

2. The activity rates for the activity cost pools are:

Activity Cost Pools	(a) Total Cost	(b) Total Activity	(a) ÷ (b) Activity Rate
Assembling units	\$280,000	1,000 units	\$280 per unit
Processing orders	\$310,000	250 orders	\$1,240 per order
Supporting customers	\$100,000	100 customers	\$1,000 per customer

3. The overhead cost attributable to OfficeMart would be computed as follows:

Activity Cost Pools	(a) Activity Rate	(b) Activity	(a) × (b) ABC Cost
Assembling units	\$280 per unit	80 units	\$22,400
Processing orders	\$1,240 per order	4 orders	\$4,960
Supporting customers	\$1,000 per customer	1 customer	\$1,000

4. The customer margin can be computed as follows:

Sales (\$595 per unit × 80 units)		\$47,600
Costs:		
Direct materials (\$180 per unit × 80 units)	\$14,400	
Direct labor (\$50 per unit × 80 units)	4,000	
Unit-related overhead (above)	22,400	
Order-related overhead (above)	4,960	
Customer-related overhead (above)	1,000	46,760
Customer margin		<u>\$ 840</u>

Glossary

Action analysis report A report showing what costs have been assigned to a cost object, such as a product or customer, and how difficult it would be to adjust the cost if there is a change in activity. (p. 331)

Activity An event that causes the consumption of overhead resources in an organization. (p. 310)

Activity-based costing (ABC) A costing method based on activities that is designed to provide managers with cost information for strategic and other decisions that potentially affect capacity and therefore fixed as well as variable costs. (p. 308)

Activity-based management (ABM) A management approach that focuses on managing activities as a way of eliminating waste and reducing delays and defects. (p. 331)

Activity cost pool A “bucket” in which costs are accumulated that relate to a single activity measure in an activity-based costing system. (p. 310)

Activity measure An allocation base in an activity-based costing system; ideally, a measure of the amount of activity that drives the costs in an activity cost pool. (p. 310)

Batch-level activities Activities that are performed each time a batch of goods is handled or processed, regardless of how many units are in the batch. The amount of resource consumed depends on the number of batches run rather than on the number of units in the batch. (p. 311)

Benchmarking A systematic approach to identifying the activities with the greatest potential for improvement. (p. 331)

Customer-level activities Activities that are carried out to support customers but that are not related to any specific product. (p. 311)

Duration driver A measure of the amount of time required to perform an activity. (p. 310)

First-stage allocation The process by which overhead costs are assigned to activity cost pools in an activity-based costing system. (p. 316)

JKSSB JE CE PYP E-Book- get Section-Wise Problems with Solutions testbook.com,2022-03-14 This JKSSB JE CE PYP E book covers 11 previous years papers of 2021 and 2015 Each PYP will have Important questions covering Technical Knowledge to upscale your exam preparation [ACCA F5 Study Material PDF Full View Download](#) , *Time-Driven Activity-Based Costing* Robert S. Kaplan,Steven R. Anderson,2007-02-22 In the classroom ABC looks like a great way to manage a company s resources But many executives who have tried to implement ABC on a large scale in their organizations have found the approach limiting and frustrating Why The employee surveys that companies used to estimate resources required for business activities proved too time consuming expensive and irritating to employees This book shows you how to implement time driven activity based costing TDABC an easier and more powerful way to implement ABC You can now estimate directly the resource demands imposed by each business transaction product or customer The payoff You spend less time and money obtaining and maintaining TDABC data and more time addressing problems that TDABC reveals such as inefficient processes unprofitable products and customers and excess capacity The authors also show how to use TDABC to link strategic planning to operational budgeting to enhance the due diligence process for mergers and acquisitions and to support continuous improvement activities such as lean management and benchmarking In presenting their model the authors define the two questions required to build TDABC 1 How much does it cost per time unit to supply resource capacity for each business process 2 How much resource capacity time is required to perform work for a company s many transactions products and customers The book demonstrates how to develop simple valid answers to these two questions Kaplan and Anderson illustrate the TDABC approach with a wealth of case studies in diverse settings based on actual implementations , [Process and Activity-Based Costing](#) , **Use this UPSC EPFO Important Questions PDF and boost your scores.** Testbook,2023-03-20 Refer to UPSC EPFO Important Questions to ace the exam Solve these MCQs and refer to the study notes provided to aid your exam prep These questions follow the latest syllabus and are in PDF form

Services Marketing C. Bhattacharya,2009 While most books on marketing and services are readable very few take the student s viewpoint and set out to answer the question Is it understandable in the affirmative This book and its pedagogy has been designed precisely with this in mind v Design The book has a consistency of design that is innovative with aesthetic appeals v Opening and Closing Cases Every chapter begins and ends with a case The cases introduce the primary theme and issues discussed in the chapter and closes with analytical tasks for the students The cases are original pertaining to Indian situations companies and protagonists helping the Indian students to connect v Objectives Every chapter has clear learning expectations get a glimpse of the chapter context and their respective importance v End of chapter Questions The questions are many and have been designed carefully to enhance learning for the students There are elements of research project work and academic exercises in them v Illustrations The book is generous with pleasing and informative charts tables and

diagrams v Glossary The Appendix at the end of the book contains a glossary of services and marketing terminologies v Marketing models In addition to the text the appendix also contains major marketing models mentioned in the text which are frequently used by the marketers v How to do cases The Appendix also contains an useful section for all students a template for case discussion and analysis There are four parts in the book Part I takes an overview look at the major differences between services and goods and their characteristics classifications and different models It methodically analyses the section on the local domestic and international conditions and environment factors that have affected services It also examines the importance of Relationship Marketing in services Part II examines in depth the marketing of services It looks sweepingly and with depth at marketing planning and strategy service buying behaviour knowledge management and marketing research in services and the seven marketing mix variables for services Part III is about the assessment of service delivery and customer relationship management Part IV deals exclusively with comprehensive service cases The cases are in addition to the opening and closing cases The book lucidly explains the basic concepts of services and marketing and fills a long standing need of the students for a book on both services and marketing

Parliament: A Question of Management V M (Val) Barrett, 2022-10-28 For centuries scholars and practitioners have studied parliament and its potential reform from an institutional perspective Until now few authors have addressed in depth the internal relationships among parliamentary actors their competing beliefs and their influence on parliament's effectiveness Parliament is overwhelmingly an agonistic institution and competition for status resources influence and control has pervaded its administration and impeded reform Parliaments appear to struggle with the concept of institutional management The doctrine of exclusive cognisance or sole jurisdiction implies that parliament and only parliament should retain control of its internal business and processes But why is parliament considered to be unique among public institutions and why do parliaments appear to resist or even defy attempts to manage them more effectively At a time when the public is losing confidence in governments politics and political institutions parliament's role as a broker of ideas and a forum for deliberative policymaking is under threat In an institution where no one has overall authority and direction staying relevant and managing public expectations present major challenges for its members and administrators This book examines parliamentary management in the national parliaments of Australia and the United Kingdom Without claiming to be a how to book it attempts to provide a relatable account of how parliamentary officials and members of parliament carry out

their inherently complex roles and how they might be assisted by contemporary public management approaches
