

9.5 – Industrial Chemistry (Option):

A. Construct word and balanced formulae equations of all chemical reactions as they are encountered in this module:

• *The EQUILIBRIUM Constant:*

- For the basic **reversible** reaction, depicted as:

$$K = \frac{[C]^c [D]^d}{[A]^a [B]^b}$$

Where [A], [B], [C] and [D] are the equilibrium concentrations of the quantities A, B, C and D

• *Uses of SULFURIC ACID:*

- **Fertiliser Production:**

• Creating *ammonium sulfate*:

➤ sulfuric acid + ammonia \longrightarrow ammonium sulfate

- **Dehydrating Agent:**

• Dehydration of *ethanol*:

➤ ethanol $\xrightarrow{\text{H}_2\text{SO}_4}$ ethylene + water

• Dehydration of *sucrose*:

➤ sucrose $\xrightarrow{\text{H}_2\text{SO}_4}$ carbon + water

- **Oxidising Agent:**

• The oxidation of *copper* into *copper ions*:

• *Sulfuric Acid IONISATION:*

Hsc Chemistry Notes Industrial Chemistry:

Excel HSC Chemistry Jim Stamell, 2011 ISBN 9781741252996 AUTHOR Jim Stamell RRP 39 95 PAGES 428 pp SPECIFICATION Softcover perfect bound 280 mm x 210 mm STATUS New edition PUBLICATION DATE April 2008 The EXCEL HSC Chemistry guide is directly linked to the syllabus with every single dot point of the HSC Chemistry syllabus appearing in the margin of the book You can write in the guide so your study is focused and your notes are structured This guide comes in a brand new format that makes even better use of your study time up to date coverage of the core topics plus 3 Option topics Industrial Chemistry Shipwrecks Corrosion and Conservation and Forensic Chemistry this guide is organised just like the HSC syllabus so the students learn to section the theoretical part is under routine headings and the students section the practical part is under headings like First hand Second hand and Investigations and Problem Solving %this way you will be able to see at a glance what the theoretical and practical work is all main headings in each chapter 1 1 2 1 etc are directly from the syllabus word for word %this way you can easily match the Excel guide to the syllabus an alphabetical list of all the key definitions and concepts you should know from each chapter %an efficient way of learning all the definitions in one go chapter syllabus checklist with every single dot point listed in checklist form for each chapter %a fantastic way of testing that you know all the work hundreds of key concept questions with answers %questions that test you recall of knowledge in each chapter HSC type questions for every section in each chapter with clock icons to tell you how much time you will have to answer the questions in the HSC %this way you can test yourself on HSC type questions under HSC type time pressure an examiner maximiser feature ticks to show the mark distribution and answers to all HSC type questions %all you need to answer HSC type questions two sample HSC papers with an examiner maximiser feature plus answers %not one but two up to date sample papers the Excel syllabus summary notes a detachable section at the end of the guide where every single dot point of each chapter is summarised for you% a comprehensive and compact summary of the whole course in 32 pages

Excel HSC Chemistry C. M. Roebuck, 2003 *Chemistry and Industry*, 1996 **Treatise on Process Metallurgy, Volume 3: Industrial Processes**, 2013-12-09 Process metallurgy provides academics with the fundamentals of the manufacturing of metallic materials from raw materials into finished parts or products Coverage is divided into three volumes entitled Process Fundamentals encompassing process fundamentals extractive and refining processes and metallurgical process phenomena Processing Phenomena encompassing ferrous processing non ferrous processing and refractory reactive and aqueous processing of metals and Industrial Processes encompassing process modeling and computational tools energy optimization environmental aspects and industrial design The work distils 400 years combined academic experience from the principal editor and multidisciplinary 14 member editorial advisory board providing the 2 608 page work with a seal of quality The volumes will function as the process counterpart to Robert Cahn and Peter Haasen's famous reference family Physical Metallurgy 1996 which excluded process metallurgy from consideration and

