is keeping Tamil nationalism alive despite the demise of the Tamil Tigers over a decade ago Why do many Tamils in Sri Lanka and abroad refuse to accept a Sri Lankan political identity How are Tamils able to continue on a nationalist path despite the absence of a unified political leadership The book argues that Tamil nationalism has survived the latter s destruction because it has become counter historical It is this that has allowed despite the internecine rivalries between Tamil political parties and Diaspora groups the Tamil nationalist spirit to remain alive The author also suggests that counter history has for many Tamil political parties and Diaspora groups become the means of waging war other than through an armed struggle against the Sri Lankan state Based on field research interviews and documentary analysis the book provides empirical and unique insights on Foucault s thesis that power is multifaceted and can function in the absence of centralised mechanisms This book will be of interest to researchers in the fields of Politics and International Relations in particular those working on ethnic nationalism post armed conflict peacebuilding conflict resolution the politics in Sri Lanka diaspora politics and Foucault **State Crime and Resistance** Elizabeth Stanley,Jude McCulloch,2012-11-27 Within criminology the state is often ignored as an active participant or represented as a neutral force While state crime studies have proliferated criminologists have not paid attention to the history and impact of resistance to state crime This book recognises that crimes of the state are far more serious and harmful than crimes committed by individuals and considers how such crimes may be contested prevented challenged or stopped Gathering together key scholars from the UK USA Asia Australia and New Zealand this book offers a deepened understanding of state crime through the practical and analytical lens of resistance This book focuses on crimes ranging from gross violations of human rights such as genocide war crimes mass killings summary executions torture harsh detention and rape during war to entrenched discrimination unjust social policies border controls corruption fraud resource plunder and the failure to provide the regulatory environment and principled leadership necessary to deal with global warming As the first to focus on state crime and resistance this collection inspires new questions as it maps the contours of previously unexplored territory It is aimed at students and academics researching state crimes resistance human rights and social movements It is also essential reading for all those interested in joining the struggles to champion ways of living that value humanity and justice over power Police And Prison Mukul Biswas,2024-06-14 The Book Police and Prison mentions about the different stages of investigation carried out by Police Officers in India It starts from the time the First Information

Report is lodged in local Police Station and till the charge sheet is filed It is a long process The Book also deals with prisons or correctional homes There are 3 groups of detained persons who stay in the judicial custody One group of prisoners are those prisoners who are yet to be proved as guilty and are kept during the period when police is already investigating There is another group who had been sentenced with imprisonment after being proved guilty by criminal courts in India There is another group of prisoners who have faced sentence for not abiding by court orders There are many release processes The Book contains process relating to Parole Furlough Probation and other release processes At the same time there are discussion about Juveniles in conflict with Law whose detention process in Observation Homes and Special Homes are different than the ordinary correctional homes There is role played by Probation officers in giving Social Investigation Report before JJB The Book also speaks about the hurdles faced by the Investigating Officers in collecting evidence In Criminal Cases burden of proof is always on the shoulders of the Prosecution and wherever there is lacuna the doubt goes in favour of Defense and case ends in acquittal There is strong discussion about reforms relating to Forensic Science Laboratories in India Police system in India and Correctional Homes or Prisons in India

Sovereignty, Space and Civil War in Sri Lanka Anoma Pieris, 2018-10-25 Analyses of the Sri Lankan civil war 1983-2009 overwhelmingly represent it as an ethnonationalist contest prolonging postcolonial arguments on the creation and dissolution of the incipient nation state since independence in 1948 While colonial divide and rule policies the rise of ethnonationalist lobbies structural discrimination and majoritarian democracy have been established as grounds for inter ethnic hostility there are other significant transformative forces that remain largely unacknowledged in postcolonial analyses This ambitious multiscalar spatial study of civil war in Sri Lanka offers an intersectional de ethnicised analysis of political sovereignty drawn out by the struggle for territory Based on vital retrospective findings from the five year postwar period when wartime hostilities were still festering it convincingly links ethnonationalism to postnational border politics marketisation militarised securitisation and illiberal democracy This book argues that internecine conflict exposes the implicit violence within nation state formations mass human displacements heighten collective and individual ontological insecurity and neoliberalism makes the nation porous in unforeseen ways Based around three themes normative spaces human mobilities and exilic states it is organised into ten comprehensive chapter based explorations of a range of spatial units including homes cities routes camps and experiences of ruin that were irrevocably politicised by protracted conflict Focusing on their material transformations over a thirty seven year period the book explores what can be known of the war if we look beyond ethnicity to other salient shared geographical features of this embattled history The book uncovers how fealty to exclusionary cultures of political sovereignty aligns us with their violence limiting our capacity for empathy a boundary seemingly exacerbated by neoliberal opportunities Making use of Sri Lanka as a case study to test geographic architectural and urban methodologies for understanding violence this book acts as a provocation to rethink current readings of the particular case study while reflecting on the more general impact of

marketisation and militarisation in Asia It will be of interest to an interdisciplinary audience including those scholars interested in South Asian history politics and civil war South Asian studies border studies geography and architecture and urban studies

Political Crises in South Asia United States. Congress. House. Committee on Foreign Affairs. Subcommittee on the Middle East and South Asia,2008

Unmooring the Komagata Maru Rita Dhamoon,Davina Bhandar,Renisa Mawani,Satwinder Kaur Bains,2019-08-15 In 1914 the SS Komagata Maru crossed oceans and jurisdictions to arrive at the west coast of Canada

Canadian officials calling on legislative acts designed to limit the immigration of Indians detained the ship for two months in Vancouver Harbour. Most of the 376 passengers were then forcibly returned to India. Unmooring the Komagata Maru challenges conventional Canadian historical accounts by drawing from multiple disciplines and fields to consider the international and colonial dimensions of the voyage. By situating the history of South Asians in Canada in a global imperial context, this volume emphasizes the ways in which the Komagata Maru incident is related to issues of colonialism more generally. The contributors offer a critical reading of Canadian multiculturalism through past events and their commemoration. Ultimately, they caution against narratives that present the ship's journey as a dark moment in the history of a redeemed nation. Unmooring the Komagata Maru demonstrates that a hundred years later, the voyage of the Komagata Maru has yet to reach its conclusion.

Disaggregating Diasporas as a Force in Role Contestation Matthew K. Godwin, 2022-09-15. Using a Role Theory lens, this book investigates Tamil diaspora mass movements and interest groups as marginalised forces of domestic foreign policy influence. Until now, Role Theory has not considered diaspora mass movements as collective action actors nor looked at how marginalised diasporas influence elite foreign policy decision making. Matthew K. Godwin employs a comparative micro level decision making narrative that looks incisively at decisions faced by the British and Canadian governments in 2009 and 2013 towards the Sri Lankan civil war and its aftermath. Through qualitative elite level interviews and content analysis of other primary source data, Godwin convincingly argues that when diaspora interest group elites are leveraging the power of mass movements in concert with credible partisan advocates, they can influence role contestation. However, international institutional constraints on role behaviour may stymie their preferred role performance, especially if states are indispensable to the institutions; their behaviour may unravel. Ultimately, Godwin concludes that some states can't behave badly even when they want to. This book will be of interest to students and researchers of International Relations, Foreign Policy Analysis, Comparative Politics, Migration Studies, and to non government organisations who seek to influence governments.

Architecture and Violence

Bechir Kenzari, 2011 In today's turbulent times few subjects deserve a closer scrutiny than the interactions between violence and constructed environment Modernity's contradictory histories laid bare the fact that it is impossible to consider architecture simply a benign passive victim of humanity's violent vices Built space is as capable of incarnating violent acts as enacting them disciplining and silencing the subject in the process In this compelling volume some of the most incisive thinkers of contemporary architectural theory make manifest the intricacies of interrelations between architecture and violent events Employing a wide variety of perspectives and methodical approaches the authors examine some of the most dramatic and unexpected instances of these vexing relations Back cover

When Students Protest Judith Bessant, Analicia Mejia Mesinas, Sarah Pickard, 2021-07-29 Student political action has been a major and recurring feature of politics across the globe through the past century Students have been involved in a full range of public issues from anti colonial movements anti war campaigns civil rights and pro democracy movements to campaigns against neoliberal policies austerity racism misogyny and calls for climate change action Yet student actions are frequently dismissed by political elites and others as adolescent mischief or manipulation of young people by duplicitous adults This occurs even as many working in governments traditional media and educational organisations attempt to suppress student movements Much of mainstream scholarly work has also deemed student politics as undeserving of intellectual attention These three edited volumes of books help set the record straight Written by scholars and activists from around the world When Students Protest Universities in the Global South is the second in a three volume study that explores university student politics in the global south The authors document and analyse how generations of university and college students in the Global South responded to issues such as problems in their own universities as well as standing up against violent military dictatorships human rights abuses oppressive poverty foreign interference and the effects of neoliberal austerity regimes Contributors to this volume also reveal repeated moves by states and institutions to stigmatise and suppress student political action while highlighting how those students developed new kinds of political action further demonstrating why this rich and complex global phenomena is worthy of more attention
