## **Detour My Bipolar Road Trip In 4 D:**

Detour Lizzie Simon, 2003-06-18 In the fall of 1999 23 year old Simon hit the road on a journey that took her across the United States Her inspired interviews with other young men and women suffering from manic depression comprise the heart and soul of this remarkable memoir

Goodbye Mom George Staursky, 2004-11 This book is not a biography about a man but rather it is about a Journey This is a Journey through life with this illness Bipolar Disorder and all the dynamics that go along with it This book shows how a man faced the consequences of this disease and all its pain bigotry and anguish but this journey also shows how he defeated the disease This is a book of his Journey through trauma tragedy and recovery This book is a riveting account of that journey It includes others who have suffered the indignities of this illness It brings to life an account of a story that could be written by many different people over time Destroying a life to save the same life could be construed by many as an oxymoron However in this case it fits the scenario perfectly As in the story of Dr Jekyll and Mr Hyde there had to be destruction of one s inner self to save everyone from the inner demons plaguing Dr Jekyll

While most people are familiar with the terms manic depressive and BP there remains a lack of real understanding about the illness and many sufferers and their families can feel helpless alone and misunderstood. Spin Between Never and Ever Shannon C. Flynn, 2010-10-26 I hunched at my school desk seventeen and slipping into an abyss whose shadow I had barely glimpsed before. My left hand shook with free associations in a spatter of words that galloped through my head and outside the margins of lined notebook paper. Dark. It's so dark like it was night even though it's 8:00 in the morning. Warning. Everything's going to fall apart. My heart will break and take away everything. My mind is fading fast. Fast. Vast emptiness. Oh help. The universe is coming to get me. I whirled and then faded dead inside into a suffocating fog. Speaking of dead that was all I wanted. Well it wasn't that I wanted to die. I had to. I needed to escape the tumult that was exhausting my emotional and physical resources. And I had to die because I deserved to. Because I was evil. I knew that I had transformed absolutely into a rotten core. I had recently discovered this one horrifying night when it became clear as I raced around my bedroom that I was the reincarnation of Judas Iscariot betrayer of Jesus. And I would plunge to Hell like he had so why shouldn't I kill myself now to get it over with. Especially since I only burdened everyone around me. My family and friends would rejoice once I was dead. These thoughts progressed to the point that I could no longer touch anyone in order that I not contaminate them with my toxic essence. Then I could no longer allow my fingers or limbs to touch each other because somehow this was evil too. Soon God no longer permitted me to eat or sleep because I was such a monstrosity. I stopped showering and changing clothes almost stopped speaking. No longer able to attend high school I shrunk my days to mere huddling on a chair in our living room guarded by my parents and siblings in shifts. Every moment I could snatch to myself I punched holes in my wrist with a safety pin hidden in my sleeve. One afternoon

left alone for a minute I crept furtively to the top of the second floor flight of stairs about to hurl myself down them until I was discovered and tugged back downstairs held tightly by the hand Finally my mind and body were so clamped down by dark gravity that I was no longer able to hurt myself One day I simply goggled at the unfamiliar face in our cold bathroom mirror Who is that Im not me anymoreIm an alien I decided Someone or something has stolen my identity and taken me over Well it can have me I surrender because I am worth nothing anyway So nothing matters I certainly dont matter During those gray hours days and months my mind cramped into nothing but ruminations of worthlessness and I didnt matter to myself at all Luckily of course to my parents and brothers and sisters I did matter very much Even if they puzzled over what was happening to me as much as I did they intuited my distress and incapacitization and got me help My family brought me to a psychiatric hospital where I stayed for a month I was diagnosed with depression with psychotic features and given antidepressants and an antipsychotic While in the hospital I discovered art therapy and painted surreal abstracts and wrote long narrative poems about my depression and recovery And recover I did into the blessed contentment of feeling like myself again a brighter happier self at that Now armed with a name for what ailed me I consumed volumes about depression and bipolar disorder I devoured books and articles about psychotropic medications and art therapy and theories of psychiatric rehabilitation and mood charting and the consumer movement I discovered Kay Redfield Jamison Ph D who became a role model and pored over her memoir *An Unquiet Mind* and *Manic Depressive Illness* the authoritative text on bipolar disorder that Jamison wrote with Frederick Goodwin MD I involved myself with one of the nations leading mental health advocacy organizations the National Alliance on Mental Illness abbreviated as NAMI and later assumed a leadership role *Psychology Today* *Taming Bipolar Disorder* Lori Oliwenstein, 2004-12-07 Living and thriving with bipolar disorder Bipolar disorder is about the wildest of euphorias and the deepest of depressions Now Alpha Books and Psychology Today present all the information guidance and support people with bipolar disorder and their loved ones need in order to thrive This important book contains cutting edge research and straightforward advice from the most respected names on bipolar disorder along with the most up to date information on mental health organizations and support and advocacy groups In addition readers will find inspiring stories of courage and triumph More than two million Americans live with bipolar disorder and it s on the rise among children and adolescents Includes strategies for navigating the health care system nurturing relationships advancing in the workplace and repairing bridges burned during mania and depression Features the latest research from new pharmaceuticals to innovative therapies dietary changes to acupuncture light therapy to mood charting **All in My Head** Paula Kamen, 2009-04-24 At the age of twenty four Paula Kamen s life changed in an instant While she was putting in her contacts the left lens disturbed a constellation of nerves behind her eye The pain was more piercing than that of any other headache she had ever experienced More than a decade later she still has a headache the exact same headache From surgery to a battery of Botox injections to a dousing of Lithuanian holy water from a mountain of pharmaceutical products to