which is currently undergoing a major revision under the editorship of David Laughlin and Kazuhiro Hono publishing 2014 Nevertheless process and extractive metallurgy are fields within their own right and this work will be of interest to libraries supporting courses in the process area Synthesizes the most pertinent contemporary developments within process metallurgy so scientists have authoritative information at their fingertips Replaces existing articles and monographs with a single complete solution saving time for busy scientists Helps metallurgists to predict changes and consequences and create or modify whatever process is deployed Chemistry of Fireworks Michael S Russell,2015-11-09 For centuries fireworks have been a source of delight and amazement in cultures around the world But what produces their dazzling array of effects This book takes you behind the scenes to explore the chemistry and physics behind the art of pyrotechnics Topics covered include history and characteristics of gunpowder principles behind each of the most popular firework types rockets shells fountains sparklers bangers roman candles and wheels special effects including sound effects coloured smokes and electrical firing firework safety for private use and displays and firework legislation The Chemistry of Fireworks is aimed at students with A level qualifications or equivalent The style is concise and easy to understand and the theory of fireworks is discussed in terms of well known scientific concepts wherever possible It will also be a useful source of reference for anyone studying pyrotechnics as applied to fireworks Review Extracts a worthwhile addition to the pyrotechnist s library Fireworks a useful source of information which makes absorbing reading Angewandte Chemie International Edition **Treatise on Process Metallurgy, Volume 2B** Seshadri Seetharaman,Alexander McLean,Roderick Guthrie,Sridhar Seetharaman,H. Y. Sohn,2025-07-01 Treatise on Process Metallurgy Volume 2B Unit Processes presents various unit processes with an emphasis on mineral processing hydrometallurgy and electrochemical materials and energy processes The book highlights the roles of these processes in beneficiation rare earth extraction utilization of lean resources coal extraction and biofuels reflecting the shift toward green and electrochemical processes Basic knowledge of thermodynamics and kinetics is provided for better understanding of metallurgical processes The first section of the book covers mineral processing providing insight on comminution separation processes dewatering and tailings disposal The second section focuses on hydrometallurgy discussing leaching separation purification metal recovery and battery materials and the book concludes with a section studying electrochemical material and energy featuring coverage of molten oxide electrolysis molten carbonate fuel cells various sensors and ionic liquids Each section also includes various case studies demonstrating the use of the concepts in real world settings Covers mineral processing electrochemical materials and hydrometallurgy and their roles in beneficiation rare earth extraction utilization of lean resources coal extraction and biofuels Provides basic knowledge on thermodynamics and kinetics needed for understanding the principles of metallurgical processes Includes a section on electrochemical materials and energy processes covering molten salts electrolysis fuel cells and nuclear molten salt reactors Features insight into the entire process chain unit processes that are generally overlooked and unit processes that combine hydro electro and

pyro processes in an optimal way **The Chemistry and Technology of Petroleum** James G. Speight, 1999-01-21 The Chemistry and Technology of Petroleum Third Edition fully covers the subject from the underground formation of petroleum to recovery of refined products The third edition contains additional chapters on the structure of petroleum refining heavy feedstocks instability and incompatibility in petroleum products environmental aspects of refin The School Science Review ,1946 **Journal of Industrial and Engineering Chemistry** ,1922 Handbook of Chlor-Alkali Technology Thomas F. O'Brien, Tilak V. Bommaraju, Fumio Hine, 2007-12-31 Foreword It is surprising that we had to wait so long for a new book that gives a comprehensive treatment of chlor alkali manufacturing technology Technologists are largely still making do with the classical book edited by Sconce but that is more than thirty years old At the time of its publication metal anodes were just beginning to appear and ion exchange membrane technology was confined to laboratories The various encyclopedias of industrial technology have more up to date information but they are necessarily limited in their scope Schmittinger recently provided an excellent shorter treatment of the broad field of chlorine technology and applications After discussing electrolysis and the principal types of cell this too gives rather brief coverage to brine and product processing It then follows on with descriptions of the major derivatives and direct uses of chlorine and a discussion of environmental issues The last feature named above has relieved the authors of this work of the obligation to cover applications in any detail Instead they provide a concentrated treatment of all aspects of technology and handling directly related to the products of electrolysis It covers the field from a history of the industry through the fundamentals of thermodynamics and electrochemistry to the treatment and disposal of the waste products of manufacture Membrane cells are considered the state of the art but the book does not ignore mercury and diaphragm cells They are considered both from a historical perspective and as examples of current technology that is still evolving and improving Dear to the heart of a director of Euro Chlor the book also pays special attention to safe handling of the products the obligations of Responsible Care and process safety management Other major topics include corrosion membranes electrolyzer design brine preparation and treatment and the design and operation of processing facilities Perhaps uniquely the book also includes a chapter on plant commissioning The coverage of membranes is both fundamental and applied The underlying transport processes and practical experience with existing types of membrane both are covered The same is true of electrolyzer design The book explores the basic electrode processes and the fundamentals of current distribution in electrolyzers as well as the characteristics of the leading cell designs The authors have chosen to treat the critical subject of brine treatment in two separate chapters The chapter on brine production and treatment first covers the sources of salt and the techniques used to prepare brine It then explains the mechanisms by which brine impurities affect cell performance and outlines the processes by which they can be removed or controlled While pointing out the lack of fundamental science in much of the process it describes the various unit operations phenomenologically and discusses methods for sizing equipment and choosing

