**How to Get Over Anyone in Few Days (Paperback)** M. Farouk Radwan, 2008-10-23 How can the book help This book is a 100 percent guarantee that you will get over any person All you have to do is read the book well and apply what s written in it exactly Again I am proudly repeating it it s a 100% guarantee that you will recover not 99 nor 98 or 97 This book is by far the most powerful guide in the world to getting over someone The book is not just different than other books that tackle the same subject but it s not even comparable to them The book will make the worst breakup ever become a simple state that you can recover from in few weeks if not days Personally I get over the worst breakup ever in three days but this is not how I used to be I used to feel broken and to stay depressed for months until I grasped extensive knowledge about the psychology of love This book intends to transfer to you this knowledge that can make you forget about anyone in few days How effective is it Even if you were so deeply in love after reading the book and applying what is in it you will have no emotions towards that person you loved If you feel that the person you love is your soul mate and that you simply can t get over him/her then after reading this book and applying what s written in it he/she will become just like a brother or a sister to you Moreover breakups will never affect you the same way they used to affect you after reading this book Few days after applying what s written you will start to feel better by the second week you will recover up to 50% your mood will become more positive and you will start feeling better everyday The only thing you have to do is to stick to what s written The other thing that makes this book different is that it s a 100% guarantee that you will recover unlike other books that just promise you to feel better I have helped thousands of people to completely forget about the people they were in love with using the techniques in this book Again I am repeating it strongly and clearly it s a 100% guarantee that you will recover What s different about the book This book is not about intuitive tricks or logical ideas that can be easily guessed like be strong stop thinking of her or focus on other things but is rather one that is based on complex psychological principles simplified enough to be understood by all All of the techniques in this book are backed by psychology and scientific research The techniques in the book are derived from Love psychology Friendship psychology Neuro linguistic programming subconscious mind programming Behavioral psychology Hypnosis Physiology and scientific research The other thing that makes the book different is that it has no alternatives browse the web search for free tips grab all the advice you can and as soon as you discover that they aren t working come back and buy it There are no free alternatives to the information found in this book and that s why i am increasing its price every now and then Bookmark this page and come back when you are tired of searching Why is the price a bit high What is the amount of money you think is worth paying to get over someone completely What is the price of permanently forgetting about the suffering you have been living through The price of this book is not based on its number of papers but its based on its ability to completely heal your pain forever Warning If you think that falling in love should involve suffering pain feeling bad or becoming depressed then don t proceed as the book will permanently change your reaction to

breakups I am not responsible if you never felt bad whenever you broke up with someone or if you become indifferent when it comes to breaking up with someone Don't worry the book won't affect your ability to love and to be loved but it will just change your belief      *How to Make Someone Fall in Love with You* M. Farouk Radwan, 2008-08-20 This book is without doubt the most powerful book on our planet that covers the topic of making someone fall in love with you Up to this day I can assure you that there is no other book similar or even close in content to this one The book will definitely increase your chances of making someone love you by at least ten folds How it works As soon as we are born we start acquiring different beliefs learning different values and developing specific unmet needs These beliefs values and unmet needs form our unconscious love map The unconscious love map is a list present in the subconscious mind that has all the traits of the perfect potential partner we are looking for Now what if you learned how to collect information about a person's love map then managed to show that person that you are the one who can meet all of the conditions present in this love map The Quick answer is that person will fall in love with you About the Author M Farouk Radwan is the founder of the popular psychology site [www.2knowmyself.com](http://www.2knowmyself.com) which gets over 1 000 000 page views a month Farouk has been studying psychology for 13 years Wrote 11 books about human behaviour and sold over 1 million worth of his books Farouk was interviewed and his work was covered by several Egyptian TV channels and popular newspapers like OTV MBC El Youm TV Cairo today International Herald Tribune and el Ahram newspaper      **How to Forget Someone You Once Loved** Edwin

Nelson, 2018-11-07 When we love someone at the same time our worldview changes what they do or think affects us the longer they stay attached the more deeply rooted thoughts and feelings they are Everything they do everything they think has a meaning to us thanks to the half of that our lives become pink more motivation and hard work hardships or reflections in life suddenly become blurred as if by a prism of matte coverage Then suddenly one day the reality comes up when he suddenly becomes an old lover and no longer around you will wake up with a messy feeling and feel empty when everything that both have torn together as suddenly as they have never existed The reality is broken you will search for the meaning of life without the other you will also ask yourself whether this is the real love the two have ended not stop at When the reality of the past is overwhelmed by the faint prism that will drag on All negative emotions will come as if to break all the motivation to strive You will also gradually lose faith in yourself around people as well as no longer believe in happiness Overcoming it or not is located in themselves someone a few months someone a few years but someone still lives with the whole life Yes love is great but honestly feelings are crazy Do you know why we can not forget someone easily even after a few months or a few years That's because whenever someone leaves you your survival instinct will be activated and become extremely powerful But what does this mean Do you know why a small child always cried when his mother went out of sight in only 5 minutes That is because the child has been pushed to the brink of survival must be alone Being abandoned means DEATH This is why the children naturally tend to seek their mother for protection and love and also why they cry There is an

interesting thing here Do you know that even though we are adults our brains can still be in a state of activation of survival when we have to endure a breakup Because our brains have defaulted that we CAN BE DISABLED WE WILL NOT TAKE OUT I hope these things mean something to you Because just understanding this has helped you avoid a lot of psychological damage And this book will tell you the naked truth of separation This book will give you a method How long have you been parting How did you suffer How many mistakes did you make At 4 weeks all negative emotions will go away You will much more be a person of SELF SECRET SAFE And much much more Would you like to know more Download and start moving towards your goals Scroll up and click the buy button
