Asked-in: Amazon, Facebook, Google, Microsoft, Morgan Stanley**

etc. Fissha Seyoum Teshome, 2022-09-29 This book presents optimal solutions for the problem statements at hand. The purpose of the book is to help the interviewee save time while preparing for Amazon, Facebook, Google, Microsoft, Morgan Stanley, and other similar big tech companies' interview questions. It is recommended to have your own copy of the book and understand and exercise each of the questions thoroughly. The book presents eighty algorithm and data structure most frequently asked coding questions at Amazon, Facebook, Google, Microsoft, and Morgan Stanley, but it is also helpful to prepare oneself for other big tech job interview coding questions. The book is the answer for how to practice the best way to prepare for coding interviews. The internet surely has thousands of questions. Which should you practice for an interview? This book contains the most important 80 questions solved by different people, including the author. The background for questions are from credible sources. It is the simplest and most efficient book organized for you, the reader, to successfully crack the interview coding section. To the most part, other thousands of questions are a mash of the techniques from these individual questions. The scope of the book is limited to only presenting coding questions for the leadership, as for Amazon, for instance, and other theoretical parts of the interview, the reader must prepare using other materials separately. Additionally, this book displays only optimal solutions in the Java language. The main goal is to save the readers time while searching for optimal solutions from the internet and get prepared in a short period of time to crack the interview code. **Robotics Diploma**
