Basic Electrical Engineering Notes By V K Mehta:

Basic Electrical Engineering Mehta V.K. & Mehta Rohit, 2008 For close to 30 years Basic Electrical Engineering has been the go to text for students of Electrical Engineering Emphasis on concepts and clear mathematical derivations simple language coupled with systematic development of the subject aided by illustrations makes this text a fundamental read on the subject Divided into 17 chapters the book covers all the major topics such as DC Circuits Units of Work Power and Energy Magnetic Circuits fundamentals of AC Circuits and Electrical Instruments and Electrical Measurements in a straightforward manner for students to understand Basic Electrical Engineering J. P. Tewari, 2003 This Book Is Written For Use As A Textbook For The Engineering Students Of All Disciplines At The First Year Level Of The B Tech Programme The Text Material Will Also Be Useful For Electrical Engineering Students At Their Second Year And Third Year Levels It Contains Four Parts Namely Electrical Circuit Theory Electromagnetism And Electrical Machines Electrical Measuring Instruments And Lastly The Introduction To Power Systems This Book Also Contains A Good Number Of Solved And Unsolved Numerical Problems At The End Of Each Chapter References Are Included For Those Interested In Pursuing A Detailed Study **Indian Books in Print** , 2002 Principle of Electrical Engineering and Electronics Mehta V.K. & Mehta Rohit, 2014 This book has been revised thoroughly A large number of practical problems have been added to make the book more useful to the students Also included multiple choice questions at the end of each chapter **Principles of Power System** VK Mehta & Rohit Mehta, 2005 The subject of power systems has assumed considerable importance in recent years and growing demand for a compact work has resulted in this book A new chapter has been added on Neutral Grounding **International Books in Print** , 1997 Principles of Electrical Engineering and Electronics Mehta V.K. & Mehta Rohit, 2006 The General Response to the first edition of the book was very encouraging The authors feel that their work has been amply rewarded and wish to express their deep sense of gratitude in common to the large number of readers who have used it and in particular to those who have sent helpful suggestions from time to time for the improvement of the book To Enhance the utility of the book it has been decided to bring out the multicolor edition of book There are three salient features multicolor edition **Advances in Communication, Devices and Networking** Sourav Dhar, Subhas Chandra Mukhopadhyay, Samarendra Nath Sur, Chuan-Ming Liu, 2021-08-30 This book covers recent trends in the field of devices wireless communication and networking It gathers selected papers presented at the International Conference on Communication Devices and Networking ICCDN 2020 which was organized by the Department of Electronics and Communication Engineering Sikkim Manipal Institute of Technology Sikkim India on 19-20 December 2020 Gathering cutting edge research papers prepared by researchers engineers and industry professionals it helps young and experienced scientists and developers alike to explore new perspectives and offer them inspirations on how to address real world problems in the areas of electronics communication devices and networking *Computer Vision and Robotics* Praveen

Kumar Shukla,Abhishek Bhatt,Himanshu Mittal,Andries Engelbrecht,2025-06-28 This book consists of a collection of the high quality research articles in the field of computer vision and robotics which are presented at the International Conference on Computer Vision and Robotics CVR 2024 organized by Symbiosis Skills and Professional University Pune Maharashtra India during 25 26 May 2024 The book discusses applications of computer vision and robotics in the fields like medical science defence and smart city planning The book presents recent works from researchers academicians industry and policy makers

Communication and Intelligent Systems Harish Sharma,Vivek Shrivastava,Kusum Kumari Bharti,Lipo Wang,2022-08-18 This book gathers selected research papers presented at the Third International Conference on Communication and Intelligent Systems ICCIS 2021 organized by National institute of Technology Delhi India during December 18 19 2021 This book presents a collection of state of the art research work involving cutting edge technologies for communication and intelligent systems Over the past few years advances in artificial intelligence and machine learning have sparked new research efforts around the globe which explore novel ways of developing intelligent systems and smart communication technologies The book presents single and multi disciplinary research on these themes in order to make the latest results available in a single readily accessible source **Basic Electrical Engineering** V. K. Mehta,1991

