Robert A. Norman

Discovery Magazine:

Discover Magazine's Vital Signs Robert A. Norman, 2013-11-01 *Vital Signs* a popular column featured in *Discover Magazine* has long been a favorite of readers showcasing each month fascinating new tales of strange illnesses and diseases that baffle doctors and elude diagnosis Each tale is true and borders on the unbelievable It's no wonder that throughout the years the column has become an unofficial textbook for medical students interns doctors and anyone interested in human illness and staying healthy Now physician and *Vital Signs* editor Robert Norman has compiled the very best of the series into an intriguing and suspenseful collection for fans and new readers alike A young woman carries a baby that wasn't her own and wasn't even a human Aretha Franklin gives a physician the insight needed to save a life a modern gynecologist faces an ancient disease These cases and more representing a wide variety of unique medical anomalies and life or death situations bring readers to the front lines of the medical fray Fans of hit medical dramas such as *House MD* will savor the opportunity to read of the real life cases that puzzled doctors the gripping detective work that ensued and the completely unexpected often life saving diagnoses *Discover Magazine's Vital Signs* is a glimpse into the exciting work of real medical professionals told from their perspective and revealing that anything can happen in medicine Readers will never look at a routine check up the same again

Undreamed Shores Frances Larson, 2021-03-04 In the first decades of the 20th century five women Katherine Routledge Maria Czaplicka Winifred Blackman Beatrice Blackwood and Barbara Freire Marreco arrived at Oxford to take the newly created Masters in Anthropology Though their circumstances differed radically all were intent on visiting and studying remote communities a world away from their own Through their work they resisted the prejudices of the male establishment proving that women could be explorers and scientists too In the wastes of Siberia in the villages and pueblos of the Nile and New Mexico on Easter Island and in the uncharted interior of New Guinea they found new freedoms yet when they returned to England loss madness and self doubt awaited them Frances Larson's masterful group biography is a revelatory portrait of five hidden heroines of British scholarship

Discovery Ricki Lewis, 2009-05-11 The goal of *Discovery Science as a Window to the World* is to relay the excitement of science by exploring selected topics in biology and medicine in a way that reveals the process of discovery Each chapter will focus on the curiosity and creativity that drives scientists to wonder observe question and experiment One impetus for this project is the recognition of a growing demand among instructors for a book that departs from fact stuffed textbooks and instead engages students in the discovery process at a personal level Emphasizes the process of discovery through interviews and key experiments Written by a best selling author Provides an in depth conversational look at the science behind several hot topics in biology Each chapter traces the beginnings of the field with stories of how serendipity and scientific inquiry intertwine Presents the background to a field by including the scientific literature so the reader does not have to do a literature search or plow through a review article Many essays introduce the work of overlooked scientists or unsung heroes Alexey Olovnikov telomeres Leroy Steven stem cells to

name a few Also well known scientists are interviewed Stanley Miller Carl Woese John Gearhart and others The essays show how ideas interact and coalesce from different lines of research Highlights the role of the media in interpreting science for the public
