Historically many world cultures have linked three disparate phenomena collective loss mourning and the construction of monuments and cultural symbols to represent the loss over time and render it memorable meaningful and thereby bearable In a century of great loss observers of western culture have commented on the decline of mourning practices and the absence of their associated rituals The ten essays assembled here by Peter Homans represent in a genuinely interdisciplinary way the recent work of scholars attempting to understand this trend Arranged in sections on cultural studies architecture history and psychology this accessible collection can serve as an introduction to the uses of mourning in contemporary cultures Contributors Paul A Anderson University of Michigan Doris L Bergen University of Notre Dame Mitchell Breitwieser University of California Berkeley Peter Homans University of Chicago Patrick H Hutton University of Vermont Marie Claire Lavabre National Institute for Scientific Research Paris Peter C Shabad Northwestern University Medical School and Columbia Michael Reese Hospital and Medical Center Levi P Smith Art Institute of Chicago Julia Stern Northwestern University James E Young University of Massachusetts Amherst Practical Psychoanalysis for Therapists and Patients

Owen Renik,2010-09-07 A clear and readable how to manual for results oriented psychoanalysis By now the term practical psychoanalysis has become an oxymoron The way psychoanalytic treatment is generally conducted is extremely impractical and doesn't serve the needs of the vast majority of potential patients who want to achieve maximum relief from emotional distress as quickly as possible This unfortunate state of affairs is ironic considering that psychoanalysis became popular on the basis of its therapeutic efficacy In this essential new book Owen Renik describes how clinical psychoanalysis can focus on symptom relief and deliver results efficiently With a humane direct and engaging voice he takes up how to begin treatment how to end it and how to deal with the in between He offers chapters on the therapy of panic attacks and depersonalization on how to get out of an impasse on the relation between sexual desire and power in the analytic relationship on patients who seem to want to sabotage their treatments on flying blind as an analyst and on a number of other intriguing important practical topics Renik's down to earth presentation and discussion of clinical anecdotes combined with useful recommendations for both analyst and patient amounts to a clear and readable how to manual The book is intended for all mental health caregivers patients and potential patients and for anyone who is curious about what makes for effective helpful psychotherapy Perverse Feelings Suzanne Ashworth,2022-09-23 Perverse Feelings Poe and American Masculinity examines white masculinity in Poe's fiction and the culture it represents Poe's men are tormented by chronic illness deviant attachments and ugly emotions As it analyzes these afflictions this book illuminates the pathologies of American masculinity that emerged in a terrible history of imperialism capitalism racism misogyny and homophobia One of its central contentions

is that we can better understand a past and present American masculinity through a reckoning with its perverse feelings. More pointedly this book asks: What does masculinity feel? What does white American masculinity feel in the first decades of nation formation? What does it feel in the crucible of its revolution, its slave system, its democracy, its nascent capitalism, and its pursuit of happiness? What feelings besiege and beleaguer Poe's men? And what can they teach us about the antagonisms of contemporary white American masculinity?

Mourning the Dreams Claudia Malacrida, 2016-09-17 Mourning the Dreams is an accessible and moving account of parents' experiences of grief and recovery after losing an infant during pregnancy, childbirth, or within the first month of life. Drawing from the sociology of emotions, health research, and psychology, her own experience, and a range of qualitative methods, Claudia Malacrida finds that bereaved parents not only grieve their child and its unrealized potential but often find their personal experiences are at odds with social forces and prevailing assumptions about the nature of their loss and how they should react to it. She explores the meanings parents create as they face denial, silence, and other reactions from friends, family, communities, coworkers, the medical community, and even within spousal relationships. She also describes the courage and creativity of parents who create and negotiate meanings that help them grieve, recover, and manage relationships.

EMDR Therapy Treatment for Grief and Mourning Roger M. Solomon, 2024-01-04 The loss of a loved one can be very painful, with the mourner losing an important source of safety, connection, and life balance. Even when uncomplicated bereavement can have a significant impact on the mourner, traumatic circumstances can intensify the grief and complicate the mourning process. EMDR (Eye Movement Desensitization and Reprocessing) therapy, an evidenced-based treatment for trauma, can help process the trauma of the loss and the obstacles that interfere with the grief and mourning process. In this book, Roger M. Solomon guides the EMDR therapist through the treatment process by understanding grief reactions and the mourning process, providing an overall model of EMDR treatment for grief and mourning, and highlighting how EMDR can help a mourner experience a positive sense of connection through heartfelt, meaningful memories. The author presents an integrative model for EMDR therapy treatment based on the Adaptive Information Processing Model (AIP), which guides EMDR therapy. Several models of grief and mourning that inform EMDR treatment and a discussion of the eight phases and three prongs past, present, and future of EMDR therapy are presented with many case examples, including transcripts of sessions to illustrate treatment principles and clinical teaching points.
