This volume of Advances in Intelligent Systems and Computing contains accepted papers presented in the main track of ECC 2015 the Second Euro China Conference on Intelligent Data Analysis and Applications The aim of ECC is to provide an internationally respected forum for scientific research in the broad area of intelligent data analysis computational intelligence signal processing and all associated applications of AIs The second edition of ECC was organized jointly by VSB Technical University of Ostrava Czech Republic and Fujian University of Technology Fuzhou China The conference organized under the patronage of Mr Miroslav Novak President of the Moravian Silesian Region took place in late June and early July 2015 in the Campus of the VSB Technical University of Ostrava Czech Republic

SRv6 Network Programming Zhenbin Li,Zhibo Hu,Cheng Li,2021-06-29 SRv6 Network Programming beginning with the challenges for Internet Protocol version 6 IPv6 network development describes the background roadmap design and implementation of Segment Routing over IPv6 SRv6 as well as the application of this technology in traditional and emerging services The book begins with the development of IP technologies by focusing on the problems encountered during MPLS and IPv6 network development giving readers insights into the problems tackled by SRv6 and the value of SRv6 It then goes on to explain SRv6 fundamentals including SRv6 packet header design the packet forwarding process protocol extensions such as Interior Gateway Protocol IGP Border Gateway Protocol BGP and Path Computation Element Protocol PCEP extensions and how SRv6 supports existing traffic engineering TE virtual private networks VPN and reliability requirements Next SRv6 network deployment is introduced covering the evolution paths from existing networks to SRv6 networks SRv6 network deployment processes involved O M technologies and emerging 5G and cloud services supported by SRv6 Bit Index Explicit Replication IPv6 encapsulation BIERv6 an SRv6 multicast technology is then introduced as an important supplement to SRv6 unicast technology The book concludes with a summary of the current status of the SRv6 industry and provides an outlook for new SRv6 based technologies

SRv6 Network Programming Ushering in a New Era of IP Networks collects the research results of Huawei SRv6 experts and reflects the latest development direction of SRv6 With rich clear practical and easy to understand content the volume is intended for network planning engineers technical support engineers and network administrators who need a grasp of the most cutting edge IP network technology It is also intended for communications network researchers in scientific research institutions and universities Authors Zhenbin Li is the Chief Protocol Expert of Huawei and member of the IETF IAB responsible for IP protocol research and standards promotion at Huawei Zhibo Hu is a Senior Huawei Expert in SR and IGP responsible for SR and IGP planning and innovation Cheng Li is a Huawei Senior Pre research Engineer and IP standards representative responsible for Huawei s SRv6 research and standardization

IPv6 Network Slicing Zhenbin Li,Jie Dong,Yawei Zhang,Xinzong Zeng,2024-03-01 This book is an essential guide to IPv6 network slicing It covers both the

fundamentals and cutting edge technologies of IPv6 network slicing and provides insights into future industry developments IP network slicing is an architectural innovation that provides multiple dedicated logical networks on a shared physical network It comprises a complete set of solutions designed to meet the differentiated service requirements of the 5G and cloud era This book focuses on IP network slicing based on the data plane of IPv6 a second generation network layer protocol standard designed to address many of the problems encountered with IPv4 The book explores the technical implementation of IPv6 network slicing by introducing its architecture implementation solutions resource partitioning technologies data plane technologies and control plane technologies It also explains how to deploy IPv6 network slicing through slice controllers and provides deployment suggestions based on Huawei practices It is a must read for professional engineers involved in network planning design and technology support Researchers and students in information and communication technology and communication system design will also find it useful

