Resources in Education ,1998 **Accelerating Academic Achievement** Ina V. S. Mullis,1990 Data from 20 years 1970 90 of the National Assessment of Educational Progress NAEP are summarized The NAEP represents the nation s only ongoing assessment of the academic achievement of American students Its assessments of

educational achievement of students in grades 4 8 and 12 are presented as The Nation s Report Card Chapter 1 of this report contains information about the students competency in subject matter across the curriculum and their ability to use their minds well Chapters 2 and 3 include information about the trends across time related to the performance of elementary school middle school and secondary school students in higher order reasoning problem solving and communication skills as well as information about the academic achievement of minority students Chapter 4 summarizes information about background variables related to education In general the data indicate that the educational performance of U S students is low and not improving It is estimated that more than half of the nation s elementary through high school students are unable to demonstrate competency in challenging subject matter in English mathematics science history and geography Fewer than half of all U S students appear to be able to use their minds well Although considerable progress has been made in closing the performance gaps among different racial ethnic and gender groups the gaps still remain too large to meet the nation s objective of close parallels between the performance of minority students and the student population as a whole Much that research has identified as effective in improving education is still not being implemented in the nation s schools Nineteen tables and five figures summarize NAEP data SLD Getting to Excellence James A Johnson, Jr PhD,2013-03 This book is about a journey with the Center for Strategic Alliances in Education for School and District Improvement with stakeholders in a school targeted for school improvement The first chapter puts into context the notion of school its purpose and the incumbent variables of values attitudes organizational and leadership behaviors and instructional practices Throughout the book the authors look at three contextual boundaries 1 historical 2 the lens of former students and their perceptions of the presence or absence of those variables and 3 a comparison of labeled schools and the views and perceptions of stakeholders with regard to quality equity and adequacy This is a compelling journey which utilizes quantitative and qualitative data to take a critical look at the processes involved and the strategies used in America s journey in the quest for excellence The authors story is one of the pursuits of innovation reinvention equity excellence and culturally relevant education experiences that inspire and reframe the discussion about getting to excellence The book is replete with illustrations of weaknesses hidden in abstract policies institutional persistence and culturally void programs methodologies and practices It advocates a methodology for arriving at well conceived processes for achieving acceptance and academic excellence through collaboration among those to whom education is important the children and the communities where they live **USAF Formal Schools** United States.
