For a Ruthless Critique of All that Exists Robert T. Tally, 2022-06-24 For a Ruthless Critique of All that Exists takes as its point of departure two profound and interrelated phenomena The first is the pervasive sense of what Mark Fisher had called capitalist realism in which to cite the famous expression variously attributed to Fredric Jameson and Slavoj Žižek it is easier to imagine the end of the world than the end of capitalism As Jameson in particular has noted perhaps this is due to some weakness in our imaginations and the attenuation of the imaginative function in cultural criticism has far reaching implications for the organization and reformation of institutions more generally This manifests itself as a waning of speculative or theoretical energy which in turn leads to a general capitulation to the tyranny of what is the actually existing state of affairs and the preemptive disavowal of alternative possibilities Connected to this is the second phenomenon the prevalent tendency in literary and cultural criticism over the past 30 or more years to eschew critical theory and even critique itself while championing approaches to cultural study that emphasize surface reading thin description ordinary language philosophy object oriented ontology and post critique Together these forms of anticritical and antitheoretical criticism have constituted a tendency that has in its various incarnations come to dominate the humanities and other areas of higher education in recent years The latter has served to reinforce the former and the result has been to align literary and cultural criticism with the broad based forces of

neoliberalism whose influence has so deleteriously transformed not only higher education but the whole of society at large Robert T Tally Jr argues that in order to counter these trends and empower the imagination the time is ripe for a ruthless critique of all that exists to borrow a phrase from the young Marx This book is intended as a provocation at once a polemic and a call to action for cultural critics

Learning to See the Theological Vision of Shakespeare's King Lear Greg Maillet, 2016-09-23 This book follows the recent turn to religion that has been so important to English Studies in the 21st century and builds on many of the recent biographies of Shakespeare that have explored the playwright's religious views While noticing biography the focus of this book is upon the onstage action of King Lear arguing that its theodicy can be understood as the expansion of theological vision The book makes this argument by drawing on an approach to literature known as theological aesthetics an approach pioneered by Hans Urs Von Balthasar Engaging with not only W R Elton but also other Shakespeare scholars such as Jan Kott and Kenneth Muir it combines theological argument performance criticism and dramatic analysis to argue for a theological reading of King Lear

Analyzing Literature-to-Film Adaptations Mary H. Snyder, 2011-01-20 This is a wise and wonderful book which among other things provides a novelist's eloquent insider's perspective on the transformation of one of her books into a film Thirty years ago Stanley Cavell published *The World Viewed* Reflections on the Ontology of Film which opened up an intellectual highway between philosophy and cinema Now at long last Mary Snyder's book accomplishes a parallel clearing of the way between film making the art of the novel and literary and critical theory Every page is bubbling with creative theoretical and pedagogical insights Her intertextual readings of a score of literature to film adaptations are priceless in themselves I only wish that the title of the book had been taken from her chapter *The Fascination Never Ends* Michael Payne Professor of English Emeritus Bucknell University Critical questions specific to film adaptations need to be not only developed but established These questions or approaches must be accessible to students including those students who are not yet educationally sophisticated enough to digest purely theoretical material *Analyzing Literature to Film Adaptations: A Novelist's Exploration and Guide* demonstrates an exploration into film adaptation from a novelist's perspective comprising a study of literary creation as well as the process product of adaptation and moving into the author's collaboration with a screenwriter which ultimately becomes a journey to understand and identify the implications of literature to film adaptation and the complexities and problems it raises Drawing from both classic and contemporary film adaptations *Frankenstein* *The Hours* *The Constant Gardener* *Children of Men* *The Lovely Bones* *Away from Her* the book puts forth an understanding of film and film analysis as well as addresses literary analysis The crux of the book however lies in its introduction to an academic means for critical analysis of film adaptations

Hermeneutics of Orientalism Dr. Hafiz Mohd Arif Nadvi, An attempt has been made in the following pages to study and explore Orientalism in American Literature Between the American Revolution and the Civil War American Orientalism is a lesser known and critically unexplored aspect of American literary studies simply because it has been overshadowed by the so called British Orientalism coming into broader and critically prominent focus because of Edward Said who emerged as one of the seminal literary critics and theorists of the last quarter of the twentieth century It is rightly said that theory is dominated by foreign names Michel Foucault Althusser Gramsci Derrida Edward Said Lacan Homi K Bhabha G C Spivak etc The influence of Said's acknowledged intellectual mentors including Antonio Gramsci Theodore W Adorno Raymond Williams and Michel Foucault led to his anti authoritarian outlook
