Basics Of Philippine Medical Jurisprudence And Ethics Gbv:

Gender-based Violence and Public Health Keerty Nakray, 2013-02-11 Gender based violence is a multi faceted public health problem with numerous consequences for an individual s physical and mental health and wellbeing This collection develops a comprehensive public health approach for working with gender based violence paying specific attention to international budgets policies and practice and drawing on a wide selection of empirical studies Divided into two parts the text looks at how public health budgets and policies can be used to influence a range of risk factors and outcomes and then outlines a theoretical and conceptual framework The second section draws on empirical studies to illustrate ways of managing the risks and impacts of and responses to the problem It concludes by summarising those risk factors that can be effectively addressed through appropriately budgeted public health programmes globally Highlighting ways of bolstering protective and resilience factors and identifying early interventions it demonstrates the importance of inter agency interventions through coordinated effort from a wide range of sectors including social services education religious organisations judiciary police media and business This inter disciplinary volume will interest students and researchers working on gender based violence gender budgeting and public health policy from a range of backgrounds including public health sociology social work public policy gender studies development studies and economics Gender and International Criminal Law Indira Rosenthal, Valerie Oosterveld, Susana SáCouto, 2022-06-16 The last few decades have seen remarkable developments in international criminal justice especially in relation to the pursuit of individuals responsible for sexual violence and other gender based crimes Historically ignored justified or minimised this category of crimes now has a heightened profile in the international political and judicial arena Despite this gender is poorly understood and blind spots biases and stereotypes prevail This book brings together leading feminist international criminal and humanitarian law academics and practitioners to examine the place of gender in international criminal law ICL It identifies and analyses past and current narrow understandings of gender before considering how a limited conceptualization affects accountability efforts The authors consider how best to implement a more nuanced understanding of gender in the practice of international criminal law by identifying possible responses including embedding a sophisticated gender strategy into the practice of ICL the gender sensitive application of international human rights and humanitarian law and encouraging a gender competent approach to judging in ICL The authors aim is to strengthen efforts for accountability for all atrocity crimes war crimes crimes against humanity genocide and aggression *Global Education in Bioethics* Henk ten Have, 2018-06-14 This book presents and elaborates on how the teaching of global ethics in healthcare contributes to furthering ideals of cosmopolitanism solidarity equality respect for differences and concern with what human beings and specifically patients have in common regardless of where they live and who they are Global problems such as pandemic diseases disasters lack of care and medication homelessness and displacement call for global responses The new area of global bioethics is providing

answers by arguing that ethical discourse should first of all criticize the structures of violence and injustice that underlie many threats to global health Education of health professionals should articulate that they are citizens of the world like their patients This book first demonstrates that a moral vision of global education is necessary to gain a global dimension It is argued that a global framework of ethical principles is available the challenge is to elaborate and specify that framework into specific educational approaches and models The book subsequently analyzes goals and challenges of global education in biomedicine and healthcare It is shown how such challenges e g inequities and cultural differences can be overcome Finally the book presents concrete examples cases methods and practices of global education in bioethics The unique feature of the book is that it addresses global education challenges specifically in the area of healthcare medicine and medical science It combines two areas of research and experience that are usually not connected global bioethics and global education This book is written for all those involved in global ethics teaching in medicine nursing ethics philosophy law and theology courses
