fastest passenger plane was taking off from Charles de Gaulle Airport in Paris when it suddenly burst into flames. An airliner capable of flying at more than twice the speed of sound, the Concorde had completed 25 years of successful flights whisking wealthy passengers from diplomats to rock stars to corporate titans between continents on brief and glamorous flights. Yet on this fateful day, the chartered Concorde jet en route to America crashed and killed all 109 passengers and crew onboard and four people on the ground. Urgent questions immediately arose as investigators scrambled to discover what had gone wrong. What caused the fire? Could it have been prevented? And most urgently, was the Concorde safe to fly? Last Days of the Concorde addresses these issues and many more, offering a fascinating insider's look at the dramatic disaster, the hunt for clues, and the systemic overhauls that followed the crash.

[Cosmological Readings of Contemporary Australian Literature](#) Kathrin Bartha-Mitchell, 2023-12-22. This book presents an innovative and imaginative reading of contemporary Australian literature in the context of unprecedented ecological crisis. The Australian continent has seen significant rapid changes to its cultures and land use from the impact of British colonial rule, yet there is a rich history of Indigenous land ethics and cosmological thought. By using the age-old idea of cosmos, the order of the world, to foreground ideas of a good order and chaos, reciprocity, and more than human agency, this book interrogates the Anthropocene in Australia, focusing on notions of colonisation, farming, mining, bioethics, technology, environmental justice, and sovereignty. It offers cosmological readings of a diverse range of authors, Indigenous and non-Indigenous, as a challenge to the Anthropocene's decline narrative.

As a result it reactivates cosmos as an ethical vision and a transculturally important counter concept to the Anthropocene Kathrin Bartha Mitchell argues that the arts can help us envision radical cosmologies of being in and with the planet and to address the very real social and environmental problems of our era This book will be of particular interest to scholars and students of Ecocriticism Environmental Humanities and postcolonial transcultural and Indigenous studies with a primary focus on Australian New Zealand Oceanic and Pacific area studies

Personality Disorders Allan V. Horwitz,2023-03-28 The fascinating and controversial history of personality disorders The concept of personality disorders rose to prominence in the early twentieth century and has consistently caused controversy among psychiatrists psychologists and social scientists In Personality Disorders Allan V Horwitz traces the evolution of defining these disorders and the historical dilemmas of attempting to mold them into traditional medical conceptions of disorder Using the Diagnostic and Statistical Manual of Mental Disorders or DSM as a guide Horwitz explores the group of conditions that make up personality disorders and considers when they have been tied to or separated from other types of mental illnesses He also examines how these disorders have often entailed negative moral and cultural evaluations more focused on perceived social deviance than on actual medical conditions Deep conflicts exist in a variety of disciplines in determining the nature of these disorders During the twentieth century a particularly sharp division

arose between researchers who study personality disorders and the clinicians who treat them Because researchers strive to develop general laws and clinicians attempt to understand individuals specific problems their values methods and goals often conflict Synthesizing historical and contemporary scholarship Horwitz examines controversies over the definitions and diagnoses of personality disorders and how the perception of these illnesses has changed over time **The Economic**
