Woman President Kristina Horn Sheeler, Karrin Vasby Anderson, 2013-08-08 What elements of American political and rhetorical culture block the imagining and thus the electing of a woman as president Examining both major party and third party campaigns by women including the 2008 campaigns of Hillary Clinton and Sarah Palin the authors of Woman President Confronting Postfeminist Political Culture identify the factors that limit electoral possibilities for women Pundits have been predicting women's political ascendency for years And yet although the 2008 presidential campaign featured Hillary Clinton as an early frontrunner for the Democratic presidential nomination and Sarah Palin as the first female Republican vice presidential nominee no woman has yet held either of the top two offices. The reasons for this are complex and varied but the authors assert that the question certainly encompasses more than the shortcomings of women candidates or the demands of the particular political moment Instead the authors identify a pernicious backlash against women presidential candidates one that is expressed in both political and popular culture In Woman President Confronting Postfeminist Political Culture Kristina Horn Sheeler and Karrin Vasby Anderson provide a discussion of US presidentiality as a unique rhetorical role Within that framework they review women s historical and contemporary presidential bids placing special emphasis on the 2008 campaign They also consider how presidentiality is framed in candidate oratory campaign journalism film and television digital media and political parody Madam President? Lori Cox Han, Caroline Heldman, 2020 Scholars and pundits alike have spent more than a little time speculating about why Hillary Clinton lost the presidency to Donald Trump in 2016 Their conclusions may differ but few would disagree that Clinton's nomination by a major party changed the political landscape in significant ways nor that the results of the 2016 election provoked a large number of women to run for office at all levels of government The genie is out of the bottle In this context the authors of Madam President critically analyze the barriers facing women on the road to the White House from gender stereotyping to biased media coverage the conflation of masculinity and the presidency gendered conceptions of leadership and more Madam President, Revised Edition Eleanor Clift, Tom Brazaitis, 2016-05-06 The first Madam President will be sworn in sooner than most people think But the gender gap in politics is still shockingly broad say two of America's most readable political commentators in this timely look