Python Networking Solutions Guide Tolga Koca,2023-01-21 Automate Your Network Configuration Management and Operation Tasks with Python KEY FEATURES Get familiar with the basics of network automation Understand how to automate various network devices like Routers Switches Servers and Firewalls Learn how to create customized scripts to manage multiple devices using Python DESCRIPTION Python is the de facto standard for automated network operations nowadays With the power of Python network devices can be automated easily with basic scripts Written in direct and intuitive language this practical guide will help you to automate your network with Python In this book you will understand what network automation is precisely The book will help you get familiar with the basics of the Python language It will also help you learn how to monitor maintain and deploy configurations in network and system devices such as routers switches servers and storage The book will explain how to automate cloud infrastructures like AWS Amazon Web Services with Python By the end of the book you will be able to decrease your routine workload and improve productivity by automating your networking tasks WHAT YOU WILL LEARN Get familiar and work with Python libraries like Paramiko and Netmiko Write and deploy scripts to configure network devices such as Firewalls Routers and Switches Understand how to use Python scripts for network security Learn how to combine all micro scripts in the main Python script Create configure operate and maintain AWS services through Python scripts using Boto3 WHO THIS BOOK IS FOR This book is specially designed for system administrators infrastructure automation engineers IT engineers and network engineers to leverage Python s potential as an automation tool to centrally manage routers servers and cloud infrastructures in an organizational network and beyond TABLE OF CONTENTS 1 Introduction to Network Automation 2 Python Basics 3 Python Networking Modules 4 Collecting and Monitoring Logs 5 Deploy Configurations in Network Devices 6 File Transfer and Plotting 7 Maintain and Troubleshoot Network Issues 8 Monitor and Manage Servers 9 Network Security with Python 10 Deploying Automation Software 11 Automate Cloud Infrastructures with Python **Computer Science**

Security Ameer Salem Zaidoun,2022-08-17 This book serves as a guide to help the reader develop an awareness of security

vulnerabilities and attacks and encourages them to be circumspect when using the various computer resources and tools available today For experienced users Computer Science Security presents a wide range of tools to secure legacy software and hardware Computing has infiltrated all fields nowadays No one can escape this wave and be immune to security attacks which continue to evolve gradually reducing the level of expertise needed by hackers It is high time for each and every user to acquire basic knowledge of computer security which would enable them to mitigate the threats they may face both personally and professionally It is this combined expertise of individuals and organizations that will guarantee a minimum level of security for families schools the workplace and society in general

Partnering with HMS: A Guide for App Developers Xihai Wang, Yue Wang, Hailiang Wu, 2021-09-20 Partnering with HMS A Guide for App Developers is the first book to introduce readers to the Huawei Mobile Services HMS ecosystem It gives developers a fundamental understanding of the ecosystem and how to leverage kit and tool capabilities to make their apps better This book is also a quick start guide for kit integration and practical environment setup detailing the functions and principles behind each kit By demonstrating how to integrate kits the authors teach these kits by action Account Kit IAP Push Kit Location Kit Map Kit Site Kit Safety Detect and FIDO Readers are fully introduced to how they can use HMS open capabilities to develop quality apps acquire users and monetize their hard work In addition the ecosystem background the business model and value chain that underpin the entire ecosystem as well as its privacy compliance framework is crucial to operations and illustrated in this book

Campus Network Architectures and Technologies Ningguo Shen, Bin Yu, Mingxiang Huang, Hailin Xu, 2021-05-05 Campus Network Architectures and Technologies begins by describing the service challenges facing campus networks and then details the intent driven campus network architectures and technologies of Huawei Cloud Campus Solution After reading this book you will have a comprehensive understanding of next generation campus network solutions technical implementations planning design and other know how Leveraging Huawei's years of technical expertise and practices in the campus network field this book systematically describes the use of technical solutions such as virtualization big data AI and SDN in campus networks You will be able to reconstruct campus networks quickly and efficiently utilizing this informative description Additionally this book provides detailed suggestions for campus network design and deployment based on Huawei's extensive project implementation experience assisting with the construction of automated and intelligent campus networks required to cope with challenges This is a practical informative and easy to understand guide for learning about and designing campus networks It is intended for network planning engineers network technical support engineers network administrators and enthusiasts of campus network technologies Authors Ningguo Shen is Chief Architect for Huawei's campus network solutions He has approximately 20 years experience in campus network product and solution design as well as a wealth of expertise in network planning and design Mr Shen previously served as a system engineer for the campus switch data center switch and WLAN product lines and led the design of Huawei's intent driven campus network solution Bin Yu is an Architect for Huawei

s campus network solutions He has 12 years experience in campus network product and solution design as well as extensive expertise in network planning and design and network engineering project implementation Mr Yu once led the design of multiple features across various campus network solutions Mingxiang Huang is a Documentation Engineer for Huawei s campus network solutions He has three years of technical service experience and four years of expertise in developing campus network product documentation Mr Huang was previously in charge of writing manuals for Huawei router and switch products He has authored many popular technical series including Be an OSPF Expert Insight into Routing Policies and Story behind Default Routes Hailin Xu is a Documentation Engineer for Huawei s campus network solutions He has two years of marketing experience in smart campus solutions and six years of expertise in developing network products and solution documentation Extremely familiar with Huawei s campus network products and solutions Mr Xu was previously in charge of writing manuals for Huawei routers switches and campus network solutions In addition he has participated in smart campus marketing projects within such sectors as education government and real estate

