War The Neuroscience of Conflict and Peacebuilding suggests that we need a radical change in how we think about war leadership and politics Drawing upon the latest research from emerging areas such as behavioral genetics biopsychology and social and cognitive neuroscience this book identifies the sources of compelling instincts and emotions and how we can acknowledge and better manage them so as to develop international and societal peace more effectively

Turning Points in the Civil War Linda R. Wade, 2010-09 Discusses the battles that led up to the end of the Civil War

Comrades Beyond the Cold War Tycho van der Hoog, 2025-02-01 North Korea was an important player in the decolonization of Africa Freedom fighters across the continent received vital assistance from Pyongyang and almost all southern African independence leaders travelled to the North Korean capital at some point in search of support This alliance has continued into the twenty first century with African postcolonial governments throwing a lifeline to Pyongyang s increasingly isolated economy by hiring North Korean companies despite United Nations sanctions Tycho van der Hoog examines the relations between victorious southern African liberation movements and North Korea from the 1960s to the present He explains why African presidents sang and danced at parties in Pyongyang and why North Korean books were translated into Swahili and Afrikaans He reveals how African soldiers were trained in guerrilla warfare by North Korean instructors and how North Korean laborers construct monuments in Africa in the shape of AK 47s And he explores the question of how revolutionary regimes motivated by a need for survival work together to defy the global order Based on extensive research across four continents including recently disclosed African liberation archives and Korean diplomatic cables this innovative study is the first book on African North Korean relations

Business Battles in the US Energy Sector Christian Downie, 2019-01-17 This book is ground breaking in its study of business actors in climate and energy politics While various studies have demonstrated the influence of business actors across multiple policy domains this is the first to examine the behaviour of business actors in energy centric industries in the US that will be vital for achieving a clean energy transition namely the oil gas coal utility and renewable industries Drawing on almost 80 interviews with senior energy executives lobbyists and policymakers it asks two central questions i how and why are business actors shaping energy policy contests in the US And ii what are the implications for policymakers In answering these questions this book provides new insights about the preferences and strategies of business in the energy sector and significantly it identifies strategies for policymakers seeking to regulate energy in the face of political resistance from incumbent fossil fuel industries This book will be of particular value to students scholars and policymakers working in the fields of energy climate and environmental politics as well as individuals generally interested in the role that business exerts over policy processes

Emerging Technologies and International Security Reuben Steff,Joe Burton,Simona R. Soare,2020-11-25 This book offers a multidisciplinary analysis of emerging technologies and their impact on the new international security environment across three levels of analysis While recent technological developments such as Artificial Intelligence AI robotics and automation have the potential to transform international relations in positive ways they also pose challenges to peace and security and raise new ethical legal and political questions about the use of power and the role of humans in war and conflict This book makes a contribution to these debates by considering emerging technologies across three levels of analysis 1 the international system systemic level including the balance of power 2 the state and its role in international affairs and how these technologies are redefining and challenging the state s traditional roles and 3 the relationship between the state and society including how these technologies affect individuals and non state actors This provides specific insights at each of these levels and generates a better understanding of the connections between the international and the local when it comes to technological advance across time and space The chapters examine the implications of these technologies for the balance of power examining the strategies of the US Russia and China to harness AI robotics and automation and how their militaries and private corporations are responding how smaller and less powerful states and non state actors are adjusting the political ethical and legal implications of AI and automation what these technologies mean for how war and power is understood and

utilized in the 21st century and how these technologies diffuse power away from the state to society individuals and non state actors This volume will be of much interest to students of international security science and technology studies law philosophy and international relations **Annual Report of the Secretary of War** United States. War Department,1887

The Routledge Economic History of War Jari Eloranta,Jeremy Land,Elina Kuorelahti,Price Fishback,2025-05-30 The Routledge Economic History of War presents a broad overview of the latest research on the long lasting changes and effects that collapsing security in international relations has had on the world s economies and societies Arranged around five key themes Fiscal and Military Capacity Military Spending Economic Effects of War War and Institutions and Business and War this handbook features contributions from an international range of scholars on varying methodological approaches theories and geographical arenas Encompassing a range of disciplinary approaches the main focus is on how economic history can provide insights into the societal impact of war addressing issues such as how war preparations and arms races affect government spending the direct economic effects of war and how societies adjust to the economic realities of rearmament and recovery This volume also explores whether wars change or alter institutions such as governments religion and democracy It also looks at what lessons we can learn from the past about military spending state capacity and the effects of war on both individual societies and global cooperation Ultimately this book provides a broad overview of the methodological geographical and multidisciplinary range of the economic history of war and demonstrates how war economics institutions and society are inextricably linked throughout history **The Routledge Handbook of Global Historical Archaeology**

Just War and the Responsibility to Protect Robin Dunford, Michael Neu, 2019-08-15 Despite the disasters of Iraq Afghanistan Syria and ever more visible evidence of the horrors of war the concepts of Humanitarian Intervention and Just War enjoy widespread legitimacy and continue to exercise an unshakeable grip on our imaginations Robin Dunford and Michael Neu provide a clear and comprehensive critique of both Just War Theory and the Responsibility to Protect R2P doctrine deconstructing the philosophical moral and political arguments that underpin them In doing so they show how proponents of Just War and R2P have tended to treat killing in a way which obscures the complex and often messy reality of war and pays little heed to the human impact of such conflicts Going further they provide answers to such difficult questions as Surely it would have been just for us to intervene in the Rwandan genocide An essential guide to one of the most difficult moral and political issues of our age

Gender and Civilian Victimization in War Jessica L. Peet, Laura Sjoberg, 2019-11-25 This book explores the role of gender in influencing war fighting actors strategies toward the attack or protection of civilians Traditional narratives suggest that killing civilians intentionally in wars happens infrequently and that the perpetration of civilian targeting is limited to aberrant actors Recently scholars have shown that both state and non state actors target civilians even while explicitly deferring to the civilian immunity principle This book fills a gap in the accounts of how civilian targeting happens and shows that these actors are in large part targeting women rather than some gender neutral understanding of civilians It presents a history of civilian victimization in wars and conflicts and then lays out a feminist theoretical approach to understanding civilian victimization It explores the British Blockade of Germany in World War I the Soviet Rape of Berlin in World War II the Rwandan genocide and the contemporary conflict in northeast Nigeria Across these case studies the authors lay out that gender is key to how war fighting actors understand both themselves and their opponents and therefore plays a role in shaping strategic and tactical choices It makes the argument that seeing women in nationalist and war narratives is crucial to understanding when and how civilians come to be targeted in wars and how that targeting can be reduced This book will be of much interest to students of critical security gender studies war studies and International Relations in general
