I Got You Rob Hill Sr:

Everything and Nothing at Once Joél Leon, 2024-06-04 For readers of Kiese Laymon's *Heavy* and Hanif Abdurraqib's *A Little Devil in America* a beautiful painful and soaring tribute to everything that Black men are and can be Growing up in the Bronx Joél Leon was taught that being soft being vulnerable could end your life Shaped by a singular view of Black masculinity espoused by the media family and friends and society he learned instead to care about the gold around his neck and the number of bills in his wallet He absorbed the facts that white was always right and that Black men were either threatening or great for comic relief but never worthy of the opening credits It wasn't until years later that Joél understood he didn't have to be defined by these and other stereotypes Now in a collection of wide ranging essays he takes readers from his upbringing in the Bronx to his life raising two little girls of his own unraveling those narratives to arrive at a deeper understanding of who he is as a son friend partner and father Traversing both the serious and the lighthearted from contemplating male beauty standards to his decision to seek therapy to the difficulties of making co-parenting work Joél cracks open his heart to reveal his multitudes In this book crafted like an album each essay is a single that stands alone yet reverberates throughout the entire collection Pieces like *How to Make a Black Friend* consider challenging delightful and absurd moments in relationships while others like *Sensitive Thugs You All Need Hugs* and *All Gold Everything* ponder the collective harms of society's lens With incisive searing prose *Everything and Nothing at Once* deconstructs what it means to be a Black man in America

Nails That Failed J. John Portera, D.M.D., 2013-11 The killer left nothing visible

on the teenager's body nothing the attack was silent and unsuspecting No fingerprints no DNA not a clue was left at the scene or on the boy's body Three teenagers entered an environment wherein dwelled a deadly killer They left it laughing and full of life Two weeks later one was dead His body bore no marks only symptoms of a sickness progressively worsening each day Physicians relentlessly sought identifying cause of symptoms Each drug known to counter what the laboratory results reflected proved to be ineffective Finally the teenager lapsed into a coma then cardiac arrest Death had dropped its darkened drape Death came ten days after Terry's first symptom a stiff neck upon awakening and only four days after the threesome cheerfully walked away from where the killer cleverly concealed itself a perfect place for enticing the boys to enter It struck its unsuspecting blow at a precise moment one when the victim's involuntary action between man and matter favored the killer the sudden silent strike was lethal enough to create Terry's lingering death the irresistible setting the boys entered was on an unusually warm February day in Florida Indisputable identification of the killer came from a medical pathologist His words were the young man died of Primary Amebic Meningoencephalitis PAM It's rather uncommon but it's a fatal infection of the brain I believe Terry inhaled a deadly parasitic pathogen while in the lake a single celled organism known as Naegleria fowleri Water containing this amoeba if inhaled deeply into the nasal passageways causes an inevitable death the doctor didn't describe the autopsy sight of the boy's brain Had he done so he would have described a brain resembling moth eaten wool more than human brain tissue Doctors treated a similar fatality the previous December eighteen year old standout athlete Earl Baley of Orlando But physicians declined public disclosure of an enigma concerning the PAM deaths But after the third death they reached a reasonable conclusion one as unreasonable as imagination could remove them from intellect Finally a female Immunologist and Microbiologist publicly explained the enigma of her peers It's apparent we have reached a consensus of opinion Today I'm compelled to tell you two elements are missing from the proposition that proposes accidental death through Naegleria fowleri One is the fatalities were at a time of year when our waters are not consistently seventy two degrees or higher in order for Naegleria to thrive the other is the only other sensible conclusion is perhaps something more evil and sinister
