Zombie Capitalism And The Origin Of Crises Guglielmo Carchedi:

Against the Crisis Ståle Holgersen, 2024-11-26 Capitalism produces crises and crises reproduce capitalism We need an ecosocialist way out If crisis defines our era we need a coherent socialist policy in response St le Holgersen delves into today s economic and ecological crises to demonstrate that they are not exceptions to an otherwise functioning system but integral to its operation It is naive to see these upheavals as opportunities for reform or revolution They are the bedrock of the status quo Fortunately the vicious circle sustaining capitalism is not founded on an iron law Our historical mission in the face of the climate crisis is to create a historical exception to the rule It is time for ecosocialism against crisis **The Long**

Depression Michael Roberts, 2016-09-01 Setting out from an unapologetic Marxist perspective The Long Depression argues that the global economy remains in the throes of a depression Making the case that the profitability of capital is too low and the debt built up before the Great Recession too high leading radical economist Michael Roberts persuasively presents his case that this depression will persist until the profitability of capital is restored through yet another slump Henryk

Grossman Works, Volume 3 Henryk Grossman, 2021-11-01 Long awaited the first full translation of Henryk Grossman s The Law of Accumulation and Breakdown of the Capitalist System Being also a Theory of Crisis has been published in English It was the most important influential and yet most denounced of Grossman s works and recovers not only Marx s primary explanation of capitalism s economic crises and breakdown tendency but also his method in Capital The Coming

Revolution Ben Reynolds, 2018-06-29 A technological revolution is driving capitalism toward crisis and collapse Can our society evolve in time to rescue the future Radical advances in automation robotics and computer technology have thrown millions out of work and will only continue to do so in the years to come At the same time cheap individually accessible machines will wrestle for primacy with both gleaming highly automated factories and sweatshops alike ultimately eroding the dominance of industrial production Economic growth is slowing down and it is not going to speed up again The pressures fueling today s global unrest will not go away and are only going to get worse as wages stagnate in many countries solid employment becomes harder to find and cuts to social benefits continue Competing radical and reactionary ideologies will clash as political consensus crumbles and the world s peoples search for answers to these challenges In its opening decades the 21st will be a century of war and revolution By the end of the 21st century capitalism will be consigned to the history books Despite the seeming darkness of our era our future is filled with incredible possibility If working people join together we can create a world of freedom beauty and abundance where poverty and tyranny are merely distant memories for our grandchildren This is the story of The Coming Revolution **Alternative Press Index**, 2002 Zombie Capitalism Chris Harman, 2010 We ve been told for years that the capitalist free market is a self correcting perpetual growth machine in which sellers always find buyers precluding any major crisis in the system Then the credit crunch of August 2007 turned into the great crash of September October 2008 leading one apologist for the system Willem Buiter to write of the end of capitalism

as we knew it As the crisis unfolded the world witnessed the way in which the runaway speculation of the shadow banking system wreaked havoc on world markets leaving real human devastation in its wake Faced with the financial crisis some economic commentators began to talk of zombie banks financial institutions that were in an undead state and incapable of fulfilling any positive function but a threat to everything else What they do not realize is that twenty first century capitalism as a whole is a zombie system seemingly dead when it comes to achieving human goals
