Contemporary Curating and Museum Education Carmen Mörsch, Angeli Sachs, Thomas Sieber, 2016-11-15 In the context of critical museology, museums are questioning their social role, defining the museum as a site for knowledge exchange and participation in creating links between past and present. Museum education has evolved as a practice in its own right, questioning, expanding, and transforming exhibitions and institutions. How does museum work change if we conceive of curating and education as an integrated practice? This question is addressed by international contributors from different types of museums. For anyone interested in the future of museums, it offers insights into the diversity of positions and experiences of translating the grand designs of museology into practice.

Museum Practice Conal McCarthy, 2020-11-19 MUSEUM PRACTICE Edited by CONAL MCCARTHY. Museum Practice covers the professional work carried out in museums and art galleries of all types, including the core functions of management, collections, exhibitions, and programs. Some forms of museum practice are familiar to visitors; yet within these diverse and complex institutions, many practices are hidden from view, such as creating marketing campaigns, curating and designing exhibitions, developing fundraising and sponsorship plans, crafting mission statements, handling repatriation claims, dealing with digital media, and more. Focused on what actually occurs in everyday museum work, this volume offers contributions from experienced professionals and academics that cover a wide range of subjects, including policy frameworks, ethical guidelines, approaches to conservation, collection care and management, exhibition development, and public programs. From internal processes such as leadership, governance, and strategic planning to public-facing roles in interpretation, visitor research, and community engagement and learning, each essential component of contemporary museum practice is thoroughly discussed.
