EXCERPT FROM THE BOOK The approach Faber and Mazlish take to parenting is one that encourages independence in children The most popular and long standing approach to raising kids has always been one that forces a dominant role on the adult but that does not always work *How to Talk So Kids Will Listen Listen So Kids Will Talk* is a book that encourages a sense of mutual respect between parents and their children The main foundation for taking on a new approach to parental communication appears to be empathizing The authors quite rightly point out that children just need to be understood While parents have known this for a while they have not always been familiar with the approaches that they must take to ensure that their children feel as though they understand them Faber and Mazlish focus on simple linguistic techniques that help achieve a sense of empathy In addition to encouraging empathy Faber and Mazlish look at how parents can bring consistency to their children s lives Although as a parent it is natural to feel that daily routines are bringing the consistency that many experts believe will enhance your children s way of living it is easy to trip up when it comes to maintaining a consistent approach in terms of communication It is easy to be attentive and respectful to your child
