Payne, 1996 American nature writers as literary artists political catalysts The Ecocentrists Keith Makoto Woodhouse, 2018-06-05 Disenchanted with the mainstream environmental movement a new more radical kind of environmental activist emerged in the 1980s Radical environmentalists used direct action from blockades and tree sits to industrial sabotage to save a wild nature that they believed to be in a state of crisis Questioning the premises of liberal humanism they subscribed to an ecocentric philosophy that attributed as much value to nature as to people Although critics dismissed them as marginal radicals posed a vital question that mainstream groups too often ignored Is environmentalism a matter of common sense or a fundamental critique of the modern world In The Ecocentrists Keith Makoto Woodhouse offers a nuanced history of radical environmental thought and action in the late twentieth century United States Focusing especially on the group Earth First Woodhouse explores how radical environmentalism responded to both postwar affluence and a growing sense of physical limits While radicals challenged the material and philosophical basis of industrial civilization they glossed over the ways economic inequality and social difference defined people's different relationships to the nonhuman world Woodhouse discusses how such views

Wild Visions Ben A. Minteer, Mark Klett, Stephen J. Pyne, 2022-01-01 A stunning combination of landscape photography and thematic essays exploring how the concept of wilderness has evolved over time Our ideas of wilderness have evolved dramatically over the past one hundred and fifty years from a view of wild country as an inviolable place apart to one that exists only within the matrix of human activity This shift in understanding has provoked complicated questions about the importance of the wild in American environmentalism as well as new aesthetic expectations as we reframe the wilderness as to some degree a human creation Wild Visions is distinctive in its union of landscape photography and environmental thought a merging of short thematic essays with a striking visual narrative Often the wild is viewed in binary terms either revered as sacred and ecologically pure or dismissed as spoiled by human activities. This book portrays wilderness instead as an evolving gamut of understandings a collage of views and ideas that is still in process **Light as Air** Jonny Morrison, 2022-09-30 Light as Air offers readers freedom from unmet desires a way to disrupt broken systems and an invitation into a life of depth and creative action How By exploring the story of Jesus and the way his kingdom engages our dissatisfaction and invites us into the life we were made for Jesus kingdom is a political reality that overthrows broken systems cultivates meaningful connection and empowers us for creative action Light as Air shows us how to live into and out of Jesus kingdom in a way that gives hope to a dissatisfied world Störfall Pandemie und seine grenzüberschreitenden Wirkungen Carsten Gansel, José Fernández Pérez, 2022-11-14 Der Band geht von st rungstheoretischen berlegungen aus und zeigt inwieweit die Corona Pandemie zu einem St rfall mit grenz berschreitenden Wirkungen geworden ist Die Pandemie betrifft in globaler Perspektive s mtliche Teilsysteme von Gesellschaft und hat entsprechende Reaktionen ausgel st Die Beitr ge fragen danach in welcher Weise u a Politik und Medien in der entstandenen Ausnahmesituation agieren Nicht zuletzt geht es um die Rolle die Kunst und Literatur bei der Auseinandersetzung mit einem St rfall wie der Pandemie spielen The volume starts from disruption theory considerations and shows to what extent the Corona pandemic has become a disruptive event with transboundary effects From a global perspective the pandemic affects all subsystems of society and has triggered corresponding reactions The contributions ask in what way politics and the media among others are acting in the exceptional situation that has arisen
