Congress. Senate. Committee on Labor and Public Welfare, 1958 Cells and Life Processes Denise Walker, 2009-09-30 Biology **Biology Education for Social and Sustainable Development** Mijung Kim, C. H. Diong, 2012-10-20 In an era of globalization and urbanization various social economic and environmental challenges surround advances in modern biological sciences Considering how biological knowledge and practice are intrinsically related to building a sustainable relationship between nature and human society the roles of biology education need to be rethought to respond to issues and changes to life in this biocentury This book is a compilation of selected papers from the Twenty Third Biennial Conference of the Asian Association for Biology Education 2010 The title *Biology Education for Social and Sustainable Development* demonstrates how rethinking and reconstruction of biology education in the Asia Pacific region are increasingly grounded in deep understandings of what counts as valuable local knowledge practices culture and ideologies for national and global issues and education for sustainable development The 42 papers by eminent science educators from Australia China Philippines Singapore Taiwan and the U S represent a diversity of views understandings and practices in biology education for sustainable development from school to university in diverse education systems and social cultural settings in the Asia Pacific region and beyond The book is an invaluable resource and essential reference for researchers and educators on Asian

perspectives and practices on biology education for social and sustainable development *The Journal of Education* ,1931

The Floracrats Andrew Goss,2011-02-01 Situated along the line that divides the rich ecologies of Asia and Australia the Indonesian archipelago is a hotbed for scientific exploration and scientists from around the world have made key discoveries there But why do the names of Indonesia s own scientists rarely appear in the annals of scientific history In *The Floracrats* Andrew Goss examines the professional lives of Indonesian naturalists and biologists to show what happens to science when a powerful state becomes its greatest and indeed only patron With only one purse to pay for research Indonesia s scientists followed a state agenda focused mainly on exploiting the country s most valuable natural resources above all its major export crops quinine sugar coffee tea rubber and indigo The result was a class of botanic bureaucrats that Goss dubs the floracrats Drawing on archives and oral histories he shows how these scientists strove for the Enlightenment ideal of objective universal and useful knowledge even as they betrayed that ideal by failing to share scientific knowledge with the general public With each chapter Goss details the phases of power and the personalities in Indonesia that have struggled with this dilemma from the early colonial era through independence to the modern Indonesian state Goss shows just how limiting dependence on an all powerful state can be for a scientific community no matter how idealistic its individual scientists may be
