Talvacchia,2019-04-18 Does anyone need to come out anymore Queer theory has challenged the idea of coming out as problematic for its false binary and essentialized version of identity If gender is a socially constructed performativity then what does coming out mean At the same time we live in a society that still struggles with structures of power that define what is considered normal and sanctions those who transgress The intersectionality of gender with race class ethnicity nationality abilities religion age and other positional markers challenge a simplified belief that coming out is not necessary Therefore in the lived experience of many persons coming out still matters This book initiates a different theological conversation about coming out It argues that rather than the declaration of an identity category coming out can be understood as the erotic ethical practice of truth telling The formation of conscience and moral integrity embody the two pillars of this erotic practice Coming out understood as disruptive coherence is the erotic ethical practice of truth telling grounded in our deepest desires to be known authentically in community *Learning Our Names* Sabrina S. they are going through especially when there is no relief from the traumatic symptoms for the sufferer This phenomenological study and theological analysis reveals that there is a triumphalistic attitude within Pentecostalism that does not adequately prepare pastors to understand or cope with trauma The way forward is for clergy to understand trauma not through traditional Pentecostal theology but by incorporating Martin Luther s theologia crucis and his practice of lament into existing Pentecostal theology and praxis Consideration of literature on trauma studies Pentecostal theology and Luther s theology of the cross and his practice of lament are utilized to highlight the need and the suggested remedy
