Human Rights, Terrorism and Counter-terrorism, 2008 *Terrorism and Counter-Terrorism in Modern Sub-Saharan Africa* János Besenyő, Moses B. Khanyile, David Vogel, 2024-07-15 Acts of terrorism and forms of counter terrorism have been evolving for quite a long time Although we have been living with these phenomena for centuries they have only recently become part of the daily lives of many in the West since the dawn of the millennium In some countries they have become so prevalent that they shape the daily lives and habits of citizens For these reasons it is of utmost importance for all of us to understand the root causes the drives and the motives behind terrorist activities preferably even before they can materialize In this challenge counter terrorism activities play a crucial role In this book contributors from various disciplines discuss terrorism and counter terrorism on the African continent through case studies from Nigeria Kenya Cameroon Ghana or Mozambique and the Sahel region In addition to analysis they offer possible steps for improving the situation

Gender and the Governance of Terrorism and Violent Extremism Ann-Kathrin Rothermel, Laura J. Shepherd, 2023-05-22 This book brings together a variety of innovative perspectives on the inclusion of gender in the governance of counter terrorism and violent extremism Several global governance initiatives launched in recent years have explicitly sought to integrate concern for gender equality and gendered harms into efforts to counter terrorism and violent extremism CT CVE As a result commitments to gender sensitivity and gender equality in international and regional CT CVE initiatives in national action plans and at the level of civil society programming have become a common aspect of the multilevel governance of terrorism and violent extremism In light of these developments there is a need for more systematic analysis of how concerns about gender are being

incorporated in the governance of counter terrorism and violent extremism and how it has affected gendered practices and power relations in counterterrorism policy making and implementation Ranging from the processes of global and regional integration of gender into the governance of terrorism via the impact of the shift on government responses to the return of foreign fighters to state and civil society led CVE programming and academic discussions the essays engage with the origins and dynamics behind recent shifts which bring gender to the forefront of the governance of terrorism This book will be of great value to researchers and scholars interested in gender governance and terrorism The chapters in this book were originally published in Critical Studies on Terrorism

Annual Review of United Nations Affairs 2008/2009 Joachim Müller, Karl P. Sauvant, 2010-04-15 Since the publication of its first edition in 1950 the Annual Review of United Nations Affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body From the insightful introduction prepared each year by a distinguished expert on UN affairs to the full text presentation of reports and resolutions and the helpful subject index ARUNA provides a practical tour of each year's UN actions and debates The expert selection of documents by Joachim Müller and Karl Sauvant and the topic based organization of those documents make any researcher's task much easier than the vast searching sorting and pruning required by the UN's website The series' topic based organization of the materials and subject index lend invaluable guidance to all researchers ARUNA presents a comprehensive documentation of the work of the UN on an annual basis starting in September of each year with the beginning of the regular sessions of the General Assembly Coverage of the UN's key organs is provided including the General Assembly the Security Council the Economic and Social Council ECOSOC the International Court of Justice and the UN Secretariat In addition selected reports of intergovernmental bodies and expert groups are included Solely official UN documentation is used ARUNA occupies a special place in the publications on the work of the UN it allows readers to obtain an overview of the principal developments in its key organs This makes it an important reference source for policy makers and academic researchers The highlight of this year's edition is the introductory essay written by the highly esteemed Jose Antonio Ocampo who is Professor of Professional Practice in International and Public Affairs Director of the Program in Economic and Political Development at the School of International and Public Affairs and Fellow of the Committee on Global Thought Columbia University Professor Ocampo previously held the positions of Under Secretary General of the United Nations for Economic and Social Affairs Executive Secretary of the United Nations Economic Commission for Latin America and the Caribbean and Minister of Finance of Colombia In 2009 he was a member of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System Professor Ocampo is also the author of numerous books and articles on macroeconomics policy and theory economic development international trade and economic history His recent publications include *Stability with Growth* Macroeconomics Liberalization and Development with Joseph E Stiglitz Shari Spiegel Ricardo Ffrench Davis and Deepak

Nayyar New York Oxford University Press 2006 Professor Ocampo relying on his expertise as a policy economist and his own considerable experience working on economic issues at the United Nations has written an incisive introductory essay focusing on the United Nations and the global economic crisis Professor Ocampo's essay examines the history of the economic policy recommendations of UN institutions and concludes that they have often been more far sighted and accurate than those of the Bretton Woods Institutions including the World Bank and the International Monetary Fund He applies this analysis in particular to the recent global financial crisis and shows how the Monterrey Consensus of 2002 which once again made the UN a forum for global economic issues gave serious consideration to the concerns of developing countries and set many goals that might have helped to stave off the global financial crisis if they had been more actively pursued Professor Ocampo also examines the UN's role in the wake of the global financial meltdown particularly with regard to the Doha follow up Conference and the Commission of Experts on Reforms of the International Monetary and Financial System convened by the General Assembly and led by Joseph Stiglitz In spite of some resistance to these initiatives from the United States and other developed countries Professor Ocampo advocates in this essay for a more influential role for the UN's institutions in global financial reform especially in light of their superior track record in anticipating economic problems resulting from the inherent tendency of financial markets to experience boom bust cycles The 2008 2009 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises Among the documents in the 2008 2009 volumes are the complete General Assembly resolutions as well as the Report and Resolutions of the Security Council and the Economic and Social Council ECOSOC Annual Reports of note include reports of the United Nations Children's Fund UNICEF the UN Development Programme and UN Population Fund the UN High Commissioner for Human Rights the UN High Commissioner for Refugees the UN Relief and Works Agency for Palestine Refugee in the Near East and the World Food Programme Mr Muller and Dr Sauvant have also selected progress reports on key peacekeeping peace building and political missions including those for Afghanistan the Democratic Republic of the Congo Haiti Iraq Kosovo the Middle East Somalia Sudan and West Africa Each annual edition of ARUNA is introduced by a Guest Author a distinguished expert on UN affairs who highlights the outstanding themes of the year in review Together with an overview provided by the editors this introduction is intended to facilitate access to the material and above all to make it easier for users of ARUNA to see the forest for the trees As has been mentioned above ARUNA is fortunate this year to have Jose Antonio Ocampo as the author of its introduction but the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention Jeffrey D Sachs ARUNA 2007 2008 edition Professor Jeffrey D Sachs is Director of the Earth Institute at Columbia University and Special Advisor to the Secretary General of the UN on the Millennium Development Goals Professor Sachs's introduction to ARUNA 2007 2008 was titled Towards a New Global Protocol on Climate Change in which he argued that solving the climate change problem will demand four steps scientific consensus public awareness the development of

