[Understanding Security Practices in South Asia](#) Monika Barthwal-Datta, 2012-05-04 This book explores the ways in which non state actors NSAs in South Asia are involved in

securitizing non traditional security challenges in the region at the sub state level South Asia is the epicentre of some of the most significant international security challenges today Yet the complexities of the region s security dynamics remain under researched While traditional security issues such as inter state war border disputes and the threat of nuclear devastation in South Asia remain high on the agendas of policy makers and academics both within and beyond the region scant attention has been paid to non traditional or new security challenges Drawing on various case studies this work offers an innovative analysis of how NSAs in South Asia are shaping security discourses in the region and tackling security challenges at the sub state level Through its critique of securitization theory the book calls for a new approach to studying security practices in South Asia one which considers NSAs as legitimate security actors This book will be of much interest to students of security studies Asian security Asian politics critical security studies and IR in general **Healthy Life and Hydropathic News**

,1883 *Human Trafficking and Security in Southern Africa* Richard Obinna Iroanya,2018-01-17 This book investigates the links between human trafficking and national security in Southern Africa Human trafficking violates borders supports organised crime and corrupts border officials and yet policymakers rarely view the persistence of human trafficking as a security issue Adopting an expanded conceptualisation of security to encompass the individual as well as the state Richard Obinna Iroanya lays the groundwork for understanding human trafficking as a security threat He outlines the conditions and patterns of human trafficking globally before moving into detailed case studies of South Africa and Mozambique Together these case studies bring into focus the lives of the hidden population in the region with analysis and policy recommendations for combating a global phenomenon Gender, Crime, and Justice Erin Katherine Krafft,Jo-Ann Della Giustina,Susan T. Krumholz,2021-12-09 Gender Crime and Justice is a unique core textbook that introduces key concepts through case studies Each chapter opens with a compelling case study that illustrates key concepts followed by a narrative chapter that builds on the case study to introduce essential elements Each chapter features pedagogical elements learning objectives key terms review and study questions and suggestions for further learning and exploration In addition to the unique case study approach this book is distinctive in its inclusion of LGBTQ experiences in crime victimization processing and punishment Gender Crime and Justice also addresses masculinity and the role it plays in defining offenders and victims as well as challenges posed by the gender gap in offending Heads or Tails Evgueni Ivantsov,2016-04-22 In the wake of the global financial crisis Heads or Tails answers the question what changes should financial institutions undergo to ensure reliable protection against extreme risks Recent massive failures among large and respected financial institutions clearly demonstrate that contemporary risk management and regulation fail to provide adequate responses to the challenges set by extreme risks Dr Evgueni Ivantsov combines analysis of the nature of extreme risk so called tail risk risk management practices and practical solutions to build a robust enterprise wide extreme risk management framework which includes three lines of defence ranging from strategic to tactical designed to help address the tail risk during different stages of its

development The author also discusses Why modern sophisticated risk management frameworks strong capitalisation and liquidity do not prevent banks from failure in the face of systemic crisis What it means to build an effective defence against systemic and catastrophic losses What risk architecture should look like to ensure that extreme risk events are identified early and efficiently mitigated How modern management practices regulation and risk and business culture need to change to guarantee sustainability While the context of Dr Ivantsov s writing is financial services the book contains an important message for specialists from any industries exposed to the extreme risks oil gas energy mining chemical productions transportation etc Until the shortcomings of current risk management and regulation are resolved financial services and other at risk industries will repeat the painful mistakes of the past over and over again **Human Trafficking** Maggy