Mastering Network Flow Traffic Analysis Gilberto Persico, 2025-06-05 DESCRIPTION The book aims to familiarize the readers with network traffic analysis technologies giving a thorough understanding of the differences between active and passive network traffic analysis and the advantages and disadvantages of each methodology It has a special focus on network flow traffic analysis which due to its scalability privacy ease of implementation and effectiveness is already playing a key role in the field of network security Starting from network infrastructures going through protocol implementations and their configuration on the most widely deployed devices on the market the book will show you how to take advantage of network traffic flows by storing them on Elastic solutions to OLAP databases by creating advanced reports and by showing how to develop monitoring systems CISOs CIOs network engineers SOC analysts secure DevOps and other people eager to learn will get sensitive skills and the knowledge to improve the security of the networks they are in charge of that go beyond the traditional packet filtering approach WHAT YOU WILL LEARN Implement flow analysis across diverse network topologies and identify blind spots Enable flow export from virtualized VMware Proxmox and server environments Ingest and structure raw flow data within Elasticsearch and Clickhouse platforms Analyze flow data using queries for patterns anomalies and threat detection Understand and leverage the network flow matrix for security capacity insights WHO THIS BOOK IS FOR This book is for network engineers security analysts SOC analysts incident responders network administrators and secure DevOps professionals seeking to enhance their network security skills beyond traditional methods A foundational understanding of network topologies the OSI and TCP IP models basic network data capture concepts and familiarity with Linux environments is recommended TABLE OF CONTENTS 1 Foundation of Network Flow Analysis 2 Fixed and Dynamic Length Flow Protocols 3 Network Topologies 4 Implementing Flow Export on Layer 2 Devices 5 Implementing Flow Export on Layer 3 Devices 6 Implementing Flow Export on Servers 7 Implementing Flow Export on Virtualization Platforms 8 Ingesting Data into

Learn Ansible Russ McKendrick,2024-05-31 Learn how to write and run Ansible Playbooks from the basics to launching complex multi tier applications across public cloud platforms such as Amazon Web Services AWS and Microsoft Azure Key Features Write roles to automate everything from basic apps to the entire cloud infrastructure Leverage Ansible s module ecosystem to streamline tasks across cloud platforms operating systems and apps Adopt DevOps practices and integrate Ansible with CI CD platforms to streamline automation workflows Purchase of the print or Kindle book includes a free PDF eBook Book DescriptionAre you tired of manually deploying and managing your infrastructure and looking for ways to streamline your deployments introduce consistency and collaboration and save time If so then Learn Ansible is for you Written by a DevOps practitioner and system administrator with 30 years of experience this book will teach you how to automate repetitive tasks and effortlessly manage several resources from a single code base From installing Ansible and writing your first playbook to deploying multi tier applications across different cloud platforms this book will take you on an exciting learning journey By learning the art of defining highly available cloud infrastructure using code you ll find it easy to distribute configurations alongside your application You ll explore Ansible Galaxy learn about community contributed Ansible

roles and discover how to create and share your own roles Later the book delves into the capabilities of Ansible AWX and integrating Ansible with your CI CD pipelines using Azure DevOps and GitHub Actions With real world examples and hands on tutorials you ll build a solid foundation to tackle any automation project By the end of this book you ll be able to confidently implement Ansible in your environment and day to day workflows taking your deployments to the next level What you will learn Understand how to install and configure Ansible on Linux macOS and Windows Write Ansible playbooks to automate system configuration and deployment Deploy applications such as LAMP stacks and WordPress using Ansible Create reusable roles and use Ansible Galaxy for sharing Automate infrastructure deployments on cloud platforms such as AWS and Azure Execute your Ansible playbooks with GitHub Actions and Azure DevOps Scan playbooks for security issues and secure systems using Ansible Centralize and manage Ansible deployments using Ansible AWX Who this book is for Learn Ansible is for system administrators developers and infrastructure engineers who want to implement infrastructure automation and configuration management using Ansible The hands on tutorials make this book ideal for both beginners as well as intermediate users looking to take their Ansible skills to the next level Technology professionals working with public cloud platforms like AWS and Azure will also find valuable insights into automating deployments

