Spacetime narrative Frank den Ouden, 2011 space time narrative calls for a paradigmatic shift of focus It puts forward a unique approach breaking down traditional barriers and offering a wide ranging theoretical context redefining and expanding the parameters and the dynamics of the exhibition format in terms of an open narrative environment which at its roots displays deep similarities with performance on stage or installation in urban and rural space **Chapter and Verse** Bernard Sumner, 2025-06-25 Bernard Sumner pioneered the post punk movement when he broke onto the scene as a founding member of Joy Division and later as the front man of New Order Heavily influencing U2 and The Cure while paving the way for post punk revivalists like Interpol Sumner s has left an indelible mark on punk and rock music that endures to this day Famously reluctant to speak out for the first time Sumner tell his story a vivid and illuminating account of his childhood in Manchester the early days of Joy Division and the bands subsequent critical and popular successes Sumner recounts Ian Curtis tragic death on the eve of the band s first American tour the formation of breakout band New Order and his own first hand account of the ecstasy and the agony of the 1970s Manchester music scene Witty fascinating and surprisingly moving Chapter and Verse is an account of insights and spectacular personal revelations including an appendix containing a complete transcript of a recording made of Ian Curtis experiencing hypnotic regression under the Sumner s amateur guidance and tensions between himself and former band member Peter Hook Vinyl Dominik Bartmanski, Ian Woodward, 2020-06-08 Recent years have seen not just a revival but a rebirth of the analogue record More than merely a nostalgic craze vinyl has become a cultural icon As music consumption migrated to digital and online this seemingly obsolete medium became the fastest growing format in music sales Whilst vinyl never ceased to be the favorite amongst many music lovers and DJs from the late 1980s the recording industry regarded it as an outdated relic consigned to dusty domestic corners and obscure record shops So why is vinyl now experiencing a rebirth of its cool Dominik Bartmanski and Ian Woodward explore this question by combining a cultural sociological approach with insights from material culture studies

Presenting vinyl as a multifaceted cultural object they investigate the reasons behind its persistence within our technologically accelerated culture Informed by media analysis urban ethnography and the authors interviews with musicians DJs sound engineers record store owners collectors and cutting edge label chiefs from a range of metropolitan centres renowned for thriving music scenes including London New York Tokyo Melbourne and especially Berlin what emerges is a story of a modern icon