alternative technologies and a global framework for action He dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the Kyoto Protocol Professor Sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the UN Edward C Luck ARUNA 2006 2007 edition Professor Edward C Luck is UN Special Advisor on the Responsibility to Protect and Vice President and Director of Studies at the International Peace Academy From 1984 to 1994 he served as President and Chief Executive Officer of the UN Association of the USA UNA USA Professor Luck s introduction to ARUNA 2006 2007 covered The responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 World Summit the implications of the responsibility to protect RtoP for notions of state sovereignty and some of the conceptual architectural and policy challenges then facing UN Secretary General Ban Ki moon s commitment to operationalizing the responsibility to protect and translating it from words to deeds Louise Frechette ARUNA 2005 2006 edition Ms Louise Frechette is Distinguished Fellow at the Centre for International Governance Innovation Waterloo Ontario Until March 2006 she was the first Deputy Secretary General of the UN before that she was Permanent Representative of Canada to the UN Ms Frechette s introduction to ARUNA 2005 2006 covered United Nations reform an unfinished story As the first Deputy Secretary General of the UN Ms Frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the UN and why She examined if the UN is functioning better than it was 15 years ago why reform is so difficult to achieve and what the future holds for the institutions Rubens Ricupero ARUNA 2004 2005 edition Mr Rubens Ricupero is Dean of the Fundacno Armando Alvares Penteado FAAP Sao Paulo and was formerly Secretary General of UN Conference on Trade and Development UNCTAD and Minister of Finance of Brazil Mr Ricupero s introduction to ARUNA 2004 2005 covered The difficulty of building consensus in an age of extremes and examined the mysteries of the negotiating process leading to the outcome of the 2005 World Summit Rather than a Grand Bargain of a comprehensive UN reform in the areas of development security and human rights it is argued that the Summit ended more on a note of lamentation and regret over a missed opportunity Mr Ricupero concludes that contrary to the daring proclamation at the outset by the Secretary General the conditions indispensable to succeed were not in place Indeed it was hard to imagine that an ambitious and balanced reform package for the UN could have had any real chance of succeeding **The Global Politics of Human Rights** Miguelángel Verde Garrido, Philani Mthembu, Adam S.

Counter-terrorism, Constitutionalism and Miscarriages of Justice Genevieve Lennon,Colin King,Carole McCartney,2018-11-01 The purpose of this book is to honour the influential and wide ranging work of Professor Clive Walker It explores Professor Walker s influence from three perspectives Firstly it provides a historical reflection upon the development of the law and policy in relation to counter terrorism and miscarriages of justice since the 1970s This historical perspective which is often overlooked is particularly timely 17 years after 9 11 as trends become clearer and historical perspective even more valuable So too with miscarriages of justice while there was considerable public and political scrutiny following high profile miscarriages such as the Birmingham Six Guildford Four and others in the early 1990s today there is much less scrutiny despite significant concern relating to issues such as legal aid and access to justice increasing the potential if not likelihood for miscarriages to occur By including a critical historical perspective this book enables us to learn lessons from the past and to minimise contemporary risks of miscarriages of justice Secondly this book provides a critical analysis of the law and policy as it stands today and its future trajectory Applying Walker s theoretical and analytical

contributions to the field the authors focus on pressing contemporary concerns identifying lacunae where relevant as well as the possible probable and preferable future trends Finally the book celebrates and recognises the significant contributions by Walker with each chapter built around one or more of Walker s key works

Iraq Pakistan Yemen and Somalia and by Israel in the West Bank and Gaza Several studies have already explored the difficult balance between achieving security while maintaining the liberties and rights of a country s civilians This book goes a step further by seeking to examine whether maintaining those liberties by complying with legal standards and minimizing unintended deaths can be more effective for national security Using targeted killing applied by Israel in particular as well as the United States during the first decade of the twenty first century as case studies this book explores that question and ultimately assesses whether compliance with legal standards can strengthen a state in its campaign against terrorism and thus provide stronger security The book focuses on civilian related criteria hypothesizing that minimizing civilian casualties will maximize effectiveness in an asymmetric war setting The conclusions are not limited to a specific tactic or theater and if adopted might have far reaching implications for how asymmetric warfare is strategized This book will be of much interest to students of counter terrorism law Middle Eastern studies and security studies
