International Civil Aviation Organization. Council, 2001 *The History of Cartography, Volume 6* Mark
Monmonier, 2015-05-18 For more than thirty years the History of Cartography Project has charted the course for scholarship
on cartography bringing together research from a variety of disciplines on the creation dissemination and use of maps
Volume 6 Cartography in the Twentieth Century continues this tradition with a groundbreaking survey of the century just
ended and a new full color encyclopedic format The twentieth century is a pivotal period in map history The transition from
paper to digital formats led to previously unimaginable dynamic and interactive maps Geographic information systems
radically altered cartographic institutions and reduced the skill required to create maps Satellite positioning and mobile
communications revolutionized wayfinding Mapping evolved as an important tool for coping with complexity organizing
knowledge and influencing public opinion in all parts of the globe and at all levels of society Volume 6 covers these changes
comprehensively while thoroughly demonstrating the far reaching effects of maps on science technology and society and vice
versa The lavishly produced volume includes more than five hundred articles accompanied by more than a thousand images
Hundreds of expert contributors provide both original research often based on their own participation in the developments
they describe and interpretations of larger trends in cartography Designed for use by both scholars and the general public
this definitive volume is a reference work of first resort for all who study and love maps ICAO Circular , 1948
