

SPINOSAUR

SPECIES: *Spinosaurus Paucicostatus*
 TIME: Cretaceous
 DIST: Canada
 TEMPERATURE: Tropical

Also
 Among the few
 creatures on the
 island that can match
 T-Rex in size,
 Spinosaurus Paucicostatus
 has not quite reached
 its maturity.

Spinosaurus' first kill
 has been his most
 easily won as yet,
 an interesting fact in
 itself.

The most comforting fact about Spinosaurus is that it seems
 more at home when water than away from it. While the
 creature is certainly more at home, it tends to behave
 more boldly as it gets farther from it. On one occasion, I
 may escape a Spinosaurus by getting far enough from its
 land home to make it simply not interested.

Quantities
 Spinosaurus is an extremely
 well-matched apex predator.
 Farther than a T-Rex in size,
 and to make an even
 more a T-Rex, and closer
 than a T-Rex, its all-then-
 now relatively easy to maintain.
 For shorter and now to show a
 well-matched mount, Spinosaurus
 may be the best choice — if
 they are around and.

Science and Earth History Arthur Newell Strahler, 1999 In this comprehensive treatment of the ongoing conflict between creationists and evolutionary scientists well known geomorphologist Arthur Strahler carefully examines creationists' claims of scientific evidence for the six day divine creation of the universe followed by the catastrophic flood of Noah as claimed in Genesis The creationists' arguments are examined and evaluated against the findings of mainstream science in the fields of cosmology astronomy geophysics geology paleontology and evolutionary biology Updated with a new preface and responses to recent attacks on evolutionary theory Science and Earth History can serve as both a popular overview of earth history and as a scholarly anecdote to the fictions of creationism once again finding their way into classrooms and universities Strahler illuminates the controversy by reviewing the philosophy methodology and sociology of empirical science as contrasted with the belief systems of religion and pseudoscience The author also includes lucid criteria for distinguishing science from pseudoscience and reviews the great discoveries and developments in science that point to the evolution of life over the earth's three billion year history

The Scientific Case Against Scientific Creationism Jon P. Alston, 2003-09 Sociologist Jon P. Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles
