Intersecting Health, Livability, and Human Behavior in Urban Environments González-Lezcano, Roberto
Alonso,2023-05-03 The promotion of sustainable urban development and livable cities in the past three decades has effectively merged the themes of urban health urban sustainability and urban livability into an integrated research field As more people are predicted to live in a relatively confined space the balance between the physical built environment social environment and urban dwellers becomes more delicate Urban systems have evolved to be more complex than ever during this process While complex systems often offer relative stability delicate balance requires carefully designed plans and management to avoid collapse It is hence of great interest and importance to know what future sustainable and livable cities look like Intersecting Health Livability and Human Behavior in Urban Environments considers how to improve the quality of the environment and healthy living in contemporary and future urban environments Covering key topics such as environmental health smart cities and urban health this premier reference source is ideal for policymakers government officials scholars researchers academicians instructors and students ICTES 2018 Robbi Rahim,Kadek Suranata,Ifdil Ifdil ,Itsar Bolo Rangka,2019-03-13 The technical program of The First ICTES 2018 consisted of 114 full papers Aside from the high quality technical paper presentations we also held workshop and clinic manuscript that was carried out before the main track aims to strengthen the ability to write scientific publications Coordination with the steering chairs Dr Kadek Suranata S Pd M Pd Kons and the members of organizing committee is essential for the success of the conference We sincerely appreciate all the Advisory Boards for the constant support and guidance It was also a great pleasure to work with such an excellent organizing committee team for their hard work in organizing and supporting the conference In particular the Scientific Committee led by Cand Dr Robbi Rahim M Kom have completed the peer review process of technical papers and made a high quality technical program We are also grateful to Students Conference chairs were leading by Ida Ayu Made Diah Paramiswari for their support and all the authors who submitted their papers to the First ICTES 2018 We strongly believe that ICTES conference provides a good forum for all academicians researchers and practitioners to discuss all Educational science and technology aspects that are relevant to issues and challenge for sustainability in the 4th industrial revolution We also expect that the future ICTES conference will be as successful and stimulating as indicated by the contributions presented in this volume **Civic Welfare Service (training Service Vol. Ii)' 2006 Ed. , Leadership and Organizational Sustainability** Elia Socorro Díaz Nieto,David Israel Contreras Medina,Roberto Tuda Rivas,2023-06-27 The book presents a new type of leadership focused on sustainable human development and organizational sustainability which is based on the self realization of the person of the leader which means the satisfaction of their needs according to the scale of Abraham Maslow through integral human development in all aspects of life Because the term leader appears to refer

to anyone with the authority to confer a position with subordinates the reality within organizations has shown that a leader must go further and demonstrate commitment awareness and concern for the common good Which person has these characteristics People who have had more opportunity to develop in different areas of their being resulting in them being conceived as more educated The qualities in a person are the basis of leadership Education and practice are much more important than all hereditary and genetic codes This volume explores the various ways of making explicit the dimensions of social economic and environmental sustainability through knowledge management that addresses the identification collection processing circulation use exchange and preservation of knowledge within operating systems and the context of organizations considering issues that contribute to sustainability human and organizational where the leader is the main actor and the means is knowledge management

Bibliographic Guide to Business and Economics New York Public Library. Research Libraries,1990 *How Can Development and Plasticity Contribute to Understanding Evolution of the Human Brain?* Roberto Lent,Fernanda Tovar-Moll,2016-07-19 Humans usually attribute themselves the prerogative of being the pinnacle of evolution They have large brains with many billion neurons and glial cells trillions of synapses and besides all a plastic hardware that may change either subtly or strongly in response to the external environment and internal mental commands With this hypercomplex apparatus they are capable of very sophisticated inward computations and outward behaviors that include self recognition metacognition different forms of language expression and reception prediction of future events planning and performing long streams of motor acts subtle emotional feelings and many other surprising almost unbelievable properties The main challenge for research is how do we explain this gigantic achievement of evolution Is it a direct consequence of having acquired a brain larger than our primate ancestors with huge numbers of computational units Would it be determined by a particular way these units came to relate to each other building up logic circuits of powerful capacities What along development has made the difference for the construction of such a complex brain machine How much of this complexity is innate how much is sculpted by influence of the external world by

social interaction with our human fellows and by the history of our own mental trajectory along life Many specific questions can be asked albeit not necessarily answered so far to this purpose 1 which genomic characteristics make us unique among primates 2 which of developmental events during and beyond embryogenesis define our brain prolonged neurogenesis permanent circuit re formation dynamic synaptogenesis regressive sculpting of the hardware all of them 3 is there anything special about plasticity of the human brain that allows us to build the exquisite individual variability characteristic of our brains Neuroscience is in need of a synthesis Perhaps associating concepts derived from developmental neurobiology with evolutionary morphology and physiology together with those that photograph the human brain in action under influence of the external world would turn on a light at the end of the tunnel and we would be able to understand what humans do have that is special if anything to explain our success in the Earth

y la genética funcional. Nuevas entidades han encontrado su lugar y un enfoque puramente descriptivo electroclínico ha dejado de ser adecuado en numerosas circunstancias. La 5ª edición de la Guía Azul incluye los avances más recientes. Era necesario justificar los enfoques fisiológicos, epidemiológicos, genéticos y terapéuticos y considerarlos bajo el prisma de las nuevas iniciativas de clasificación que todavía se encuentra en ciernes. No obstante, la descripción de los síndromes epilépticos tanto clínicos como recientes sigue siendo el núcleo de este libro. La diversidad de contribuyentes tanto editores como autores garantiza la objetividad y la calidad de los distintos capítulos. Un éxito internacional también disponible en inglés y en francés.
