It features alphabetical entries of Indian writers who have bridged the gap between cultures and redefined language boundaries. As the field of diasporic writing continues to expand and intersect with various branches of English and Cultural studies, it anticipates a growing market. There are almost 246 million Bengalis at present, which makes them the fifth largest speech community in the world. Despite political and social divisions, they share a common literary and musical culture and several habits of daily existence which impart to them a distinct identity. The Bengalis are known for their political consciousness and cultural accomplishments. The Historical Dictionary of the Bengalis provides an overview of the Bengalis across the world from the earliest Chalcolithic cultures to the present. This is done through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 750 cross-referenced dictionary entries on politicians, educators, and entrepreneurs, leaders of religious and secular institutions, writers, painters, actors, and other cultural figures, and more generally on the economy, education, political parties, religions, women, and minorities, literature, art, and architecture, music, cinema, and other major sectors. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Bengalis.      A Dictionary of Urdū, Classical Hindī, and English John Thompson Platts, 1884      A Sanskrit and English Dictionary Wilson, 1870
