Destined For Equality:

Destined for Equality Robert Max Jackson, 2010-09-30 Men and women remain unequal in the United States but in this provocative book Robert Max Jackson demonstrates that gender inequality is irrevocably crumbling *Destined for Equality* the first integrated analysis of gender inequality's modern decline tells the story of that progressive movement toward equality over the past two centuries in America showing that women's status has risen consistently and continuously Jackson asserts that women's rising status has been due largely to the emergence of modern political and economic organizations which have transformed institutional priorities concerning gender Although individual politicians and businessmen generally believed women should remain in their traditional roles Jackson shows that it was simply not in the interests of modern enterprise and government to foster inequality The search for profits votes organizational rationality and stability all favored a gender neutral approach that improved women's status The inherent gender impartiality of organizational interests won out over the prejudiced preferences of the men who ran them As economic power migrated into large scale organizations inherently indifferent to gender distinctions the patriarchal model lost its social and cultural sway and women's continual efforts to rise in the world became steadily more successful Total gender equality will eventually prevail the only questions remaining are what it will look like and how and when it will arrive

On Destiny Nicholas J. Pappas, 2016. Philosopher Nick Pappas invites us to join the conversation as a few wise friends explore what it takes to live a meaningful life, to produce meaningful art, and to support others in their own efforts to fulfill their potential. How do we make the most of our lives? Is there a meaning, a goal, a purpose? Is it all a matter of chance, or do we each have a destiny that beckons? Can we

knowingly move toward it and can we choose to avoid it From the rational logical perspective on one hand and that of intuition passion and inspiration on the other different characters address these questions over a series of exchanges that encourage us to pause taking a deeper look at how we re living our lives and shaping who we are **A Destiny of Choice?** David Blanke,David Steigerwald,2013-02-21 In the twentieth century Americans thought of the United States as a land of opportunity and equality To what extent and for whom this was true was of course a matter of debate however especially during the Cold War many Americans clung to the patriotic conviction that America was the land of the free At the same time another national ideal emerged that was far less contentious that arguably came to subsume the ideals of freedom opportunity and equality and that eventually embodied an unspoken consensus about what constitutes the good society in a postmodern setting This was the ideal of choice broadly understood as the proposition that the good society provides individuals with the power to shape the contours of their lives in ways that suit their personal interests idiosyncrasies and tastes By the closing decades of the century Americans were widely agreed that theirs was or at least should be the land of choice In *A Destiny of Choice* David Blanke and David Steigerwald bring together important scholarship on the tension between two leading interpretations of modern American consumer culture That modern consumerism reflects the social cultural economic and political changes that accompanied the country s transition from a local producer economy dominated by limited choices and restricted credit to a national consumer marketplace based on the individual selection of mass produced mass advertised and mass distributed goods This debate is central to the economic difficulties seen in the United States today Race and Manifest Destiny Reginald Horsman,1981 American myths about national character tend to overshadow the historical realities Reginald Horsman s book is the first study to examine the origins of racialism in America and to show that the belief in white American superiority was firmly ensconced in the nation s ideology by 1850 The author deftly chronicles the beginnings and growth of an ideology stressing race basic stock and attributes in the blood He traces how this ideology shifted from the more benign views of the Founding Fathers which embraced ideas of progress and the spread of republican institutions for all He finds linkages between the new racist ideology in America and the rising European ideas of Anglo Saxon Teutonic and scientific ideologies of the early nineteenth century Most importantly however Horsman demonstrates that it was the merging of the Anglo Saxon rhetoric with the experience of Americans conquering a continent that created a racist philosophy Two generations before the new immigrants began arriving in the late nineteenth century Americans in contact with blacks Indians and Mexicans became vociferous racials In sum even before the Civil War Americans had decided that peoples of large parts of this continent were incapable of creating or sharing in efficient prosperous democratic governments and that American Anglo Saxons could achieve unprecedented prosperity and power by the outward thrust of their racialism and commercial penetration of other lands The comparatively benevolent view of the Founders of the Republic had turned into the quite malevolent ideology that other peoples could not be regenerated

Historical Destiny and National Socialism in Heidegger's Being and Time Johannes Fritzsche, 2023-04-28 There has been much debate over the relationship of Heidegger's philosophy in particular his book *Being and Time* to his practical involvement with National Socialism Yet the question has never been addressed through a comparison of *Being and Time* with other texts on history and politics written at the time Johannes Fritzsche does this providing a detailed interpretation of the relevant passages in *Being and Time* especially sections 72-77 on fate community and society He analyzes for comparison two other authors who explicitly regarded themselves as rightists Adolf Hitler *Mein Kampf* and Max Scheler *Formalism in Ethics* and other writings and two authors on the left Georg Lukács *History and Class Consciousness* and Paul Tillich *The Socialist Decision* Fritzsche concludes that *Being and Time* is a brilliant summary of right wing politics in general which proposes the destruction of liberal society in order to regenerate an idealized community In addition Heidegger rejects positions on the right such as Scheler's that enabled their authors to distance themselves from the most extreme political rightists and thus he paves the way for National Socialism *Being and Time* Fritzsche demonstrates must be seen as a clear case for the National Socialists and their project of revitalization of the *Volksgemeinschaft* the community of the people This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999

Wealth, Poverty, and Human Destiny Doug Bandow, David Schindler, 2014-05-06 The rapid spread of the liberal market order across the globe poses a host of new and complex questions for religious believers indeed for anyone concerned with the intersection of ethics and economics Is the market economy particularly as it affects the poor fundamentally compatible with Christian moral and social teaching Or is it in substantial tension with that tradition In *Wealth*

Poverty and Human Destiny editors Doug Bandow and David L Schindler bring together some of today's leading economists theologians and social critics to consider whether the triumph of capitalism is a cause for celebration or concern Michael Novak Richard John Neuhaus Max Stackhouse and other defenders of democratic capitalism marshal a number of arguments in an attempt to show that among other things capitalism is more Christian in its foundation and consequences than is conceded by its critics that as Stackhouse and Lawrence Stratton write the roots of the modern corporation lie in the religious institutions of the West and that as Novak contends globalization is the natural ecology of Christianity The critics of liberal economics argue on the other hand that it is historically and theologically shortsighted to consider the global capitalist order and the liberalism that sustains it as the only available option Any system which has as its implicit logic that stable and preserving relationships among people places and things do not matter and are of no worth in the words of Wendell Berry should be regarded with grave suspicion by religious believers and all men and women of goodwill Bandow and Schindler take up these arguments and many others in their responses which carefully consider the claims of the essayists and thus pave the way for a renewed dialogue on the moral status of capitalism a dialogue only now re-emerging from under the Cold War rubble The contributors' fresh insightful examinations of the intersection between religion and economics should provoke a healthy debate about the intertwined issues of the market globalization human freedom the family technology and democracy