Cloud Data Center Network Architectures and Technologies Lei Zhang, Le Chen, 2021-04-23 Cloud Data Center Network Architectures and Technologies has been written with the support of Huawei s vast technical knowledge and experience in the data center network DCN field as well as its understanding of customer service requirements This book describes in detail the architecture design technical implementation planning and design and deployment suggestions for cloud DCNs based on the service challenges DCNs encounter It starts by describing the overall architecture and technical evolution of DCNs with the aim of helping readers understand the development of DCNs It then proceeds to explain the design and implementation of cloud DCNs including the service model of a single data center DC construction of physical and logical networks of DCs construction of multiple DCNs and security solutions of DCs Next this book dives deep into practices of cloud DCN deployment based on real world cases to help readers better understand how to build cloud DCNs Finally this book introduces DCN openness and some of the hottest forward looking technologies In summary you can use this book as a reference to help you to build secure reliable efficient and open cloud DCNs It is intended for technical professionals of enterprises research institutes information departments and DCs as well as teachers and students of computer network related majors in colleges and universities Authors Lei Zhang Mr Zhang is the Chief Architect of Huawei s DCN solution He has more than 20 years experience in network product and solution design as well as a wealth of expertise in product design and development network planning and design and network engineering project implementation He has led the design and deployment of more than 10 large scale DCNs for Fortune Global 500 companies worldwide Le Chen Mr Chen is a Huawei DCN Solution Documentation Engineer with eight years experience in developing documents related to DCN products and

solutions He has participated in the design and delivery of multiple large scale enterprise DCNs Mr Chen has written many popular technical document series such as DCN Handbook and BGP Topic

Cloud Data Centers and Cost Modeling Caesar Wu,Rajkumar Buyya,2015-02-27 Cloud Data Centers and Cost Modeling establishes a framework for strategic decision makers to facilitate the development of cloud data centers Just as building a house requires a clear understanding of the blueprints architecture and costs of the project building a cloud based data center requires similar knowledge The authors take a theoretical and practical approach starting with the key questions to help uncover needs and clarify project scope They then demonstrate probability tools to test and support decisions and provide processes that resolve key issues After laying a foundation of cloud concepts and definitions the book addresses data center creation infrastructure development cost modeling and simulations in decision making each part building on the previous In this way the authors bridge technology management and infrastructure as a service in one complete guide to data centers that facilitates educated decision making Explains how to balance cloud computing functionality with data center efficiency Covers key requirements for power management cooling server planning virtualization and storage management Describes advanced methods for modeling cloud computing cost including Real Option Theory and Monte Carlo Simulations Blends theoretical and practical discussions with insights for developers consultants and analysts considering data center development

Strategic Management Accounting in a Network Economy Wingsun Li,2023-08-26 This book continues from author s first SMA publication in 2018 also by Springer and discusses the new roles of SMA in the new network economy Emerging digital technologies have revolutionized the business world with groundbreaking rules and innovative business models New knowledge and information technologies have inspired new business ideas and created more information platforms at a lower cost yet highly efficient in the market The new business transformation also encourages more inter organizational cooperation to cope with rapid changes All these novelties add challenges to corporate individuals in managing businesses beyond their organizations in particular financial professionals e g CFO who are experts in the team Therefore SMA is assigned a new role in the new network economy Similarly SMA calls for major updates and revisions This urges author to write this book to meet the new demand The author has selected important topics that are particularly pertinent to the new Internet economy These topics include how to make decisions under business uncertainty how to value businesses in general Internet stocks and intangible assets in particular Business collaboration and integration are usual means to acquire synergy value How does SMA help deliver the best results How are business models and information platforms built as sense making revenue models even though these platforms never charge for services How is market power and brand value measured How does trust supplement control in new network organizations Finally how is value created captured and allocated in a fair manner The book goes through detailed examinations of each topic with cases examples and illustrations as required

FAQs About Huawei Configuration Books

What is a Huawei Configuration PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Huawei Configuration PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Huawei Configuration PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Huawei Configuration PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Huawei Configuration PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
