Gleiter, Jörg H., Gasperoni, Lidia, 2019-10-31 Als wiederkehrendes Element spielen Diagramme eine wichtige Rolle im kreativen Prozess des architektonischen Entwurfs In ihnen sind Praxis und Theorie eng miteinander verbunden Aber ist die Architektur immer schon diagrammatisch gewesen Oder sollte man nicht von einer spezifisch diagrammatischen Architektur wie sie zu Beginn der 1920er Jahre entstanden ist und sich ber Postmoderne Dekonstruktivismus und computational design bis heute in der Transformation ihrer diagrammatischen Techniken etabliert hat Das Buch sammelt die Texte von Studierenden und widmet sich unterschiedlichen Funktionen des Diagramms zun chst als einem Medium der Architektur und anschlie end einer Architektur die es zum privilegierten Werkzeug des Entwurfs erhoben hat As a recurring element diagrams play an important role in the creative process of architectural design Within them practice and theory are closely linked But has architecture always been diagrammatic Or shall one rather speak of a specific diagrammatic architecture one that arose in the beginning of the 1920s and has established its diagrammatic techniques through postmodernism deconstructivism and computational design until today The book collects student texts and dedicates itself to various functions of the diagram firstly as a medium of architecture then as an architecture that elevated the diagram to a privileged

**Paradoxien des Digital Turn in der Architektur 1990-2015** Carin M. Schirmacher, 2018-04-24 Dissertation der Staatlichen Akademie der Bildenden Künste Stuttgart zur Erlangung des Grades eines Doktor Ingenieurs **Reading Architecture with Freud and Lacan** Lorens Holm, 2022-09-30 Reading Architecture with Freud and Lacan Shadowing the Public Realm methodically outlines key concepts in psychoanalytic discourse by reading them against key modern and post modern architects It begins with what is arguably the central concept for each discipline by putting the unconscious in a dialectic relation to space Each subsequent chapter begins with a detail in architectural discourse a kind of provocation that anchors each excursion into the thought of Freud and Lacan The text is cyclical episodic and cloudlike rather than expository the intention is not simply to explain the concept of the unconscious but to different degrees perform it in the text The book offers powerful critiques of current planning practice which has no tools to address our attachment to places It concludes with powerful critiques of our incapacity to change the environmentally damaging ways we live our lives which is an effect of our incapacity to recognise the presence of the death drive in our nature The text is an extended thesis spanning the chapters that the field of the Other is the common grammar that organises subjects into civilisations which has consequences for how we treat the public realm in architecture politics and the city The field of the Other is a slightly different slice through the urban social world It shadows but does not correspond exactly to more familiar categories like private public inside outside figure ground or piazza boulevard Reading Architecture with Freud and Lacan will be an essential resource to anyone interested in how the environment we build is a reflection of our desire Psychoanalysis is one of the great humanist discourses of the 20th century and this book will be a valuable reference to the humanist in architects planners and social scientists whether they are students professionals or amateurs It will appeal to historians of the 20th century and to psychoanalysts and architects who are interested in how their respective discourses interdigitate with each other and with other discourses **NATØ: Narrative Architecture in Postmodern London** Claire Jamieson, 2017-01-20 Chronicling the last radical architectural group of the twentieth century NAT Narrative Architecture Today who emerged from the Architectural

Association at the start of the 1980s this book explores the group's work which echoed a wider artistic and literary culture that drew on the specific political social and physical condition of 1980s London. It traces NAT's identification with a particular stream of post punk postmodern expression a celebration of the abject an aesthetic of entropy and a do it yourself provisionality. NAT has most often been documented in reference to Nigel Coates the instigator of NAT which has led to a one sided one dimensional record of NAT's place in architectural history. This book sets out a more detailed contextual history of NAT told through photographs drawings and ephemera restoring a truer polyvocal narrative of the group's ethos and development.

Software Reading Techniques Yang-Ming Zhu, 2016-11-17 Learn twenty software reading techniques to enhance your effectiveness in reviewing and inspecting software artifacts such as requirements specifications designs code files and usability. Software review and inspection is the best practice in software development that detects and fixes problems early. Software professionals are trained to write software but not read and analyze software written by peers. As a result individual reading skills vary widely. Because the effectiveness of software review and inspection is highly dependent on individual reading skills differential outcomes among software readers vary by a factor of ten. *Software Reading Techniques* is designed to close that gap. Dr Yang Ming Zhu's depth of experience as a software architect team leader and scientist make him singularly well equipped to bring you up to speed on all the techniques and tips for optimizing the effectiveness and efficiency of your software review and inspection skills. What You'll Learn: Improve software review inspection procedures and reading skills. Study traditional and modern advanced reading techniques applicable to software artifacts. Master specific reading techniques for software requirements specification software design and code. Who This Book Is For: Software professionals and software engineering students and researchers. **New Ecology for Education —**

Ma, Chi-Keung Chan, Kar-wai Tong, Heidi Fung, Cheuk Wai Rose Fong, 2017-05-18 This book gathers the best papers from the HKAECT AECT 2017 Summer International Research Symposium. Revealing the complex interactions between communication and learning which are represented by the symbol X in the title it provides a platform for knowledge exchange on the new ecology for education in the digital era. It also equips readers to handle complex issues in both communication and education and clarifies the difference between practitioners and academics in communication and in education.

*Cartographic Grounds* Charles Waldheim, Jil Desimini, 2016-06-28 Mapping has been one of the most fertile areas of exploration for architecture and landscape in the past few decades. While documenting this shift in representation from the material and physical description toward the depiction of the unseen and often immaterial *Cartographic Grounds* takes a critical view toward the current use of data mapping and visualization and calls for a return to traditional cartographic techniques to reimagine the manifestation and manipulation of the ground itself. Each of the ten chapters focuses on a single cartographic technique: sounding spot elevation isobath contour hachure hatch shaded relief land classification figure ground stratigraphic column cross section line symbol conventional sign and illustrates it through
