has had no unimpor tant in flu ence on English life and man ners It is there fore somewhat curious that up to the present among the thousands of books published annually no comp re hen sive work on the antiquities of ale and beer has found place Some years ago this strange neglect of so excellent a theme was observed by the late John Greville Fennell best known as a contributor to The Field and who like John of the Dale was a lover of ale With him probably originated the idea of filling this void in our literature As occasion offered he made extracts from works bearing on the subject and in time amassed a considerable amount of material which was however devoid of arrangement Old age overtaking him before he was able to commence writing his proposed book he asked me to undertake that which from failing health he was unable to accomplish To this I assented and at the end of some months had prepared a complete scheme of the book with the materials for each chapter carefully grouped That arrangement for which I am responsible has with a few slight modifications been carefully adhered to The work did not then proceed further as to carry out my scheme a large amount of additional matter from sources not then available was required A few months later my friend was taken seriously ill and finding his end approaching directed that on his decease all papers connected with the book should be placed at my disposal His death seems to render a statement of our respective shares in the book desirable When able to resume work on the book with the object of hastening its publication I obtained the assistance of my friend Mr J M D By the collection of fresh matter in amplification of that already arranged and the addition of several new features we have considerably increased the scope of the work and it is to be hoped added to its attractiveness To my friend s researches in the City of London and other Records is due the bringing to light of many curious facts so far as I am aware never before noticed He has also rendered me great assistance in those portions of the book in which the antiquities of the subject are specially treated The illustrations have been in most part taken from rare old works As any smoothing away of defects in such relics of the past would be deemed by many an offence against the antiquarian code of morality they have been reproduced in exact fac simile and will no doubt appeal to those interested in the art of the early engraver and amuse many with their quaintness As aptly terminating the chapter devoted to an account of the medicinal qualities of ale and beer I have ventured to enter upon a short consideration of the leading teetotal arguments In extending their denunciations to ale and beer drinkers the total abstainers are in my opinion working a very grievous injury on the labouring classes who for centuries have found the greatest benefit from the use of malt liquors Barley broth should be looked upon as the temperance drink of the people or in other words the drink of the temperate
