This study collects together many of the original texts from the long running debate which surrounded the rise of English as an academic subject Most of the texts were ephemeral and have been long out of print but they are essential to an understanding of how English studies developed They show how English was influenced by pre existing subjects like rhetoric and classics and how it assumed different faces in different academic institutions Each text is given an introduction which sets it in context and highlights themes A general introduction to the book sketches the history of English studies in the nineteenth century London was central to the early history with University College King s College and Queen s College all looming large Oxford figured later in the century and became the centre of a truly national debate over the future of the subject Schools played a part especially grammar schools catering for middle class pupils who were commonly identified as the main market for English      Linguistic Theory Robert-Alain De Beaugrande,2014-02-24 In Linguistic Theory Robert de Beaugrande analyses linguistic theories not as abstract ideas or theses but as the process and product of theoretical discourse He argues that the best documentation of this discourse can be found in the fundamental works of major linguists from Ferdinand de Saussure to Teun van Dijk and Walter Kintsch He therefore employs the highly unusual strategy of a close reading of these works as discourse performances and strives to uncover their main points and characteristic moves in the linguist s own words Through this approach the reader is able to appreciate and understand the variety and controversy among linguistic theories as they have emerged and developed in interaction with each other Special scrutiny is allocated to the issue of how far the active practice of the linguists followed their own theories and proposals and why The author concludes by assessing the prospects for linguistics to be drawn from the retrospect in the previous chapters