materials of construction The chapter on processing and handling of products is similarly comprehensive Again it is good to see that the authors have included a lengthy discussion of safe methods and facilities for the handling of the products particularly liquid chlorine While the discussion of the various processing steps includes the topic of process control there is also a separate chapter on instrumentation which is more hardware oriented Other chapters deal with utility systems cell room design and arrangement with an emphasis on direct current supply alternative processes for the production of either chlorine or caustic without the other the production of hypochlorite industrial hygiene and speculations on future developments in technology There is an Appendix with selected physical property data The authors individually have extensive experience in chlor alkali technology but with diverse backgrounds and fields of specialization This allows them to achieve both the breadth and the depth which are offered here The work is divided into five volumes successively treating fundamentals brine preparation and treatment production technology support systems such as utilities and instrumentation and ancillary topics Anyone with interest in the large field of chlor alkali manufacture and distribution and indeed in industrial electrochemistry in general will find something useful here The work is recommended to students chlor alkali technologists electrochemists engineers and producers shippers packagers distributors and consumers of chlorine caustic soda and caustic potash This book is thoroughly up to date and should become the standard reference in its field Barrie S Gilliatt Executive Director Euro Chlor The Chemistry of Fireworks Michael S. Russell, 2000 Aimed A level students this book discusses the theory of fireworks in terms of well known scientific concepts wherever possible in a concise and easy to understand style **Australian National Bibliography: 1992** National Library of Australia, 1988 *Excel HSC & Preliminary Senior Science* Jennifer Hill, 2011 This comprehensive study guide covers the complete HSC Preliminary Senior Science course and has been specifically created to maximise exam success This guide has been designed to meet all study needs providing up to date information in an easy to use format The sample HSC Exam has been updated for the new format Excel HSC Preliminary Senior Science contains an introductory section including how to use the book and an explanation of the new course helpful study and exam techniques comprehensive coverage of the entire Preliminary and HSC courses hundreds of diagrams to aid understanding icons and boxes to highlight key concepts and assessment skills including laboratory and field work checklists of key terms end of chapter revision questions with fully explained answers a trial HSC style exam with answers and explanations a glossary of key terms useful websites highlighted throughout **Treatise on Process Metallurgy** Roderick Guthrie, Alexander McLean, Sridhar Seetharaman, H. Y. Sohn, 2024-03-12 Treatise on Process Metallurgy Volume Three Industrial Processes provides academics with the fundamentals of the manufacturing of metallic materials from raw materials into finished parts or products In these fully updated volumes coverage is expanded into four volumes including Process Fundamentals encompassing process fundamentals structure and properties of matter thermodynamic aspects of process metallurgy and rate phenomena in process metallurgy Processing Phenomena

encompassing interfacial phenomena in high temperature metallurgy metallurgical process phenomena and metallurgical process technology Metallurgical Processes encompassing mineral processing aqueous processing electrochemical material and energy processes and iron and steel technology non ferrous process principles and production technologies and more The work distills the combined academic experience from the principal editor and the multidisciplinary four member editorial board Provides the entire breadth of process metallurgy in a single work Includes in depth knowledge in all key areas of process metallurgy Approaches the topic from an interdisciplinary perspective providing broad range coverage on topics

