The Black Migrant Athlete Munene Franjo Mwaniki, 2017-09 The popularity and globalization of sport have led to an ever increasing migration of Black athletes from the global South to the United States and Western Europe While the hegemonic ideology surrounding sport is that it brings diverse people together and ameliorates social

divisions sociologists of sport have shown this to be a gross simplification. Instead sport and its narratives often reinforce and re create stereotypes and social boundaries especially regarding race and the prowess and the position of the Black athlete. Because sport is a contested terrain for maintaining and challenging racial norms and boundaries the Black athlete has always impacted popular white perceptions of Blackness in a global manner. The Black Migrant Athlete analyzes the construction of race in Western societies through a study of the Black African migrant athlete. Munene Franjo Mwaniki presents ten Black African migrant athletes as a conceptual starting point to interrogate the nuances of white supremacy and of the migrant and immigrant experience with a global perspective. By using celebrity athletes such as Hakeem Olajuwon, Dikembe Mutombo and Catherine Ndereba as entry points into a global discourse Mwaniki explores how these athletes are wrapped in social and cultural meanings by predominately white owned and dominated media organizations. Drawing from discourse analysis and cultural studies Mwaniki examines the various power relations via media texts regarding race, gender, sexuality, class and nationality.

The Cambridge Companion to Football Rob Steen, Jed Novick, Huw Richards, 2013-07-04. Football is the world's most popular sport. It is a cultural phenomenon and a global media spectacle. For its billions of fans it serves as a common language. But where does its enduring popularity come from? Featuring essays from prominent experts in the field, scholars and journalists, this Companion covers ground seldom attempted in a single volume about football. It examines the game's oft-disputed roots and traces its development through Europe, South America and Africa, analysing whether resistance to the game is finally beginning to erode in China, India and the United States. It dissects the cult of the manager and how David Beckham redefined sporting celebrity. It investigates the game's followers, reporters and writers as well as its most zealous money makers and powerful administrators. A valuable resource for students, scholars and general readers. *The Cambridge Companion to Football* is a true and faithful companion for anyone fascinated by the people's game.

The Winning Mindset Damian Hughes, 2016-07-14. In *The Winning Mindset* Professor Damian Hughes, the acclaimed author of *Liquid Thinking* and *How to Think Like Sir Alex Ferguson*, draws on both his lifetime experience and academic background within sport organization and change psychology to reveal the best ways to create a winning mindset in both personal and professional life. Having worked with some of the top teams in the UK and watched some of the best coaches in the country at work, Hughes distils the five key principles that separate the best coaches and teams from the rest: Simplicity, Tripwires, Emotions, Practical Stories, STEPS. The role of a sports team leader is fascinating, complex and tough. Fantasy football leagues may convince us that success is all about buying players and selecting a team. In reality it is about creating winning environments, recruiting, developing and nurturing talent effectively, communicating a shared vision with a diverse collection of individuals, delivering on enormous expectations from a range of stakeholders, overcoming significant challenges, handling pressure and staying focused throughout a set of challenges familiar to leaders in all sectors.
