Critical Event Studies Karl Spracklen, Ian R. Lamond, 2016-05-26 Within events management events are commonly categorised within two axes size and content Along the size axis events range between the small scale and local through major events which garner greater media interest to internationally significant hallmark and mega events such as the Edinburgh Festival and the Tour de France Content is frequently divided into three forms culture sport or business However such frameworks overlook and depoliticise a significant variety of events those more accurately construed as protest This book brings together new research and theories from around the world and across sociology leisure studies politics and cultural studies to develop a new critical pedagogy and critical theory of events It is the first research monograph that deals explicitly with the concept of critical event studies CES the idea that it is impossible to explore and understand events without understanding the wider social cultural and political contexts It addresses questions such as can the occupation and reclamation of specific spaces by activists be understood as events within its framework And is the activity of activists in these spaces a leisure activity If those and other similar activities can be read as events and leisure what does admitting them into the scope of events management and leisure studies mean for our understanding of them and how the study of events management is to be conceptualised This title will be of interest to undergraduate and postgraduate students on events management and related courses and scholars interested in understanding the ways in which events are constructed by the social the cultural and the political

Dynamics of Fluid and Structural Interactions Jannette Behrndtz Frandsen, 2012-05-15 The book's aim is to integrate the topics of fluid and structural dynamics a developing field in research and academia The purpose of this integration is to identify the causes of structural vibration problems which can be experienced on large engineering structures such as buildings bridges or oil installations and to prevent them at the design stage There are currently no books of this type offered to the primary target group structural engineers There are textbooks on wind loading structural dynamics ocean engineering presented as separate topics but very little material in the literature which attempts to integrate fluid structural dynamics Integration of accurate description of fluid loading and the structural response can provide important knowledge to structural engineers in their analysis and design of structures The book will therefore be of interest to engineers in all areas who have an interest in fluids structures and general vibration problems The book will contribute to the next generation of tools for improving the performance of large structures in coastal areas in the

ocean and other areas where large structures will be built It will prepare the new generation of engineers for thorough plans of mitigation strategies in early phases of the analysis and design of structures thus potentially saving human lives during natural hazard events Integrates the study of fluid and structural dynamics Explains and assesses damping techniques Many worked examples and solutions

Effective Sustainability Communication for Music Festivals and Other

Mega-Events. Find Out how to Green the Crowd Franziska Hillmer,2016-05 Festivals are an important part of the music event industry especially for young adults But compared to the beginnings their meanings have changed Attendees want to celebrate without any compromises However today mankind is confronted with the greatest sustainability challenges which are not satisfactorily tackled Still with a rising awareness of these issues companies interest in including sustainability issues in their communications strategy has increased This study attempts to explore how a Sustainability Communication SC concept needs to be designed to reach fans of music festivals and influence them towards a more sustainable behaviour For that purpose it deals with sustainability management background information about SC and the attendees needs Moreover it shows rays of hope for this issue in the festival landscape Afterwards the results of a survey conducted among festival fans more than 750 participants examining their attitude regarding sustainability issues were assessed This study aims to equip the reader with a thorough knowledge of the potential of Sustainability Communication within and through festivals as well as give an insight into how a SC strategy must consider the needs of fans to realize a more sustainable event

Sürdürülebilir Etkinlik Yönetimi & Spor Eda ADATEPE,2023-01-22 **Event Power** Chris Rojek,2013-02-21 Rojek s argument is a psychological one although his message is political global events build on people s needs to feel empowered and jointly engaged in the pursuit of a higher purpose they allow a break from daily routines provide an illusion of intimacy and social membership and create a sense of self validation and personal gratification In short participation in such events makes us feel good At the same time the real effect of global events seems to be the maintenance of global inequality and social injustice as well as huge profits for the organizations involved in planning commercializing and securing these happenings In sketching out this palliative function of global events from the perspective of people s needs on the one hand and unveiling their puppet masters backstage on the other Rojek s book presents a compelling account of the role of organized events in modern society Organization Studies Events dominate our screens our lives and increasingly global geopolitics Analysis of events and their management has remained rooted in leisure and management studies until now This break through book provides an introduction to event management while also situating events in questions of power and social control Rojek powerfully argues that events are essential elements in corporate state partnerships of invisible government that have revived the romance of charity as to form illusory communities while cloaking power imbalances and social inequalities Events are moving politics from the old idea of the personal is political to the new more seductive notion that representation is resistance Wielding rich case studies from the World Cup and the Olympics to Live Aid Burning Man

and Mardi Gras Rojek presents a dazzlingly original account of communication power social ordering and control It is essential reading in media communication studies and across the social sciences