Proceedings of the 8th International Symposium on Heating, Ventilation and Air Conditioning Angui Li, Yingxin Zhu, Yuguo Li, 2013-09-24 Proceedings of the 8th International Symposium on Heating Ventilation and Air Conditioning is based on the 8th International Symposium of the same name ISHVAC2013 which took place in Xi an on October 19 21 2013 The conference series was initiated at Tsinghua University in 1991 and has since become the premier international HVAC conference initiated in China playing a significant part in the development of HVAC and indoor environmental research and industry around the world This international conference provided an exclusive opportunity for policy makers designers researchers engineers and managers to share their experience Considering the recent attention on building energy consumption and indoor environments ISHVAC2013 provided a global platform for discussing recent research on and developments in different aspects of HVAC systems and components with a focus on building energy consumption energy efficiency and indoor environments These categories span a broad range of topics and the proceedings provide readers with a good general overview of recent advances in different aspects of HVAC systems and related research As such they offer a unique resource for further research and a valuable source of information for those interested in the subject The proceedings are intended for researchers engineers and graduate students in the fields of Heating Ventilation and Air Conditioning HVAC indoor environments energy systems and building information and management Angui Li works at Xi an University of Architecture and Technology Yingxin Zhu works at Tsinghua University and Yuguo Li works at The University of Hong Kong

Sustainability in the Mineral and Energy Sectors Sheila Devasahayam, Kim Dowling, Manoj K. Mahapatra, 2016-09-15 Sustainable practices within the mining and energy sectors are assuming greater significance due to uncertainty and change within the global economy and safety security and health concerns This book examines sustainability issues facing the mining and energy sectors by addressing six major themes Mining and Mineral Processing Metallurgy and Recycling Environment Energy Socioeconomic and Regulatory and Sustainable Materials and Fleets Emphasizing an integrated transdisciplinary approach it deliberates on optimizing mining productivity and energy efficiency and discusses integrated waste management practices It discusses risk management cost cutting and integration of sustainable practices for long term business value It gives a comprehensive outlook for sustainable mineral futures from academic and industry perspectives covering mine to mill optimization waste risk and water management improved efficiencies in mining tools and equipment and performance

indicators for sustainable developments It covers how innovation and research underpin management of natural resources including sustainable carbon management Focuses on mining and mineral processing metallurgy and recycling the environment energy socioeconomic and regulatory issues and sustainable materials and fleets Describes metallurgy and recycling and uses economic environmental and social parameter analyses to identify areas for improvement in iron steel aluminium lead zinc copper and gold production Discusses current research on mining performance indicators for sustainable development sustainability in mining equipment risk and safety management and renewable energy resources Covers alternative and conventional energy sources for the mineral sector as well water treatment and remediation and energy sustainability in mining Provides an overview of sustainable carbon management Offers an interdisciplinary approach with international focus

Chemistry and Industry Review ,1956 **Australian Education Index** ,1988 Laboratory Safety for Chemistry Students Robert H. Hill, Jr.,David C. Finster,2016-05-02 Provides knowledge and models of good practice needed by students to work safely in the laboratory as they progress through four years of undergraduate laboratory work Aligns with the revised safety instruction requirements from the ACS Committee on Professional Training 2015 Guidelines and Evaluation Procedures for Bachelor s Degree Programs Provides a systematic approach to incorporating safety and health into the chemistry curriculum Topics are divided into layers of progressively more advanced and appropriate safety issues so that some topics are covered 2 3 times at increasing levels of depth Develops a strong safety ethic by continuous reinforcement of safety to recognize assess and manage laboratory hazards and to plan for response to laboratory emergencies Covers a thorough exposure to chemical health and safety so that students will have the proper education and training when they enter the workforce or graduate school

Uhlig's Corrosion Handbook R. Winston Revie,2011-05-18 This book serves as a reference for engineers scientists and students concerned with the use of materials in applications where reliability and resistance to corrosion are important It updates the coverage of its predecessor including coverage of corrosion rates of steel in major river systems and atmospheric corrosion rates the corrosion behavior of materials such as weathering steels and newer stainless alloys and the corrosion behavior and engineering approaches to corrosion control for nonmetallic materials New chapters include high temperature oxidation of metals and alloys nanomaterials and dental materials anodic protection Also featured are chapters dealing with standards for corrosion testing microbiological corrosion and electrochemical noise

Eventually, you will categorically discover a supplementary experience and triumph by spending more cash. yet when? realize you say you will that you require to get those every needs taking into account having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will lead you to understand even more almost the globe, experience, some places, once history, amusement, and a lot more?

It is your entirely own grow old to accomplishment reviewing habit. along with guides you could enjoy now is **Hsc Chemistry Notes Industrial Chemistry** below.

