The British Adventure Hero Leo Hall, 2025-07-26 This book explores the construction of the fin de siècle adventure hero set against a romanticised vision of the past and a nostalgic ideal of gentlemanliness but also forward looking in terms of forging a future for Britain through the imperialist dream The British Adventure Hero offers a unique focus on how the adventure hero's masculinity is shaped by Victorian industrial technological and scientific developments which influenced concepts of national identity both psychologically and physiologically Central to exploring the relationship between the adventure hero and industrialisation are the original illustrations that were printed with the stories in periodicals and the first illustrated editions This approach to studying the partnership between both text and illustrations demonstrates that the adventure story is a paradox an outcome of invention scientific technological and industrial progress yet also a supposed escape from nineteenth century industrial modernity The book traces this context through analysis of Robert Louis Stevenson's *Treasure Island* 1883 Arthur Conan Doyle's *The Lost World* 1912 Jules Verne's *Around the World in Eighty Days* 1873 and Edgar Rice Burroughs's *Tarzan of the Apes* 1912 Significantly the book also examines how these authors perspectives on the idealised English identities of their heroes are informed by their Scottish French and American nationalities

Drawing on the Victorians Anna Maria Jones, Rebecca N. Mitchell, 2016-12-15 Late nineteenth century Britain experienced an unprecedented explosion of visual print culture and a simultaneous rise in literacy across social classes New printing technologies facilitated quick and cheap dissemination of images illustrated books periodicals cartoons comics and ephemera to a mass readership This Victorian visual turn prefigured the present day impact of the Internet on how images are produced and shared both driving and reflecting the visual culture of its time From this starting point *Drawing on the Victorians* sets out to explore the relationship between Victorian graphic texts and today's steampunk manga and other neo Victorian genres that emulate and reinterpret their predecessors Neo Victorianism is a flourishing worldwide phenomenon but one whose relationship with the texts from which it takes its inspiration remains underexplored In this collection scholars from literary studies cultural studies and art history consider contemporary works Alan Moore's *League of Extraordinary Gentlemen* Moto Naoko's *Lady Victorian* and Edward Gorey's *Gashlycrumb Tinies* among others alongside their antecedents from Punch's 1897 Jubilee issue to *Alice in Wonderland* and more They build on previous work on neo Victorianism to affirm that the past not only influences but converses with the present Contributors Christine Ferguson Kate Flint Anna Maria Jones Linda K Hughes Heidi Kaufman Brian Maidment Rebecca N Mitchell Jennifer Phegley Monika

Pietrzak Franger Peter W Sinnema Jessica Straley **Cartoon Cultures** Anne Cooper-Chen, 2010 From 1993 to 2003 exports of Japan's cartoon arts tripled in value to 12.5 billion. Fan phenomena around the world in U.S. malls, teen girls flock to purchase the latest *Fruits Basket* graphic novel in Hungary, young people gather for a summer cosplay costume dress-up event, illustrate the global popularity of manga and anime. Drawing on extensive research and more than 100 original interviews, Anne Cooper-Chen explains how and why the un-Disney has penetrated nearly every corner of the planet. This book uses concepts such as cultural proximity, uses and gratifications, and cultural variability to explain cross-cultural adaptations in a broad international approach. It emphasizes that overseas acceptance has surprised the Japanese who create manga and anime primarily for a domestic audience. Including some sobering facts about the future of the industry, the book highlights how overseas enthusiasm could actually save a domestic industry that may decline in the contracting and graying country of its birth. Designed for courses covering international mass media, media and globalization, and introduction to Japanese culture, the book is written primarily for undergraduates and includes many student-friendly features such as a glossary, timeline, and source list. *Anime and Manga Recognized Articles*, *Popular Music, Cultural Politics and Music Education in China* Wai-Chung Ho, 2016-12-08 While attention has been paid to various aspects of music education in China to date, no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China. Before the implementation of the new curriculum reforms in China at the beginning of the twenty-first century, there was neither Chinese nor Western popular music in textbook materials. Popular culture had long been prohibited in school music education by China's strong revolutionary orientation, which feared spiritual pollution by Western cultures. However, since the early twenty-first century, education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum. In relation to this topic, this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education. Ho presents music and music education as sociopolitical constructions of nationalism and globalization. Moreover, how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education, as well as the reformation of music education in mainland China, is discussed. Based on the perspectives of school music teachers and students, the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland.
