Institutionalisierung und Koordination von Auslandseinheiten Dirk Morschett,2010-01-10 Die internationale Unternehmenstätigkeit hat insbesondere in den beiden letzten Dekaden des 20. Jahrhunderts eine enorme Bedeutung erlangt Zunehmend wird daher zum Teil auch mit Skepsis von der Globalisierung der Unternehmen oder gar der Wirtschaft gesprochen. Evident und daher in der Literatur auch unstrittig ist, dass die Führung eines international tätigen Unternehmens ungleich komplexer ist als die Führung eines nur national agierenden Unternehmens. Die Ursachen hierfür liegen u.a. in der Vielgestaltigkeit der Umfeldentwicklungen und in einem meist gegebenen Spannungsfeld zwischen einer notwendigen Adaption an die jeweiligen Gegebenheiten in den Gastländern einerseits und einer möglichst weltweit standardisierten Vorgehensweise andererseits. Mit der zunehmenden Internationalisierung von Unternehmen wird der von den Auslandseinheiten erwirtschaftete Beitrag zum Unternehmensergebnis immer wichtiger. Zugleich ist eine veränderte qualitative Bedeutung der Auslandseinheiten zu konstatieren. Den Auslandseinheiten werden in steigendem Maße auch strategisch bedeutsame Rollen übertragen, die einen wesentlichen Einfluss auf die internationale Wettbewerbsfähigkeit des Gesamtunternehmens haben, so insbesondere im Zusammenhang mit neueren Organisationsformen international tätiger Unternehmen wie der transnationalen Organisation.

The Dynamics of International Information Systems Hans Lehmann,2010-03-17 The serious difficulties facing the developer of international information systems i.e. supporting business functions in different countries are widely known and their propensity to catastrophic failure has been acknowledged among practitioners for quite some time. Despite the often pivotal importance that such systems generally have, scholarly research in this field has been surprisingly sparse. Information technology applications with a global range and reach are still largely unstudied and under explored. Subsequently, there is a distinct dearth of theoretical frameworks for dealing with them. After a career in information technology line management, I have been involved with multinational enterprises and their information systems for over a decade as a consultant working in Africa, the UK, continental Europe, North America and Australasia. It was on joining a university in the early nineties that I discovered the near vacuum in this field of research. When I decided to make international information systems my field of research, it became clear that fairly

fundamental work needed to be done I started the project described further on more than 10 years ago It turned out a fairly difficult necessarily broad based and eventually longitudinal research

International Human Resource Management P. L.
