**Espana** Miguel Sánchez-Mazas, 1955      **Fraseología, Diatopía y Traducción / Phraseology, Diatopic Variation and Translation** Pedro Mogorrón Huerta, Antonio Albaladejo-Martínez, 2018-11-15 In all languages humans frequently use linguistic combinations called phraseological units PUs in communicative acts These PUs are characterized by their institutionalized fixation and in many cases by their opacity Traditionally the work on phraseology has placed the emphasis on the total fixing of components and structures of verbal expressions Variation in PUs is currently an uncontested fact and has been extensively studied and analyzed In addition in the case of languages like Spanish English French spoken in many countries new creations or diatopic variants arise While these diatopic expressions have been collected or analyzed in their territory of influence no comprehensive collection showing all the expressions and contrastive analysis to observe the similarities and differences between these diatopic creations with all their idiosyncratic and cultural references have been made so far The content of this volume deals with numerous linguistic lexicographic and translational problems in the context of language variation in general as well as specifically related to diatopic variation The aim is to make progress in these challenging and highly interesting areas which still pose many comprehension and translation problems

*Colocaciones y fraseología en los diccionarios* Carmen Mellado Blanco, 2008 Este volumen se centra en el tema de la fraseología y consta de dos apartados En el primero se exponen cuestiones de morfosintaxis y un balance sobre el estudio de las colocaciones principalmente del español La inclusión o exclusión de las colocaciones del ámbito de la fraseología a su potencial sintagmático combinatorio su uso y frecuencia en el lenguaje jurídico y coloquiales como su tratamiento lexicográfico son otros de los aspectos tratados En el segundo apartado del libro se abordan temas de fraseografía desde una perspectiva teórica y práctica especialmente en cuanto a las técnicas específicas para la elaboración de diccionarios idiomáticos monolingües y bilingües Asimismo se muestran los avances en la macro y microestructura de estos diccionarios gracias a la lingüística de corpus      **Paremiología** Lucía Navarro-Brotons, 2022-11-15 La importancia del estudio de la fraseología en general y de la paremiología en particular viene avalada tanto por el interés que han suscitado las unidades fraseológicas desde la Antigüedad como porque los investigadores del tema ponen de manifiesto que se trata de la piedra angular del léxico y acervo cultural de toda lengua En este marco esta monografía presenta un breve recorrido histórico de la paremiografía y paremiología en España y Francia comprueba si existe un vacío cuantitativo y cualitativo en el tratamiento lexicográfico de las paremias en diccionarios sintagmáticos y generales tanto monolingües como bilingües evidencia si son similares las características sintácticas de las paremias de las estructuras a y quien qui en español y francés determina si hay un tipo de variante paremiológica que predomine sobre las demás y establece los tipos de correspondencias paremiológicas existentes aplicables

al ámbito traductológico The importance of studying phraseology in general and paremiology in particular is justified by the interest that phraseological units have aroused since ancient times but also by the fact that researchers on the subject have shown that PUs are the cornerstone of the lexicon and the cultural heritage of any language In this context this monograph provides a brief historical overview of paremiography and paremiology in Spain and France it determines whether there is a quantitative and qualitative gap in the lexicographical treatment of proverbs in both monolingual and bilingual syntagmatic and general dictionaries it determines whether the syntactic characteristics of the proverbs of the structures a and quien qui in Spanish and French are similar it identifies whether there is one type of paremiological variant that is predominant over the others and it defines the types of existing paremiological equivalences applicable to the field of translation
