*How the Irish Became White* Noel Ignatiev, 1995 *How The Irish Became White* tells the story of how the Irish immigrant went from racially Oppressed to racial Oppressor an American Story most of us haven't wanted to hear before Utilizing newspaper chronicles memoirs biographies and official accounts Noel Ignatiev traces the tattered history of Irish and African American relations revealing how the Irish in America used unions the Catholic Church and the Democratic party to help gain and secure their newly found place in the White Republic *How The Irish Became White* opens with the reactions of Irish America to the 1841 appeal made to them by Daniel O Connell The Liberator to join with anti slavery forces in the new country It then reviews the status of Catholics in Ireland and some of their ambiguous contacts with American race patterns after emigration Ignatiev carefully explores and challenges the Irish tradition of labor protest and the Irish role in the wave of anti Negro violence that swept the country in the 1830s and 1840s In addition *How The Irish Became White* provides a provocative recounting of the roles of northeastern urban politicians in the Irish triumph over nativism which allowed for their entry into the white race This is the first book to focus not on how the Irish were assimilated but how they were assimilated as whites Ignatiev seeks out the roots of the well known tension between Irish and African Americans and draws the connection between the embracing of white supremacy by the Irish and their success in America *How The Irish Became White* convincingly explodes a number of the most powerful myths surrounding race in our society This bold and necessary intervention should be required reading for anyone interested in the history theory and politics of racial identity and race relations in the United States

Life Writing and the End of Empire Emma Parker, 2024-03-21 The dismantlement of the British Empire had a profound impact on many celebrated white Anglophone writers of the twentieth century particularly those who were raised in former British colonial territories and returned to the metropole after the Second World War Formal decolonisation meant that these authors were unable to go home to their colonial childhoods a historical juncture with profound consequences for how they wrote and recorded their own lives Moving beyond previous discussions of imperial and colonial nostalgia Life Writing and the End of Empire is the first critical study of white memoirists and autobiographers who rewrote their memories of empire across numerous life narratives By focussing on these processual homecomings Emma Parker's study asks what it means to be at home in memories of empire whether in the settler farms of Southern Rhodesia or amidst the neon lights of Shanghai's International Settlement These discussions trace the legacies of empire to the habitations and detritus of everyday life from mansions and modest railway huts to empty swimming pools heirlooms and photograph albums Exploring works by Penelope Lively J G Ballard Doris Lessing and Janet Frame this study establishes new connections between authors usually discussed

for their fiction and who have been hitherto unrecognised as post imperial life writers Offering close sustained analysis of autobiographies memoirs travel narratives and autofictions and identifying new subgenres such as speculative life writing this book advances rich new readings of autobiographical narrative By tracing the continuing importance of colonialism to white subjectivity the role of imperial memory in Britain and the ways that these unsettling forces move beneath the surface of modern and contemporary literature this study offers new conceptual insights to the fields of life writing and postcolonial studies
