Site Reading David J. Alworth, 2018-11-20 Site Reading offers a new method of literary and cultural interpretation and a new theory of narrative setting by examining five sites supermarkets dumps roads ruins and asylums that have been crucial to American literature and visual art since the mid twentieth century Against the traditional understanding of setting as a static background for narrative action and character development David Alworth argues that sites figure in novels as social agents Engaging a wide range of social and cultural theorists especially Bruno Latour and Erving Goffman Site Reading examines how the literary figuration of real material environments reorients our sense of social relations To read the sites of fiction Alworth demonstrates is to reveal literature as a profound sociological resource one that simultaneously models and theorizes collective life Each chapter identifies a particular site as a point of contact for writers and artists the supermarket for Don DeLillo and Andy Warhol the dump for William Burroughs and Mierle Laderman Ukeles the road for Jack Kerouac Joan Didion and John Chamberlain the ruin for Thomas Pynchon and Robert Smithson and the

asylum for Ralph Ellison Gordon Parks and Jeff Wall and shows how this site mediates complex interactions among humans and nonhumans The result is an interdisciplinary study of American culture that brings together literature visual art and social theory to develop a new sociology of literature that emphasizes the sociology in literature **White Noise**

Nationhood and Improvised Belief in American Fiction Ann Genzale,2021-01-15 Nationhood and Improvised Belief in American Fiction highlights the ways religious belief and practice intersect with questions of national belonging in the work of major contemporary writers Through readings of novels by Louise Erdrich Toni Morrison Cristina Garc a and others this book argues that the representations of syncretic culturally hybrid and improvised forms of religious practice operate in these novels as critiques of exclusionary constructions of national identity providing models for alternate ways of belonging based on shared religious beliefs and practices Rather than treating the religious history of the U S as one of increasing secularization this book instead calls for greater attention to the diversity of religious experience in the U S as well as a deeper understanding of the ways in which these experiences can inform relationships to the national community

Patrick J. Deneen, Joseph Romance, 2005-07-28

American literature is profoundly almost inescapably political. America's most thoughtful authors long ago realized that it was through the novel, the novella, and the story that philosophic education of America's citizens would best be undertaken. In this fascinating new anthology of original essays, ten leading scholars explore the ways in which American civic education has been informally advanced through literature. Delving into the works of authors ranging from Mark Twain to William Faulkner to Octavia Butler, these essays reflect on the close relationship between democracy and literature. They convey an understanding that the greatest American literary works are also works of profound philosophical insight. Through careful analysis, *Democracy's Literature* illustrates that democracy and literature are natural partners forging a relationship that America's greatest authors have long realized in their subtle efforts to craft a democratic public philosophy.
