Pollock,Laura J. Tolone,2020-12-16 In this second edition of Improving Student Learning One Teacher at a Time Jane E

Pollock and Laura J Tolone combine updated research and real world stories to demonstrate how it takes only one teacher to make a difference in student performance Their approach expands the classic three part curriculum instruction assessment framework by adding one key ingredient feedback This Big Four approach offers an easy to follow process that helps teachers build better curriculum documents with Curriculum standards that are clear and well paced and describe what students will learn Instruction based in research from daily lessons to whole units of study Assessment that maximizes feedback and requires critical and creative thinking Feedback that tracks and reports individual student progress by standards Pollock and Tolone demonstrate how consistent timely feedback from multiple sources can help students monitor their own understanding and help teachers align assignments quizzes and tests more explicitly to the standards The Big Four shifts the focus away from the basics of what makes a good teacher toward what makes good learning happen for every student every day

Self-Alteration Jean-Paul Baldacchino, Christopher Houston, 2023-11-10 Many of us feel a pressing desire to be different to be other than who we are Self conscious we anxiously perceive our shortcomings or insufficiencies wondering why we are how we are and whether we might be different Often we wish to alter ourselves to change our relationships and to transform the person we are in those relationships Not only a philosophical question about how other people change self alteration is also a practical care can I change and how Self Alteration How People Change Themselves across Cultures explores and analyzes these apparently universal hopes and their related existential dilemmas The essays here come at the subject of the self and its becoming through case studies of modes of transformation of the self They do this with social processes and projects that reveal how the self acquires a non trivial new meaning in and through its very process of alteration By focusing on ways we are allowed to change ourselves including through religious and spiritual traditions and innovations embodied participation in therapeutic programs like psychoanalysis and gendered care services and political activism or relationships with animals the authors in this volume create a model for cross cultural or global analysis of social self change that leads to fresh ways of addressing the self itself
