Empireworld Sathnam Sanghera,2024-01-25 THE INSTANT SUNDAY TIMES BESTSELLER In his ground breaking new book Sathnam Sanghera traces the legacies of British empire around the world A wonderful book Rory Stewart Nuanced and deeply researched Financial Times Not just a welcome corrective but a book for our times Peter Frankopan

The British empire was built on slavery but it also pioneered abolition It spread democracy but it also seeded geopolitical instability It devastated nature but it also gave birth to modern notions of environmentalism In this urgent sequel to *Empireland* award winning author and journalist Sathnam Sanghera extends his examination of British imperial legacies beyond Britain to the wider world Travelling across outposts of the former empire from Barbados and Mauritius to India and Nigeria and beyond Sanghera puts to bed the conventional balance sheet view of imperial history where the good is merely weighed up against the bad In *Empireworld* Sanghera instead seeks out nuance to reveal how contradictory forces of the British empire have shaped our world and what they mean for our place within it today

An absolute masterpiece James O'Brien Puts Sanghera in the firmament of great imperial historians Yasmin Alibhai Brown i Profoundly moving Elizabeth Day **Methodism and American Empire** David William Scott,Filipe Fernandes R. Maia,2024-01-31 Living into a less colonial way of being together *Methodism and American Empire* investigates historical trajectories and theological developments that connect American imperialism since World War II to the Methodist tradition as a global movement The volume asks to what extent is United Methodists vision of the globe marred by American imperialism Through historical analyses and theological reflections this volume chronicles the formation of an understanding of The United Methodist Church since the mid 20th century that is both global and at the same time dominated by American interests and concerns *Methodism and American Empire* provides a historical and theological perspective to understand the current context of The United Methodist Church while also raising ecclesiological questions about the impact of imperialism on how Methodists have understood the nature and mission of the church over the last century Gathering voices and perspectives from around the world this volume suggests that the project of global Methodism and the tensions one witnesses therein ought to be understood in the context of American imperialism and that such an understanding is critical to the task of continuing to be a global denomination The volume tells a tale of complex negotiations happening between United Methodists across different national cultural and ecclesial contexts and sets up the historical backdrop for the imminent schism of The United Methodist Church **Invoking the Beyond:** Paul D. Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the

soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

Wars of Disruption and Resilience

Chris C. Demchak, 2011 Increasingly the power of a large complex wired nation like the United States rests on its ability to disrupt would be cyber attacks and to be resilient against a successful attack or recurring campaign Addressing the concerns of both theorists and those on the national security front lines Chris C Demchak presents a unified strategy for survival in an interconnected ever messier more surprising cybered world and examines the institutional adaptations required of our defense intelligence energy and other critical sectors for national security Demchak introduces a strategy of security resilience against surprise attacks for a cybered world that is divided between modern digitally vulnerable city states and more dysfunctional global regions Its key concepts build on theories of international relations complexity in social technical systems and organizational institutional adaptation Demchak tests the strategy for reasonableness in history's few examples of states disrupting rather than conquering and being resilient to attacks including ancient Athens and Sparta several British colonial wars and two American limited wars She applies the strategy to modern political social and technical challenges and presents three kinds of institutional adaptation that predicate the success of the security resilience strategy in response Finally Demchak discusses implications for the future including new forms of cyber aggression like the Stuxnet worm the rise of the cyber command concept and the competition between the U S and China as global cyber leaders Wars of Disruption and Resilience offers a blueprint for a national cyber power strategy that is long in time horizon flexible in target and scale and practical enough to maintain the security of a digitized nation facing violent cybered conflict

Racism and the Tory

Party Mike Cole, 2022-12-30 Racism is an endemic feature of the Tory Party Tracing the history of that racism Racism and the Tory Party investigates the changing forms of racism in the party from the days of Empire including the championing of imperialism at the turn of the 20th century and the ramping up of antisemitism the imperial and racial politics of Winston Churchill the rise of Enoch Powell and Powellism to the Margaret Thatcher years the birth of racecraft and her policies in Northern Ireland and the hostile environment and its consolidation and expansion under Theresa May and Boris Johnson's premierships Throughout the book all forms of racism are addressed including the various forms of colour coded and as well as non colour coded racism as they are put in their historical and economic contexts This book should be of relevance to all

interested in British politics and British history as well as undergraduate and postgraduate students studying the sociology and politics of racism as well as for students of the history of the development of British racism and of imperialism and its aftermath *The Palgrave Handbook of Africa and the Changing Global Order* Samuel Ojo Oloruntoba, Toyin

Falola, 2021-11-22 This handbook fills a large gap in the current knowledge about the critical role of Africa in the changing global order By connecting the past present and future in a continuum that shows the paradox of existence for over one billion people the book underlines the centrality of the African continent to global knowledge production the global economy global security and global creativity Bringing together perspectives from top Africa scholars it actively dispels myths of the continent as just a passive recipient of external influences presenting instead an image of an active global agent that astutely projects soft power Unlike previous handbooks this book offers an eclectic mix of historical contemporary and interdisciplinary approaches that allow for a more holistic view of the many aspects of Africa's relations with the world

Workers and Labour in a Globalised Capitalism Maurizio Atzeni, 2013-11-25 An introduction to work and society for undergraduate and postgraduate students This new text brings together international experts on work and employment from a range of disciplines to debate key themes and issues related to work in a globalised economy *Making Refugees in India* Ria Kapoor, 2021-12-23 Offering a global history of India's refugee regime *Making Refugees in India* explores how one of the first postcolonial states during the mid twentieth century wave of decolonisation rewrote global practices surrounding refugees signified by India's refusal to sign the 1951 UN Refugee Convention In broadening the scope of this decision well beyond the Partition of India starting with the so called Wilsonian moment and extending to the 1970s the refugee is placed within the postcolonial effort to address the inequalities of the subject citizenship of the British empire through the fullest realisation of self determination India's strategically ambiguous approach to refugees is thus far from ad hoc revealing a startling consistency when viewed in conversation of postcolonial state building and anti imperial worldmaking to address inequity across the former colonies The anti colonial cry for self determination as the source of all rights it is revealed in this work was in tension with the universal human rights that focused on the individual and the figure of the refugee felt this irreconcilable difference most intensely To elucidate this this work explores contrasts in Indians and Europeans rights in the British empire and in World War Two refugee rehabilitation during Partition the arrival of the Tibetan refugees and the East Pakistani refugee crisis Ria Kapoor finds that the refugee was constitutive of postcolonial Indian citizenship and that assistance permitted to refugees a share of the rights guaranteed by self determination depended on their potential to threaten or support national sovereignty that allowed Indian experiences to be included in the shaping of universal principles

Euromodern categories of race racism and racial hierarchies and draws new conclusions about the interplay between colonialism racism and Zionism Central to this analysis is how anti Zionism has been strategically equated with anti Semitism and effectively used as a tool for the advancement of both settler colonialism in Palestine and Israel s recognition on the international stage The book delves into indigenous normative resistance against colonial recognition politics through the lens of the Palestinian practice of *umud* steadfastness extracting its philosophy of liberation as a pathway towards a decolonial future for all in Palestine and beyond
