Lakoff and Johnson's conceptual metaphor theory CMT this study uncovers the broad spectrum of the mentally ill's experiences a relatively undertheorised area in medical humanities The aim is to demonstrate that mentally ill people are often represented as either grotesquely exaggerated or overly romanticised across diverse media and biomedical discourses Further they have been disparaged as emotionally drained and unreasonable individuals incapable of active social engagements and against the healthy sane society The study also aims to unsettle the sanity insanity binary and its related patterns of fixed categories of normal abnormal which depersonalise the mentally ill by critically analysing seven graphic narratives on mental illness

Uncanny Bodies Scott T. Smith,José Alaniz,2019-11-27 Superhero comics reckon with issues of corporeal control And while they commonly deal in characters of exceptional or superhuman ability they have also shown an increasing attention and sensitivity to diverse forms of disability both physical and cognitive The essays in this collection reveal how the superhero genre in fusing fantasy with realism provides a visual forum for engaging with issues of disability and intersectional identity race ethnicity class gender and sexuality and helps to imagine different ways of being in the world

Working from the premise that the theoretical mode of the uncanny with its interest in what is simultaneously known and unknown ordinary and extraordinary opens new ways to think about categories and markers of identity *Uncanny Bodies* explores how continuums of ability in superhero comics can reflect resist or reevaluate broader cultural conceptions about disability The chapters focus on lesser known characters such as Echo Omega the Unknown and the Silver Scorpion as well as the famous Barbara Gordon and the protagonist of the acclaimed series Hawkeye whose superheroic uncanniness provides a counterpoint to constructs of normalcy Several essays explore how superhero comics can provide a vocabulary and discourse for conceptualizing disability more broadly Thoughtful and challenging this eye opening examination of superhero comics breaks new ground in disability studies and scholarship in popular culture In addition to the editors the contributors are Sarah Bowden Charlie Christie Sarah Gibbons Andrew Godfrey Meers Marit Hanson Charles Hatfield Naja Later Lauren O Connor Daniel J O Rourke Daniel Pinti Lauranne Poharec and Deleasa Randall Griffiths **From Me to We** Jason
