**Civilization and Barbarism** Graeme R. Newman, 2020-03-01 The practice of mass incarceration has come under increasing criticism by criminologists and corrections experts who nevertheless find themselves at a loss when it comes to offering credible practical and humane alternatives In Civilization and Barbarism Graeme R Newman argues this impasse has arisen from a refusal to confront the original essence of punishment namely that in some sense it must be painful He begins with an exposition of the traditional philosophical justifications for punishment and then provides a history of criminal punishment He shows how over time the West abandoned short term corporal punishment in favor of longer term incarceration justifying a massive bureaucratic prison complex as scientific and civilized Newman compels the reader to confront the biases embedded in this model and the impossibility of defending prisons as a civilized form of punishment A groundbreaking work that challenges the received wisdom of corrections Civilization and Barbarism asks readers to reconsider moderate corporal punishment as an alternative to prison and for the most serious offenders forms of incapacitation without prison The book also features two helpful appendixes a list of debating points with common criticisms and their rebuttals and a chronology of civilized punishments

pseudo retranslations as a new phenomenon of translational intertextuality revealing how pseudo retranslations establish large networks of intertextuality across academic works how academic authors have recourse to this procedure as they create their academic texts and how pseudo retranslations contribute to the dissemination of translation distorted scholarly knowledge and lead to epistemically polluted academic ecosystems Pseudo retranslation can be defined as an academic author s partial or complete exploitation of another academic author s translation and presenting it as a retranslation of the source text This phenomenon first documented in Yildiz 2021 arises from academic authors failure to refer to or translate primary sources particularly in English Since there occurs no actual retranslation process this procedure is called pseudo retranslation Using a range of academic texts from the Turkish context as case studies the author presents the integral constituents of this phenomenon and the behavioural patterns of its renderers This book will be of particular interest to academics and postgraduates in the field of translation studies and corpus linguistics Handbook of AI-based

Metaheuristics Anand J. Kulkarni, Patrick Siarry, 2021-09-01 At the heart of the optimization domain are mathematical modeling of the problem and the solution methodologies The problems are becoming larger and with growing complexity

Such problems are becoming cumbersome when handled by traditional optimization methods. This has motivated researchers to resort to artificial intelligence AI based nature inspired solution methodologies or algorithms. The Handbook of AI based Metaheuristics provides a wide ranging reference to the theoretical and mathematical formulations of metaheuristics including bio inspired swarm based socio cultural and physics based methods or algorithms their testing and validation along with detailed illustrative solutions and applications and newly devised metaheuristic algorithms. This will be a valuable reference for researchers in industry and academia as well as for all Master s and PhD students working in the metaheuristics and applications domains. *The Essentials of Instructional Design* Abbie H. Brown, Timothy D. Green, 2015-06-26. The Essentials of Instructional Design 3rd Edition introduces the essential elements of instructional design ID to students who are new to ID. The key procedures within the ID process learner analysis task analysis needs analysis developing goals and objectives organizing instruction developing instructional activities assessing learner achievement and evaluating the success of the instructional design are covered in complete chapters that describe and provide examples of how the procedure is accomplished using the best known instructional design models. Unlike most other ID books The Essentials of Instructional Design provides an overview of the principles and practice of ID without placing emphasis on any one ID model. Offering the voices of instructional designers from a number of professional settings and providing real life examples from across sectors students learn how professional organizations put the various ID processes into practice. This introductory textbook provides students with the information they need to make informed decisions as they design and develop instruction offering them a variety of possible approaches for each step in the ID process and clearly explaining the strengths and challenges associated with each approach. Exploring Psychology and Christian Faith Paul Moes, Donald J. Tellinghuisen, 2023-07-11. Drawn from more than sixty years of classroom experience this introductory guide provides students with a coherent framework for considering psychology from a Christian perspective. Paul Moes and Donald Tellinghuisen explore biblical themes of human nature in relation to all major areas of psychology showing how a Christian understanding of humans can inform the study of psychology. The first edition has proven to be a successful textbook with over 11 000 copies sold. The second edition has been updated and revised throughout based on student and instructor feedback. Brief accessible chapters correspond to standard introductory psychology textbooks making this an excellent supplemental text. The book includes end of chapter questions. An updated test bank for professors is available through Textbook eSources. Percussive Notes, 2008. *Humanizing the Remote Experience through Leadership and Coaching* Diane Lennard, Amy Mednick, 2022-08-31. This book responds to the growing need for understanding how we can foster wellness raise engagement and strengthen connections in professional contexts as human interactions become increasingly remote. Through research and case studies the authors outline a paradox the digital technology we use to connect with others can leave us feeling less connected. To understand what is missing from remote interactions the authors examine the use of

space sensory cues group dynamics and challenges people encounter when the innate need for human connection is unmet They provide practical advice to improve remote experiences including ways to manage stress avoid cognitive overload and prevent burnout Ultimately the book highlights what is possible when we focus not only on the quantity and efficiency of our interactions but also on the quality and depth of our human connections The contemporary relevance of this topic makes the book essential for leaders coaches consultants and other professionals working remotely as well as students and interested individuals seeking to improve their personal and professional remote experiences