Microgrid 4.0 Anita Gehlot,Rajesh Singh,Neeraj Priyadarshi,Shaik Vaseem Akram,Farooque Azam,2025-09-23 The book discusses the latest optimization techniques for Microgrid 4 0 including convex optimization metaheuristic optimization and machine learning based optimization It covers the latest power electronics technologies for Microgrid 4 0 including DC DC converters DC AC inverters and solid state transformers This book Discusses the significance of the Industry 4 0 revolution for enhancing the control and operations of microgrids with an objective of sustainability and resilience Presents the role of renewable energy in microgrids for clean and sustainable energy Covers topics such as advanced control communication optimization power electronics and energy storage Explains the latest advancements in control techniques for Microgrid 4 0 including hierarchical and decentralized control model predictive control and fuzzy logic control Highlights the economic analysis of Microgrid 4 0 including cost benefit analysis life cycle assessment and business models This book is primarily written for senior undergraduates graduate students and academic researchers in the fields of electrical engineering electronics and communications engineering computer science and engineering environmental engineering and energy engineering **Publisher's Monthly** ,2001 **Computational Intelligence in Machine Learning** Vinit Kumar Gunjan,Amit Kumar,Jacek M. Zurada,S. N. Singh,2025-08-02 This book features selected proceedings from the International Conference on Computational Intelligence in Machine Learning ICCIML 2023 It covers the latest research trends and developments in various fields including machine learning smart cities the Internet of Things IoT artificial intelligence cyber physical systems cybernetics data science neural networks and cognition among others The book also emphasizes the comprehensive nature of computational intelligence artificial intelligence machine learning and deep learning by highlighting

their roles in modeling identification optimization prediction forecasting and controlling future intelligent systems This volume serves as a valuable resource for researchers in both academia and industry offering in depth insights from fundamental research contributions It focuses on methodological and application perspectives enhancing the understanding of AI and ML approaches and their capabilities in addressing a diverse range of problems across various industries and real world applications

Renewable Power for Sustainable Growth Hasmat Malik,Sukumar Mishra,Y. R. Sood,Atif Iqbal,Taha Selim Ustun,2024-01-02 The proceedings is a collection of papers presented at International Conference on Renewal Power ICRP 2023 held during 28 29 March 2023 in Mewat Engineering College Nuh India The book covers different topics of renewal energy sources in modern power systems The volume focusses on smart grid technologies and applications renewable power systems including solar PV solar thermal wind power generation transmission and distribution transportation electrification and automotive technologies power electronics and applications in renewable power system energy management and control system energy storage in modern power system active distribution network artificial intelligence in renewable power systems and cyber physical systems and internet of things in smart grid and renewable power

Advances in Electric Power and Energy Infrastructure Axaykumar Mehta,Abhishek Rawat,Priyesh Chauhan,2020-01-14 This book gathers selected research papers presented at the International Conference on Power Control and Communication Infrastructure 2019 ICPCCI 2019 organized by the Institute of Infrastructure Technology Research and Management IITRAM Ahmedabad Gujarat India on July 4 5 2019 It highlights the latest advances trends and challenges in electrical power generation integration transmission distribution conversion storage control electrical machines power quality energy management electrical infrastructure of future grids buildings cities transportation energy conversion plasma technology renewable energy grid integration energy storage systems power electronic converters power system protection security FACTS and HVDC power quality power system operation control computer applications in power systems energy management energy policies regulation power energy education restructured power system future grids buildings cities resiliency microgrids electrical machines drives transportation electrification optimal operation electricity gas water coordination condition monitoring predictive maintenance of electric equipment and asset management The solutions discussed here will encourage and inspire researchers industry professionals and policymakers to put these methods into practice