Table of Contents Hsc Chemistry Notes Industrial Chemistry

1. Understanding the eBook Hsc Chemistry Notes Industrial Chemistry
 - The Rise of Digital Reading Hsc Chemistry Notes Industrial Chemistry
 - Advantages of eBooks Over Traditional Books
2. Identifying Hsc Chemistry Notes Industrial Chemistry
 - Exploring Different Genres
 - Considering Fiction vs. Non-Fiction
 - Determining Your Reading Goals
3. Choosing the Right eBook Platform
 - Popular eBook Platforms
 - Features to Look for in an Hsc Chemistry Notes Industrial Chemistry
 - User-Friendly Interface
4. Exploring eBook Recommendations from Hsc Chemistry Notes Industrial Chemistry
 - Personalized Recommendations
 - Hsc Chemistry Notes Industrial Chemistry User Reviews and Ratings
 - Hsc Chemistry Notes Industrial Chemistry and Bestseller Lists
5. Accessing Hsc Chemistry Notes Industrial Chemistry Free and Paid eBooks

- Hsc Chemistry Notes Industrial Chemistry Public Domain eBooks
- Hsc Chemistry Notes Industrial Chemistry eBook Subscription Services
- Hsc Chemistry Notes Industrial Chemistry Budget-Friendly Options
- 6. Navigating Hsc Chemistry Notes Industrial Chemistry eBook Formats
 - ePub, PDF, MOBI, and More
 - Hsc Chemistry Notes Industrial Chemistry Compatibility with Devices
 - Hsc Chemistry Notes Industrial Chemistry Enhanced eBook Features
- 7. Enhancing Your Reading Experience
 - Adjustable Fonts and Text Sizes of Hsc Chemistry Notes Industrial Chemistry
 - Highlighting and Note-Taking Hsc Chemistry Notes Industrial Chemistry
 - Interactive Elements Hsc Chemistry Notes Industrial Chemistry
- 8. Staying Engaged with Hsc Chemistry Notes Industrial Chemistry
 - Joining Online Reading Communities
 - Participating in Virtual Book Clubs
 - Following Authors and Publishers Hsc Chemistry Notes Industrial Chemistry
- 9. Balancing eBooks and Physical Books Hsc Chemistry Notes Industrial Chemistry
 - Benefits of a Digital Library
 - Creating a Diverse Reading Collection Hsc Chemistry Notes Industrial Chemistry
- 10. Overcoming Reading Challenges
 - Dealing with Digital Eye Strain
 - Minimizing Distractions
 - Managing Screen Time
- 11. Cultivating a Reading Routine Hsc Chemistry Notes Industrial Chemistry
 - Setting Reading Goals Hsc Chemistry Notes Industrial Chemistry
 - Carving Out Dedicated Reading Time
- 12. Sourcing Reliable Information of Hsc Chemistry Notes Industrial Chemistry
 - Fact-Checking eBook Content of Hsc Chemistry Notes Industrial Chemistry
 - Distinguishing Credible Sources
- 13. Promoting Lifelong Learning
 - Utilizing eBooks for Skill Development

- Exploring Educational eBooks

14. Embracing eBook Trends

- Integration of Multimedia Elements
- Interactive and Gamified eBooks

Hsc Chemistry Notes Industrial Chemistry Introduction

Hsc Chemistry Notes Industrial Chemistry Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Hsc Chemistry Notes Industrial Chemistry Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Hsc Chemistry Notes Industrial Chemistry : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Hsc Chemistry Notes Industrial Chemistry : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Hsc Chemistry Notes Industrial Chemistry Offers a diverse range of free eBooks across various genres. Hsc Chemistry Notes Industrial Chemistry Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Hsc Chemistry Notes Industrial Chemistry Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Hsc Chemistry Notes Industrial Chemistry, especially related to Hsc Chemistry Notes Industrial Chemistry, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Hsc Chemistry Notes Industrial Chemistry, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Hsc Chemistry Notes Industrial Chemistry books or magazines might include. Look for these in online stores or libraries. Remember that while Hsc Chemistry Notes Industrial Chemistry, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Hsc Chemistry Notes Industrial Chemistry eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Hsc Chemistry Notes Industrial Chemistry full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Hsc

Chemistry Notes Industrial Chemistry eBooks, including some popular titles.

FAQs About Hsc Chemistry Notes Industrial Chemistry Books

What is a Hsc Chemistry Notes Industrial Chemistry PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Hsc Chemistry Notes Industrial Chemistry PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Hsc Chemistry Notes Industrial Chemistry PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Hsc Chemistry Notes Industrial Chemistry PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Hsc Chemistry Notes Industrial Chemistry PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. **How do I compress a PDF file?** You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. **Can I fill out forms in a PDF file?** Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
