Génesis. Creación, edén y diluvio Marcelo Wall, 2023-07-18 Marcelo Wall se pregunta De dónde venimos De dónde viene el universo Cómo llegamos a ser lo que somos Cuánto tiempo tardó en formarse la Tierra Y si te dijera que no hay contradicción entre millones de años y siete días ¿Has oído bien y si en realidad la Biblia y la ciencia no estuvieran en contradicción En este libro explico que si leemos la Biblia tal y como debe entenderse y escuchamos a la ciencia sobre nuestro mundo no habrá una brecha entre la fe y la razón como a menudo se alude Un libro imprescindible para los cristianos del siglo XXI Hay elaborados argumentos para explicar que la teoría de la evolución explica los millones de años que se necesitaron desde la partícula más pequeña hasta un planeta tan complejo como nuestra tierra Por otro lado muchos cristianos han presionado en contra de estos puntos de vista argumentando que Dios tardó solo una semana en formar todo Los medios de comunicación suelen pintar una guerra entre la ciencia y la Biblia Y si te dijera que no hay contradicción entre millones de años y siete días ¿Has oído bien y si en realidad la Biblia y la ciencia no estuvieran en contradicción El lector moderno puede encontrarse en un laberinto entre los relatos bíblicos y las pruebas científicas Precisamente estas y otras muchas preguntas son las que este libro trata de mostrar cómo el Génesis tiene respuestas a las

The Curse of Ham in the Early Modern Era David M. Whitford, 2017-07-05 For hundreds of years the biblical story of the Curse of Ham was marshalled as a justification of serfdom slavery and human bondage According to the myth having seen his father Noah naked Ham s is cursed to have his descendants be forever slaves In this new book the Curse of Ham is explored in its Reformation context revealing how it became the cornerstone of the Christian defence of slavery and the slave trade for the next four hundred years It shows how broader medieval interpretations of the story became marginalized in the early modern period as writers such as Annius of Viterbo and George Best began to weave the legend of Ham into their own books expanding and adding to the legend in ways that established a firm connection between Ham Africa slavery and race For although in the original biblical text Ham himself is not cursed and race is never mentioned these writers helped develop the story of Ham into an ideological and theological defence for African slavery at the precise time that the Transatlantic Slave Trade began to establish itself as a major part of the European economy during the sixteenth and seventeenth centuries Skilfully weaving together elements of theology literature and history this book provides a fascinating insight into the ways that issues of religion economics and race could collide in the Reformation world It will prove essential reading not only for those with an interest in early modern history but for anyone wishing to try to comprehend the origins of arguments used to justify slavery and segregation right up to the 1960s
