

The background of the cover is a monochromatic blue illustration of a complex maze. In the center of the maze, a small figure of a person wearing a dark jacket and carrying a shoulder bag is seen from behind, standing at a junction. The maze is composed of various rectangular blocks of different heights, creating a sense of depth and complexity. The overall tone is contemplative and suggests a journey or a search for a path.

Ethics in the international hospitality industry Joyce Maingi, 2013-12-05 It is possible to get away by assuming that small is beautiful in a business set up because there are advantages the size of a business might avail Those advantages obviously are only limited to the fact that it

might be easier to manage small businesses because they are not yet complex and to become complex and less attractive they have to grow that could take a long time and work This means that there is a need to examine what exactly those who start a new business want because there are some that are considered to be very aggressive risk taking ambitious etc and would not mind to see their business grow in a few years time Such business owners might not pay much attention to whether running a small business has any inherent beauty to it unless it is profitable and competitive in the market place On the other hand there could be different kinds of business owners whose main aim is not to see the business grow quickly and make substantial profit Instead as long as they make enough money to keep them going they could appreciate the kind of beauty running once own business will avail without answering for a boss and for them that beauty might keep them going Because of that the perception of beauty in running a small business needs further examining and the paper will thoroughly examine what is involved in running a small business and if substantiating the beautiful aspect of such small firms is true

Ethics of Hospitality Daniel Innerarity, 2017 This book addresses the legal philosophical and political question of an ethics of hospitality an ethics engaged by the confrontation with what is different or new The ethics of hospitality articulated here is based on the experience that human life is less a bundle of sovereign initiatives than a series of responses often without our consent to the world's invitations As such it is argued this ethics means leaving open the possibility of being surprised rather than one trying to protect oneself from the irruption of the unexpected By resorting to the idea of hospitality the book thus offers a conceptual framework that exceeds law's inclination to close down the unpredictable whether the stranger the future or indeed life itself
