Berkeley's Philosophy of Spirit Talia Mae Bettcher, 2007-04-23 This book tackles some of the deepest problems in Berkeley's philosophy by providing a fresh interpretation of Berkeley's core ontological doctrines and their relationship to his views about self consciousness Berkeley the author argues is led to adopt a new model of self consciousness because he

rejects the basic metaphysics of many of his predecessors This new model of self consciousness provides the foundation for Berkeley s own ontological framework Bettcher s interpretation provides answers to long standing questions about Berkeley s traditionally derided views about mind offers an elegant treatment of Berkeley s core metaphysical views more generally and illuminates Berkeley s innovative attempt to address the important philosophical and theological issues of his day Moreover Bettcher shows the importance of Berkeley s philosophy of spirit to the perplexing thesis that the subject of experience is somehow mysteriously elusive She argues that Berkeley can be seen as a transitional figure with respect to the older philosophical concept of subject as a metaphysical supporter of properties and the more modern philosophical concept of subject as opposed to object She provides a re reading of Hume s famous claim that when he turned reflection upon himself he could perceive only perceptions and sheds new light on the notion of a subject of experience The book will be of substantial interest both to Berkeley scholars and to philosophers concerned with contemporary discussions of self consciousness

T.E. Jessop,2012-12-06 Since the first appearance of this bibliography 1934 Oxford Uni versity Press which has long been out
of print so much attention has been paid to Berkeley that a mere reprint would be inept Besides bringing it up to date I have
added collations of those editions of Berkeley s writings that were published in his lifetime In doing so I have used a form of
description simple enough for anyone to follow yet sufficient to enable librarians to check their catalogues and to identify
copies in which the titlepage is missing or mutilated As before I have marked with an asterisk throughout the bibliography
every book edition and article that has not been seen by me or in a few cases by a competent friend My primary interest not
being bibliographical in the present day highly technical sense but philosophical I have aimed chiefly at a providing advanced
students and their hard pressed advisers of Berkeley or of the subjects on which he wrote with a guide to the materials for
research and b displaying the range in time and place and the direction of the attention which he has attracted These two
aims account for the classification of the entries under a few general subject headings and of the philosophical entries under
countries and for the arranging of the entries in each section or subsection in chrono logical order the alphabetical ordering
of the authors names being given in the Index To facilitate reference and cross reference each entry is numbered **A**
