Venkatesh,2018-01-01 The question of consumption emerged as a major focus of research and scholarship in the 1990s but the breadth and diversity of consumer culture has not been fully enough explored The meanings of consumption particularly in relation to lifestyle and identity are of great importance to academic areas including business studies sociology cultural and media studies psychology geography and politics The SAGE Handbook of Consumer Culture is a one stop resource for scholars and students of consumption where the key dimensions of consumer culture are critically discussed and articulated The editors have organised contributions from a global and interdisciplinary team of scholars into six key sections Part 1 Sociology of Consumption Part 2 Geographies of Consumer Culture Part 3 Consumer Culture Studies in Marketing Part 4 Consumer Culture in Media and Cultural Studies Part 5 Material Cultures of Consumption Part 6 The Politics of Consumer Culture *Read the Cultural Other* Shi-xu,Manfred Kienpointner,Jan Servaes,2008-08-22 *Read the Cultural Other* contains studies on non Western discourse It has two principal aims Firstly it argues that the study of non Western non White and Third World discourses should become a legitimate necessary and routine part of international discourse scholarship Hitherto non Western non White and Third Word discourses have been relegated and marginalized to a local particular or other place in or one might argue outside the mainstream To reclaim their place the book deconstructs the rhetoric of universalism and the continued preoccupation with Western discourse in the profession and stresses the cultural nature of discourse both ordinary and disciplinary as it outlines a culturally pluralist vision Secondly in order to take the multicultural view seriously it explores the complexity diversity and forms of otherness of non Western discourse by examining the case of China and Hong Kong s discourses of the decolonization of the latter Far too often non Western discourse has been stereotyped as externally discrete internally homogeneous and formally containable within a universal general or integrated model The present work focuses on China and Hong Kong s discourses which have been marginalized by their Western counterparts Through culturally eclectic linguistic analysis and local cultural analysis it identifies and highlights the specific

ways of speaking of China and Hong Kong their concepts concerns aspirations resistance verbal strategies etc with respect to similar or different issues The culturally pluralist view and analytical practice proffered here call for a radical cultural change in international scholarship on language communication and discourse
