What I Believe, By Bertrand Russell Bertrand Russell, 1925 **What I Believe** Bertrand Russell, 2004-02-24 Along with *Why I Am Not a Christian*, this essay must rank as the most articulate example of Russell's famed atheism. It is also one of the most notorious. Used as evidence in a 1940 court case in which Russell was declared unfit to teach college-level philosophy, *What I Believe* was to become one of his most defining works. The ideas contained within were and are controversial, contentious, and to the religious, downright blasphemous. A remarkable work, it remains the best concise introduction to Russell's thought.

In this work, Russell articulates his views on a range of topics including religion, ethics, and the meaning of life with his characteristic clarity and wit. Russell begins by addressing the nature of belief itself, emphasizing the importance of evidence and reason in forming convictions. The Tensed Theory of Time W.L. Craig, 2013-04-18 he present book and its companion volume *The Tenseless Theory of Time a T Critical Examination* are an attempt to adjudicate what one recent discussant has called the most fundamental question in the philosophy of time namely whether a static or a dynamic conception of the world is correct I had originally intended to treat this question in the space of a single volume but the study swelled into two I found that an adequate appraisal of these two of time requires a wide ranging discussion of issues in competing theories metaphysics philosophy of language phenomenology philosophy of science philosophy of space and time and even philosophy of religion and that this simply could not be done in one volume If these volumes succeed in making a contribution to the debate it will be precisely because of the synoptic nature of the discussion therein Too often the question of the nature of time has been prematurely answered by some philosopher or physicist simply because he is largely ignorant of relevant discussions outside his chosen field of expertise In these two complementary but independent volumes I have attempted to appraise what I take to be the most important arguments drawn from a variety of fields for and against each theory of time

Warranted Christian Belief Alvin Plantinga, 2000-01-27 This is the third volume in Alvin Plantinga s trilogy on the notion of warrant which he defines as that which distinguishes knowledge from true belief In this volume Plantinga examines warrant s role in theistic belief tackling the questions of whether it is rational reasonable justifiable and warranted to accept Christian belief and whether there is something epistemically unacceptable in doing so He contends that Christian beliefs are warranted to the extent that they are formed by properly functioning cognitive faculties thus insofar as they are warranted Christian beliefs are knowledge if they are true

Abduction, Belief and Context in Dialogue Harry Bunt,William Black,2000-11-13 Language is always generated and interpreted in a certain context and the semantic syntactic and lexical properties of linguistic expressions reflect this Interactive language understanding systems such as language based dialogue systems therefore have to apply contextual information to interpret their inputs and to generate appropriate outputs but are in practice very poor at this This book contains a number of studies in Computational Pragmatics the newly emerging field of study of how contextual information can be effectively brought to bear in language understanding and generation The various chapters center around the conceptual formal and computational modeling of context in general of the relevant beliefs of dialogue participants in particular and of the reasoning that may be applied to relate linguistic phenomena to aspects of the dialogue context These issues are discussed both from a theoretical point of view and in relation to their roles in prototypical language understanding systems
